BOSTON

AN INDEX OF THE REPORTS APPEARING
IN THIS VOLUME WILL BE FOUND
AT THE END OF THE BOOK

INAUGURAL ADDRESS OF MAYOR THOMAS J. McGRATH,
IN COUNCIL CHAMBER, CITY HALL, MONDAY,
JANUARY 6, 1930

Gentlemen of the City Council:

As we follow the time-honored custom in Quincy of taking a survey of our municipal needs and resources at the beginning of each year I am pleased this year to briefly outline some of our problems and at the same time attempt a survey of the means to keep up with the steady demand for improvements. At one time we might have felt that there would come a period when Quincy would be called upon for only a nominal expenditure, but as we view the new year we can at least state that that happy day has not yet made its appearance. Despite dreams and illusions as to saturation points, the startling fact is that the city is entering upon a new period of development in many sections and in consequence major expenditures are more necessary now than at many periods in our history.

Before going into matters that are purely municipal I think we may with reason give a passing thought to conditions that concern us only as they affect the well-being of the city. While Quincy is not predominately an industrial city, we are, however, singularly fortunate in the number and variety of our enterprises and their prosperity is the measure by which we gauge our municipal well-being. Of course, the direct benefit to the city from its business and industry is a factor of considerable importance, but the greater factor is the indirect benefit which any city receives by providing means of employment for its citizens. As the industrial situation, except in a few specialties, was not even normally fair in 1929, the outlook for 1930 gives us greater hope that the intermittent and sectional prosperity which characterized 1929 will be displaced by conditions which will be more even and more substantial. Already portents and forecasts point to an exceptionally good year and to the members of the City Government the guarantees that slumps and uncertainties will be succeeded by a period of steadiness in industry, permanency of employment and the resultant far-reaching benefits to all the people of the city will be hailed as one of the welcome signs of the New Year. Despite the unfounded optimism which persisted in seeing prosperity where none was to be found, our merchants and manufacturers have gone steadily on to the time when conditions would be more satisfactory. The auguries of the new year are so good that we all earnestly hope that none of the splendid promises will fail of accomplishment.

Schools

Perhaps no other work done by a municipality ranks in importance to the task of the public school system. It was the first thought of the early settlers and their enthusiasm and their confidence in education has lost none of its force with the passage of time. Quincy has always been noted for its public school system and for the interest which the people take in maintaining this supremacy. To keep step with the increasing population has been a hard task, but the people have been willing to incur stupendous liabilities in order that their children might have the best in edu-

cational methods and in buildings. Since 1924 the city has completed one high school, two junior high schools, made an addition to the Daniel Webster, an elementary school at Merrymount, and one at Adams Shore, and at present is putting the finishing touches to additions to the Atherton Hough and Montclair Schools. The total cost of these buildings was \$3,330,281.87, and of this amount the sum of \$2,294,714.39 has been spent in the last three years.

By an order introduced at this meeting of the Council money is asked for an addition to the Gridley Bryant building and for more school facilities in the northern section of the city. This does not by any means meet all school needs, but considering our resources it may be that this is all that can be attempted this year. The School Committee is now considering sites for new locations, and I presume that before long the City Council will be requested to make provision for contemplated buildings. The need for increased school room is apparent now in the Wollaston and the newer section of West Quincy, the latter problem offering one of the hardest because of the new houses now being built and the great possibilities of development in the section that borders Adams street and merges with the West Quincy end of the Wollaston district. The Montclair addition will relieve the Wollaston School, but the time is not remote when a junior high school will become a necessity in the Wollaston-West Quincy section.

From this sketchy resume of the school situation it will be seen that for some years to come the City Government will be hard pressed to keep up with the steady increase in school population. If we judge by the record of the past five years it would seem that the people are not daunted by the outlook and are not dissatisfied at the mounting cost of these essentials of a modern city.

The Resources of the City

The City Council continually has before it the problem of streets, water extension, drainage and schools, but seldom hears of the greatest problem confronting our municipal government. To spend money we must have money, and to continually spend on credit is simply to invite bankruptcy. Quincy, in obedience to a State law, each year raises a certain amount of money to defray the budgetary and other expenses, and it is presumed that the money so collected shall be used for this purpose. Of a tax levy a little less than four million dollars, our collections up to December 31st were approximately sixty per cent, and the failure to collect the remaining forty per cent entailed upon the city the necessity of extending old temporary loan obligations or creating new issues. Last year we spent for temporary loan interest a sum greater than was spent for street rebuilding, almost double the amount spent on sidewalks of all kinds, a sum much greater than was actually spent on the construction of almost three miles of new streets and only slightly less than the state or county tax. This temporary loan liability has become our paramount problem and is the sole reason why our whole municipal organization fails in giving to the taxpayer real service at a reasonable cost. Our rate last year was \$28.40, and the sum spent for temporary loans was approximately \$135,000, which means that approximately $4\frac{3}{4}$ millions of valuation was used for no other purpose than to make good the deficit caused by the non-payment of taxes. Temporary loans have become a fixed debt in Quincy, which is un-

fortunately a debt which does not in any sense help in the progressive development of the city.

To carry our comparisons to a point where we may vividly see the enormous waste of interest money let us consider the relation of this temporary loan charge to other interest charges. In the budget of this year \$195,275.98 was allotted as the carrying charge for a municipal debt of \$4,525,500. To carry a temporary loan of \$2,500,000, the original issue, the sum of approximately \$135,000 was spent, only \$60,000 less than the sum required for the whole city debt. This discrepancy is in part explained by the high interest rates charged on temporary loans, another penalty which the city must pay for the failure to collect real estate taxes. We carry over this year \$1,200,000 of these notes and my whole aim is to pay these notes without renewal and by the proceeds of taxes now overdue. Elsewhere in this statistical part of this paper I am giving the whole story of these temporary loan obligations as well as the figures relating to tax collections.

For three years it has been the aim of the administration to break down the custom of deferring tax payments until late in the year after their levy. This custom has been gathering force for many years, but so far the agitation and the appeals for prompt settlements have not been satisfactory. This year it is proposed to take full advantage of a not too favorable law and by sale force delinquents to meet their obligations to the city, and thus overcome a practice that more than any other has prevented the city government from taking care of all municipal needs and at the same time make possible a lower tax rate and lower valuations.

I think it will be generally admitted that residential property values are as high if not higher than they should be in Quincy. It has been our constant effort to either stabilize or reduce these valuations, but as long as such a large proportion of taxpayers refuse to meet their payments it has been found impossible to reduce values.

Frequently people state that they were under the impression that real estate taxes are not due until April of the following year. I do not know where this fallacy started, but I think it quite opportune to state that the law requires that taxes are due and payable on October 15th and begin to bear interest if not paid before November 2nd. Immediately after the issuance of the bill the collector can send summons and demand and fourteen days after this last notice the proceedings for sale can be begun. This is the method that will be used this year, and I hope that this timely warning and the reasons for our action will cause those owing bills to make prompt settlement.

The New Excise Tax

The first attempt of the State to relieve the property taxpayer of some of his burden has been a dismal failure here. Eliminating the conscious fraud which I believe was perpetrated in many instances, there is still a large number of owners who have not yet shown any disposition to pay the automobile excise. The aggravating circumstance in the new law is the readiness with which hundreds of registrants gave fictitious addresses and thus eliminated themselves from the possibility of being found by the tax collector. The excise law never appealed to me and because of its looseness and ambiguities I did not deem it expedient to use the full estimated revenue from this source in reducing the tax rate.

We did, however, use seventy-five per cent or \$141,000, but up to the present moment only about eighty-five per cent of this amount has been collected. While we are making a tremendous effort to collect the unpaid excise the outlook is decidedly discouraging, and it may mean that a source of income which should be a help to the real property owner is tending toward an actual deficit.

I am so convinced of the futility of the present method of collecting the excise tax that I hope the incoming Legislature will give consideration to the bill to force payment before registration is issued. This is the law in some states, and in the light of our experience it seems that it is the only way in which the Legislature can keep faith with the real property taxpayer. To prolong the date of payment is simply to open a way to avoid payment altogether.

Taxation of Real Estate

The Legislature has for some time realized that the great burden of taxation fell on real estate and on certain lines of business and that other sources of income, much better able to bear some of the growing burden of taxation, were not sharing any part of this burden. A committee set up two years ago has made a report which seeks to remedy this peculiar situation, and Quincy, as well as other communities, may hope that much of this proposed legislation may be given the force of law. Progressive communities are constantly struggling with the enormous problems of schools and streets and should be given some other means than real property on which taxes can be levied. We do, of course, share in the income tax distribution, but evidently from the report of the special committee many other means of helping cities and towns may be tapped to get additional revenue. The real estate owner has too long borne the brunt of taxation and any relief will be welcomed by all municipalities.

The City Hospital

Last year the Council authorized the erection of a new hospital building with a capacity of 103 beds, and early this year this new unit will be ready for service. The growing needs of this institution call for still other units, but as our means are so limited I do not feel that we can give much attention to this matter until later in the year. The hospital is growing in influence and service and demands serious consideration as one of the most important departments. The Council has always been generous in granting credits to help this worthy institution, and I feel certain that if money is available in the later months an appropriation for an addition to the Nurses' Home and to the operating and auxiliary rooms will be granted. The Nurses' Home, which was only opened in 1927, will not be adequate when the new medical building calls for more nurses and more pupils.

The ambulance is kept at the Police Station, but this arrangement has never been wholly satisfactory. Whatever of complaint arising out of this arrangement does not come from any lack of attention or willingness to give good service on the part of those who respond to calls, but is rather due to psychological or sentimental reasons. It would, of course, be much better if the ambulance could be kept in the Hospital grounds. But our present lack is money and until we get some other pressing matters out of the way this and other urgent needs must wait.

With the completion of the new building the beautifying of the grounds becomes almost a bounden duty, and with this in mind I have asked Mr. Herbert J. Kellaway, the landscape architect, to prepare a plan for this purpose. Much has already been done to improve the grounds on the Whitwell Street side, but to give the institution its proper setting the whole area should be laid out and developed in a formal manner. With a student body of seventy-two and many graduate nurses the Hospital should provide some outdoor recreational facilities, and I have requested that Mr. Kellaway develop his plan so as to include one or more tennis courts. Members of the Council are familiar with the topography of the Hospital grounds and so do not need to be reminded of the immense amount of fill which can be taken out and used to develop the playgrounds at Monclair, Hollis Avenue and Merrymount. If, therefore, the plan meets with the approval of the Council, work on this important development could start just as soon as the frost is out of the ground. No one will deny the esthetic value of beautiful grounds, but the greater value of this improvement will be in the combination of utility and beauty.

The North Junior High Grounds

I realize the disappointment of all citizens at the delay in laying out the grounds of the North Junior High. These grounds, situated at the entrance to the city, and passed daily by thousands of people, have been a constant reproach to every one. Plans for this area have also been developed by Mr. Kellaway, but up to the present I was somewhat timid about asking for the money necessary to do the work. This is the tercentenary year of the Massachusetts Bay Colony, and I think we may make one substantial contribution to commemorate this event by making these grounds of enduring beauty.

Protection of Life and Property

The forces of the fire and police departments have been greatly increased in the last few years, these increases made necessary by the increase in population and the constant demands on the police department for more men to safeguard children and take care of the outlying sections. Lately a motor patrol has been inaugurated in the latter department, and I believe that this latest equipment will give the department greater mobility and consequently greater efficiency. In the fire department the Council will be asked this year to purchase the new La France piece which is intended to replace the two old machines. The chief of the Fire Department has suggested that a new piece carrying a powerful penetrating light should be purchased, but on this point I would rather defer any decision until the matter could be discussed by the Council. The cost is always an important factor and it may be that even a project of much merit will have to be negated because of a lack of money.

Beale Street

The widening of this important thoroughfare and the building of a new bridge over the tracks has been a fruitful subject for discussion in the Council and elsewhere for the past two years. Owing to the financial situation and the desire to get other matters settled, it was not expedient to assume this expensive and troublesome undertaking until a more propitious time. The widening and new bridge are important projects and I am quite convinced that

the Council would be agreeable to these proposals if the railroad and the city could come to an agreement. The new bridge creates a tremendous problem in grade and this in turn makes the problem of cost. A thorough inquiry of this whole matter will be made as early as possible and the result submitted to the Council. Beale Street is the most important intersecting thoroughfare in the Wolleston district, and with the heavy and constant traffic passing over it gives almost pronounced priority to its claim for consideration.

The Abolition of Grade Crossings

Despite many setbacks and annoying delays in the settlement of this time-old problem I am certain that the city and railroad are now near an agreement. As stated in the message of last year, the new plan calls for an overhead street at South Quincy, the easterly end beginning at the intersection of Franklin and Water Streets and the westerly end terminating about 145 feet west of Pleasant Street. This plan means the abandonment of part of Liberty Street at Water with a new street approximately 80 feet west of the present street. A new station is to be built on the easterly side of the railroad. That part of President's Avenue which crosses Federal Avenue is discontinued and the latter street is continued directly to Water Street. From Pleasant Street a driveway is to be built to connect with the railroad property. The change in grade at Water Street necessitates a change in the grade of Pleasant Street.

School Street is saved under the new plan, with a change in grade on the easterly and westerly sides. The maximum grade on School Street is five per cent on both approaches, while the grade on Water Street is 5.25 per cent on the easterly side and 4.5 per cent on the westerly end. An overhead bridge from Liberty Street to the easterly side of the tracks is part of the new plan.

At the Quincy station the new plan does not materially differ from the old decree plan. A new bridge of steel is to be built and platform extending southerly to Granite Street on both sides of the track and northerly these platforms are to be extended 160 feet from Saville Street.

Street and Other Work

I think the City Council may take a reasonable pride in the amount of street and other work done during the past three years. The demand has been unusually heavy, but the response has been so favorable that the sum total of achievement has been far beyond our expectations. It has been gratifying to all of us that we were able to do this work, for after all the citizens take keen pride in the condition of their streets and sidewalks even if we do mention the great value of these things as inducements to bring people to Quincy.

In summarizing the amount of work done during 1927, 1928 and 1929, let me state the following figures to show what has actually been accomplished:

Miles of new streets	15.66
Miles of streets rebuilt	15.81
Miles of sewers	18.67
Miles of water mains	13.1
Miles of drains	16.08
Miles of granolithic sidewalks	16.79
Miles of amescite sidewalks	10.

I think it may be permitted to state that a very important work has been done in improving drainage areas. The most expensive single job was the draining of the area adjacent to Wilson Avenue. This year the brook running through the Montclair school yard has been covered as part of the development of the school property, and it would be a matter of some pride if we could stand the expense of covering a portion of our brooks each year. The money spent for drainage in the South Quincy section, at Wollaston and at Dysart Street has been very satisfactory and minimized the trouble in all these sections. Much remains to be done in improving the drainage system, and I am confident that the Council will be as generous this year as in other years in providing the means to extend this important feature of municipal work.

BORROWING MARGIN FOR 1930

Net Valuation, 1927	\$128,179,310
Net Valuation, 1928	134,803,948
Net Valuation, 1929	137,922,543
	<hr/>
	\$400,905,801
Average of three years' valuation	\$133,635,267
Two and one-half per cent	3,340,882
Debt January, 1930, including \$125,000 authorized but not issued:	
City Debt	\$2,670,000
Sewer	349,000
	<hr/>
	3,019,000
Margin of credit available January 1, 1930.....	321,882
Credit remaining of the special Legislature au- thorization for school purposes	200,000
	<hr/>
Making a total credit at beginning of year which can be used for all purposes	\$521,882
In addition to the above credit the city has a balance accruing through a special act for hospital pur- poses of	10,000

TEMPORARY LOANS
1929

Date	Sold to	Rate	Due	Amount
January 31	Bank of Com. & Trust Co.	\$4.70	Dec. 10, 1929	\$200,000.00
February 20	Old Colony Corp.	5.25	Nov. 29, 1929	100,000.00
February 20	Old Colony Corp.	5.32	Dec. 5, 1929	400,000.00
February 28	Old Colony Corp.	5.05	Dec. 13, 1929	100,000.00
March 14	Old Colony Corp.	5.27	Mar. 13, 1930	100,000.00
March 29	Old Colony Corp.	5.92	Nov. 22, 1929	300,000.00
April 6	Old Colony Corp.	5.62	Dec. 10, 1929	100,000.00

		4.75	Dec. 30, 1929.....	100,000.00
Renewal 1928 account				
March	14—Old Colony Corp.	5.50	June 12, 1929.....	\$2,600,000.00
	\$1,300,000 due November and December.			
	\$1,300,000 due 1930.			300,000.00

STATEMENT OF CITY DEBT

Debt Jan. 1, 1929	\$5,313,500
Paid during the year	769,500
	<hr/>
	\$4,544,000
Debt added during the year.....	1,101,000
	<hr/>
Total debt January 1, 1930	\$5,645,000
Increase in debt during the year	331,500

Debt maturing in 1930 which will increase the borrowing margin:

	City	Sewer	
January	
February	\$16,500	
March	
April	51,000	\$16,000	
May	10,000	21,000	
June	40,500	4,000	
July	114,000	7,000	
August	35,500	4,000	
September	45,000	3,000	
October	32,000	8,000	
November	3,000	4,000	
December	36,000	8,000	
	<hr/>	<hr/>	
	\$383,500	\$75,000	\$458,500

As will be seen from the foregoing statement the total maturities inside the debt limit will amount to \$279,500 up to August 1st, and this sum added to the \$521,882 of credit available Jan. 1st gives a total credit of \$801,382, which is available for the many purposes which will call for big expenditures this year up to August 1st. Our first substantial outlay will be for schools, one at West Quincy and the other at Atlantic, and the cost of these will perhaps aggregate \$450,000. An immediate appropriation of at least \$80,000 for sewers should be voted so that we may take full advantage of good weather to start work.

To the members of the City Council I pledge my best efforts and sincerest cooperation in everything which may help in the progressive development of the city. Our problems are not always easy to solve but I am sanguine that with united effort a great deal of good work can be accomplished. I am grateful to the members of the Council of 1929 for their splendid cooperation, to the heads of the various departments for their untiring efforts to give real service to the citizens and to all those who by encouragement and friendliness called into action our best efforts for the well-being of the city.

CITY GOVERNMENT—1930

MAYOR, HON. THOMAS J. McGRATH
SECRETARY, WILLIAM C. CANNIFF, JR.

DEPARTMENT OFFICIALS

COMMISSIONER OF PUBLIC WORKS, FREDERICK E. TUPPER

13 Dorchester Street	

Secretary of Board and Superintendent of Schools

JAMES N. MUIR

The regular meetings of the School Committee are held at 8 o'clock P. M. on the last Tuesday of each month except July.

REPORT OF THE AUDITOR

APRIL 1, 1930.

Honorable Thomas J. McGrath:

In accordance with the ordinance of the City, I submit the annual report of my department, showing in detail the receipts and expenditures of each department.

Also several statements showing the financial condition of the City at the close of the financial year, December 31, 1929.

ELIZABETH N. DUNN,
Auditor of Accounts.

IN COUNCIL

Order No. 162

FEBRUARY 18, 1929.

Ordered:

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1929, and ending December 31, 1929, to be expended by and under the direction of the several officers or boards as herein designated.

That the appropriation for Bonds, Interest and Expenses of Water Department be paid from Water Receipts.

	\$5,645,000 00

*This item includes \$125,000 authorized but not issued.

BORROWING MARGIN FOR 1930

"General Laws. Chapter 44, Section 70"

Except as otherwise authorized by law a city shall not authorize indebtedness to an amount exceeding $2\frac{1}{2}$ per cent on the average of the assessors' valuation of the taxable property for the three preceding years, the valuation being first reduced by the amount of all abatements allowed thereon, previous to December 31, of the preceding year.

Net valuation 1927	\$128,179,310 00
Net valuation 1928	134,803,948 00
Net valuation 1929	144,431,438 00

\$407,414,696 00

Three years' average 135,804,898 00

Legal debt limit $2\frac{1}{2}$ per cent. 3,395,122 00

Debt Jan. 1:

City	\$2,545,000 00	
Sewer	349,000 00	
	<hr/>	2,894,000 00
		<hr/>
		\$501,122 00

Debt inside limit authorized but not issued for
street construction 125,000 00

Borrowing margin Jan. 1, 1930 \$376,122 00

Bonds coming due, which increases borrowing margin in 1930:

	City	Sewer	Total
January
February	\$16,500 00	\$16,500 00
March
April	51,000 00	\$16,000 00	67,000 00

REPORT OF DEPARTMENT OF HEALTH

JANUARY, 1, 1930.

THOMAS J. MCGRATH, *Mayor*:

Dear Sir,—The following report of the activities of the Health Department during the past year is modelled, as heretofore, on the third edition of the "Appraisal Form for City Health Work," as published by the American Public Health Association. The Appraisal Form recognizes fourteen major headings in city health work. A definite value is assigned to each of these headings; the total equaling 1,000 points. The Appraisal of the activities for 1928 was made by Dr. W. F. Walker, Field Director of the American Public Health Association. The Appraisal for 1929 was made by Mr. A. A. Robertson of the Quincy Health Department. No credit was given for points unless it could be clearly shown that credit was due. The scoring is as follows:

Activities	Possible Score	1928 Score	1929 Score	Gain
Vital Statistics	50	50	50	*
Communicable Disease Control.....	160	142	150	8
Venereal Disease Control.....	50	20	23	3
Tuberculosis Control	90	83	80	—3
Maternity Hygiene	80	56	56	0
Infant Hygiene	80	64	66	2
Pre-school Hygiene	80	32	44	12
School Hygiene	120	73	76	3
Food and Milk Control	70	49	54	5
Sanitation	80	53	56	3
Laboratory	60	43	49	6
Popular Health Instruction.....	40	37	38	1
Cancer Control	20	2	2	0
Heart Disease Control	20	8	8	0
Total	1000	712	742	40

*Perfect score.

Each activity will now be discussed under separate headings.

Vital Statistics

For the last three years the department has had a perfect score.

Communicable Disease Control

Because of a marked increase in the number of children immunized against diphtheria—particularly the pre-school group—there was a gain of eight points. Scarlet fever continues as a problem. Many unrecognized cases (because of the continued mildness of the disease) are probably responsible for this situation.

Venereal Disease Control

There was a slight gain because of an increase in the number of cases reported.

Tuberculosis Control

More visits to post-sanatorium cases increased our score. Points were lost because the percentage of children under twelve of the total number of patients admitted to sanatoria was lower than in 1928. Points were lost also because of a diminished number of nursing visits. This was due to the fact that the State Survey was made the previous year.

Maternity Hygiene

The city can get no credit for prenatal clinic services because as yet no clinic exists. The quickest way to further reduce our already low infant mortality would be to concentrate on more extensive prenatal service. Sixty-eight per cent of the infant deaths under one year were in the first month of life. Such deaths can be properly accredited either to conditions existing before or at the time of delivery.

Infant Hygiene

This score was increased because of an increased number of nursing visits.

Pre-School Hygiene

This heading has to do with health activities concerning children from one year to school age. It includes all services rendered to children in this age group attending the regular baby clinics. Inasmuch as a regular weekly pre-school clinic was started July 17 in place of the previous monthly clinic, nine points were gained. An increase in nursing visits accounted for the rest of the increase.

School Hygiene

This is under the care of the School Committee. There was a gain of three points due to an increased number of physical examinations.

Food and Milk Control

In 1928 this department could not show figures regarding the percentage of dairy cows in the area that were tuberculin tested. The score on this point was seven out of a possible eight, because of definite information, for the year 1929.

Sanitation

The gains in this phase of public health were due to an increased number of sanitary inspections.

Laboratory

The standard for diphtheria examinations is 250 specimens per annual resident death from diphtheria. There were only two deaths. There was a loss of one point for examination of diphtheria specimens. As this disease gets more rare there is a ten-

dency to take fewer cultures. There was a loss of one point in milk examinations because of a diminished number of examinations of pasteurized milk. There was a gain because of an increased number of sputum examinations for tuberculosis. There was a gain of one point because of increased supervision of semi-public and private water supplies, swimming pools and bathing beaches. There was a gain of 10 points in total laboratory procedures because of a marked increase in laboratory examinations at the Quincy City Hospital.

Popular Health Instruction

There was a gain of one point because of an increased use of pamphlets. There was also a gain of four points because of a larger mailing list for the monthly bulletin.

Cancer Control

There is no change from last year. There is deplorably little being done.

Heart Disease Control

There is no change from last year. The logical beginning of a campaign against heart disease is with the school child. This is the period in life when infected teeth and tonsils begin to appear as a frequent cause of infectious heart disease.

To sum up this report we can say that the Health Department is doing outstanding work in certain of the most important features of public health. These features can easily be determined by picking out the high relative weights given to certain sections such as Communicable Disease Control (where we secured 150 of 160 possible points), Tuberculosis Control and Infant Hygiene. In less important sections, such as Vital Statistics and Popular Health Instruction, there is almost a perfect score. Some of the significant accomplishments are as follows:

1. Only two deaths from diphtheria in the whole city. Approximately one-third of the pre-school population of the city immunized against diphtheria.

The diphtheria rate is less than one-seventh of what it was in 1925.

2. The remarkably low infant mortality—52 deaths per thousand live births.

3. Ninety-five per cent of the milk is pasteurized.

Some phases of the health work that are peculiar to Quincy are:

1. The use of a school—Woodward Institute—virtually as a health center.

2. The close correlation of this department with the State Department of Mental Hygiene. Quincy now has the largest Habit Clinic and the first Child Guidance Clinic in the State—showing the marked interest of the public in mental hygiene.

3. The marked interest of the local Chapter of the Red Cross in a peace time activity—viz., nutrition work in children. The local Chapter has appropriated a sum sufficient for the salary of a dentist who is to devote his time to the care of children in the pre-school group during 1930. This Chapter also paid the salary of a nutrition worker during 1929.

It is hoped that in the coming year more attention can be paid to Venereal Disease Control, Maternity Hygiene, Pre-School Hygiene, Cancer Control and Heart Disease Control.

Some urgent needs of the Health Department are as follows:

1. A "Health Centre" (mentioned in annual report since 1925).
2. Higher salaries for some members of the staff who are rendering highly technical services in a most efficient manner.
3. A nursing supervisor.
4. Generalized nursing service.

It might be interesting for the public to realize the progress that has been made in this department during the last ten years. Accordingly we have prepared the following statement showing the various steps forward taken by previous Health Commissioners.

Under the administration of Dr. Jones in 1921 was started the Venereal Disease Clinic and the Atlantic, West Quincy and Quincy Point Baby clinics. In 1922 was started a clinic for children exposed to or suspected of having tuberculosis. Under the direction of Dr. Sweeney in 1923 Schick testing and toxin-antitoxin clinics were held. In 1924 the Wollaston Baby Clinic was started. At the suggestion of Dr. Bartlett in 1925 a Baby Clinic began in South Quincy and Schick test clinics were started in the schools. In 1926 a Pre-natal Nurse was appointed and a health survey of the pupils of St. John's School was made. In 1927, at the direction of the writer of this report, a monthly Pre-school clinic was started, a monthly Orthopedic clinic and Toxin-antitoxin clinics in the schools. The State Department of Mental Hygiene opened a Habit Clinic. In 1928 this department began the Houghs Neck Baby Clinic and a weekly nutritional conference. In 1929 the State Department of Mental Hygiene began a Child Guidance Clinic and this department bought the equipment for a Dental Clinic which is now being run by the Red Cross. Through the cooperation of the Speech Readers Guild hearing tests were carried out in both Parochial Schools by means of the Audiometer. (The latter is an electrical device which makes possible quick and accurate testing of forty pupils at one time.)

The Department wishes to mention the fine cooperation we have received from the State Department of Health, the School Department, the local Chapter of the American Red Cross, the Quincy and Wollaston Women's Clubs and the Wollaston Mothers' Club. The success of Popular Health Instruction in Quincy has been due to a considerable extent to the generous publicity of the "Quincy Daily Ledger" and the "Quincy News."

I can close this report with no better paragraph than this one containing the following remarks by Dr. M. J. Roseneau, Professor of Hygiene at the Harvard Medical School: "Preventive medicine dreams of a time when there shall be enough for all, and every man shall bear his share of labor in accordance with his ability, and every man shall possess sufficient for the needs of his body and the demands of health. These things he shall have as a matter of justice and not of charity. Preventive medicine dreams of a time when there shall be no unnecessary suffering and no premature deaths; when the welfare of the people shall be our highest concern; when humanity and mercy shall replace greed and selfishness; and it dreams that all these things will be accomplished through the wisdom of man. Preventive medicine dreams of these things, not with the hope that we, individually, may participate in

them, but with the joy that we may aid in their coming to those who shall live after us. When young men have vision the dreams of old men come true."

Respectfully submitted,

E. B. FITZGERALD, M.D.,
Health Commissioner.

REPORT OF SUPERINTENDENT

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Health Commissioner:*

DEAR SIR:—I hereby submit my annual report of the Department of Health for the year ending December 31, 1929.

The personnel of the department is as follows:

Com. of Health and Inspector of Milk...	Dr. E. B. Fitzgerald
Superintendent	Thomas G. Smith
Clerk	Verna M. Kelley
Sanitary Inspector	A. A. Robertson
Assistant Milk Inspector.....	James O'Dowd
Plumbing Inspector	J. J. Keniley
Inspector of Meats and Provisions.....	Howard Rogers
Dispensary Physician	Dr. C. J. Lynch
Child Welfare Physician	Dr. Rachel L. Hardwick
Venereal Disease Physician.....	Dr. E. E. Smith
Bacteriologist	Dr. E. E. Smith
Tuberculosis Nurse	Gertrude T. Russell, R.N.
Tuberculosis Nurse	Mary E. Keeley, R.N.
Contagious Nurse	Catherine F. Coleman, R.N.
Child Welfare Nurse	Nettie D. Fowler, R.N.
Child Welfare Nurse	Mary E. Marr, R.N.
Inspector of Animals and Slaughtering...	Dr. E. A. deVarennnes

There have not been any permanent additions to the personnel of the department for the past year.

In an effort to clean up the dumps and other nuisances created in different parts of the city, for the summer months, Francis Driscoll was appointed an assistant Sanitary Inspector. He proved very faithful and efficient.

Appended you will find the reports of the various inspectors and nurses, also report of diseases and deaths reported for the year 1929.

See Auditor's report for statement of receipts and payments.

Respectfully submitted,

THOMAS G. SMITH,
Superintendent.

REPORT OF CONTAGIOUS DISEASE NURSE

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Health Commissioner*:

DEAR DOCTOR:—I herewith submit my fifth annual report of contagious disease work for the year ending 1929.

Eight hundred and sixty-five cases of notifiable diseases were reported as follows:

Scarlet fever	268
Diphtheria	18
Measles	99
Whooping-cough	170
German measles	8
Anterior poliomyelitis	8
Cerebro-spinal fever	2
Influenza	83
Dog bite	40
Chicken pox	62
Lobar pneumonia	47
Mumps	54
Ophthalmia neonatorum	1
Tetanus	1
Typhoid fever	4

Nursing visits	By Contagious Nurse	By Other Nurse	Total
Scarlet fever	1,032	42	1,074
Diphtheria (cultures 93).....	94	9	103
Measles	181	20	201
Whooping-cough	332	14	346
Anterior poliomyelitis	15	1	16
Dog bite	2	1	3
Chicken pox	2		2
Cerebro spinal fever	1		1
Typhoid fever (cultures 3).....	4		4
(widal 1)			

This was the lowest number of cases reported in the city since 1917.

Scarlet Fever

This was the only important disease to show an increase over other years. The majority of these cases were of a mild type. Of the 268 cases reported, 33 were sent to the Brighton Hospital. One death occurred in the city.

Diphtheria

There were 18 cases reported. As in the previous year, diphtheria prevention clinics were held once a week in the various wards. More than 3,700 children received the treatments, nearly 50 per cent of whom were of pre-school age. During the year two deaths occurred in the hospital. Neither child had received the protective treatments. Seven of 18 cases were hospitalized.

Cerebro Spinal Fever

Two cases were reported, both of which proved fatal. Both cases were hospitalized.

Anterior Poliomyelitis

Of the eight cases reported four were treated in hospitals, two of whom died.

Typhoid Fever

The four cases reported were cared for in the hospital.

During October the hearing of the children in the Parochial schools was tested. Twenty-five were found to be defective and referred for treatment.

Assistance was given at the physical examinations of the children in the first grade of these schools.

The following number of clinics were attended:

T.A.T.	105
Dental clinics	14
Dental Forsythe	5
Baby Clinics	8
Re-Schick clinics	5
Ear clinics	1

Office hours have been held daily.

In the followup work 1,750 visits have been made, including checking up of quarantine rules, taking of cultures, examination of contacts and releases from quarantine. Daily visits have also been made to St. John's school in connection with the work the past year.

Respectfully submitted,

CATHERINE F. COLEMAN, R.N.,
Contagious Disease Nurse.

REPORT OF THE VENEREAL DISEASE CLINICIAN

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Health Commissioner*:

DEAR SIR:—In submitting my report this year, I would invite your attention to a few special facts.

First, that 233 visits to 51 clinics gives an average of more than four (4) patients per clinic hour, a higher patient per hour rate than I am able to maintain in my own office when treating the same class of patients. Obviously many “corners have been cut” in the clinic. This same time question may account partly for the fact that many physicians do not treat venereal disease privately.

Speaking in the abstract, this would be but a small amount of work performed for the money, if one forgets that in the meanwhile, the clinician attends to the records, reports, correspondence, supplies, Wasserman returns, sterilization, as well as the heating plant and telephone. The water used for intravenous therapy is distilled and sterilized in our own laboratory by the clinician, thereby insuring a fresher product than could be bought commercially at any price.

When thereto is added the absence of any follow-up work, perhaps the most important adjunct to such a clinic, it seems almost unnecessary to point out that a most unusual and undesirable condition exists.

I hope, however, that the new clinic schedule will in some way modify these defects.

Herewith are some figures:

Total number patients admitted to clinic.....	19
Males treated for syphilis.....	4
Females treated for syphilis.....	5
Females treated for gonorrhoea.....	2
Males treated for gonorrhoea.....	4
Old arrested cases re-examined.....	2
For diagnosis only (dark field examination).....	2
Injections of mercury.....	69
Injections of sulpharsphenamine.....	65
Irrigations for gonorrhoea.....	63
Smears examined for gonococci.....	20
Wasserman tests	7
Urinalysis	11

Yours truly,

EDWIN E. SMITH, M.D.,

REPORT OF QUINCY DISPENSARY

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Health Commissioner*:

DEAR DOCTOR:—During the past year we have made good progress in our campaign against tuberculosis. Naturally this was more marked in our children's clinics than in the adult.

Treatment of adult tuberculosis without compulsory restraint in sanatoria will not be successful and, at present, we cannot get more than 50 per cent of our early cases to consent to sanatorium care. Home treatment at best, despite precautions, is a makeshift, and just so long as you have 50 per cent of your active cases at home, I doubt if we will make much progress.

Far different is the story in juvenile, or so-called hilum, tuberculosis. Here we have a non-contagious disease, and one which responds well and reasonably soon to proper treatment.

As it is the source of most pulmonary tuberculosis, we are spending most of our time and effort at the dispensary with these cases and we are getting results.

During the past year we have increased our registration from three hundred and thirty-two to four hundred and fifty-two, more than 35 per cent, and our attendance during the past year at clinics was 1,734.

Our standby for nourishment is milk, of which we distributed 4,242 quarts, all of which was furnished without any expense to the city.

In previous years, we had much trouble in getting consent of the parents to allow juvenile cases to go to the sanatoria. This past year 75 per cent of the new cases were sent to sanatoria.

In fact, it is very noticeable in the treatment of tuberculosis that you not only get far better and more permanent results in the juvenile type of the disease, but you also get much better co-operation.

From the economic phase, the logical conclusion is to spend your funds in this field. Furthermore, you need only expend \$10 a week for the child, where it costs \$30 a week for the adult. In addition, the length of time needed for permanent cure in the child is a matter of months, whereas after years you can only promise "arrest" to the adults. Reckoned in dollars and cents, it has been found that \$100 spent for the child produces more than \$1,500 for the adult. It is hardly necessary to carry the analogy further.

As you know, as a part of our treatment, we sent our quota of children to the Norfolk County Health Camp for eight weeks' intensive open-air camp life. During the past year we had our usual good results.

But the great need in the past for holding the health benefits for these children was lacking, namely, the principle of an open-air school room. Now the fulfillment of this great need seems assured. During the past year I received wonderful co-operation from the school committee—unanimous consent was given—a sub-committee was appointed, made up of their physician members together with the school physician and the superintendent of schools. I have held conferences with this committee, and it seems assured that some working plan will be started this year in the schools for these children.

This plan, developed and functioning, will give us a very efficient method of handling our juvenile tubercular problem in the city. That our problem is worthy is attested by the fact that from the school survey it seems there are some four thousand children that need treatment.

The detailed report of our clinics is included in a separate report.

In closing I wish to gratefully acknowledge the splendid co-operation I have received from the Mayor, City Council, School Committee, the nurses, the physicians and yourself.

Respectfully submitted,

C. J. LYNCH, M.D.,
Dispensary Physician.

REPORT OF TUBERCULOSIS NURSES

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Health Commissioner*.

DEAR DOCTOR:—We herewith submit to you our annual report for the year ending December 31, 1929.

Cases of pulmonary tuberculosis in the city.....	276
Active cases	118
Arrested cases	109
Hospital cases	49
Cases of hilum tuberculosis in the city	154
Active cases	97
Arrested cases	37
Hospital cases	20
T. B. Other cases in the city	30
New cases reported during the year	92
Pulmonary cases	69
Hilum cases	18
T. B. Other	5

13 of the Pulmonary cases were diagnosed Minimal Tuberculosis and 12 of these cases were admitted to sanatoria.

Disposition of New Pulmonary cases	
Admitted to sanatoria	32
At home under treatment	10
Working	7
Died at sanatoria	4
Died at home	6
Died at Quincy City Hospital	2
Died at Massachusetts General Hospital.....	1

Disposition of New T. B. Other cases	
Died at Quincy City Hospital.....	2
Admitted to sanatoria	1
Working	2

Disposition of Suspicious Pulmonary cases	
Admitted to sanatoria on observation	3
Diagnosis Pulmonary Tuberculosis	3

Condition on discharge from sanatoria—Pulmonary	
Arrested	4
Improved	4
Against advice	21
Dead	13
Absconded	3
Unimproved	21
Quiescent	2
Transferred to other hospital	1

All ex-sanatoria cases which could be located were visited in their homes by the dispensary nurses. All homes were visited after death of a patient, and all new cases were visited and provided with sputum boxes, paper napkins and large paper bags free of charge so that all possible precautions could be taken. Advice was given.

Deaths	45
At home	20
At Norfolk County Hospital.....	14
At Quincy City Hospital	3
At Beth Israel Hospital	1
At Tewksbury	1
At Rutland	1
At Massachusetts General Hospital	1
At Boston Sanatorium	1
At Sharon	1
At Taunton	1
Transportation provided patients to sanatorium	11
Clinics held during the year for adults	52
Attendance at clinics	112
Registration at clinics	60
Visits made	1830
Referred to Welfare Department for aid	4
Referred to City Physician	4
Cases closed and addresses forwarded to State Department.....	12
Visits made to X-San cases	262
Milk provided to patients by Norfolk County Health Assoc. (quarts)	4242
Information received from doctors regarding private patients	10
Cases reopened	6
Number of sputums examined during the year	
Number of contacts examined during the year	557
Number of Contacts reported during the year	108
Contacts examined	54
Negative	35
Pulmonary	1
Hilum	4
Suspicious	14
Cases referred to Norfolk County Hospital for X-ray exam- ination	86
Negative	18
Hilum	13
Suspicious Pulmonary	1
Suspicious Hilum	16
Pulmonary	8
X-rays taken for camp	30
Undernourished and Contact Children's Clinic	
Clinics held	103
Attendance	1734
Referred to Q. C. H. for tonsil and adenoids	65
Referred to school dentists and own dentists	180
Vaccinations done on city cases	6
Von Pirquet tests done	222
Negative	165
Positive	57
Registration of children for the year at North Reading and Westfield State Sanatoria	53
Registration of children at Westfield and North Reading at end of year	24
Discharged as Latent Hilum	14
Discharged improved	2
Discharged against advice	1
Hilum	1
Pulmonary	1

Readmitted	2
Unimproved	2
Discharged well—no disease	6

All X-ray cases referred to the Norfolk County Hospital were transported personally by the nurses from the dispensary, with the exception of male adult cases.

During the year extra clinics attended by Miss Russell were:

Toxin Anti-toxin Clinics	14
Child Welfare Clinics	4

Two days were spent at St. Joseph's and St. John's School assisting in the audiometer test.

Extra clinics attended by Miss Keeley were:

Audiometer test at St. John's and St. Joseph's School	
Child Welfare Clinics	25
Toxin Anti-toxin Clinics	32
Provided transportation for children going to Forsyth Dental Clinic seven afternoons	

Contagious calls made:

Scarlet fever	45
Diphtheria	9
Cultures	12
Measles	20
Poliomyelitis	1
Whooping-cough	14

Both nurses attended a lecture on tuberculosis at the South End Unit, Boston—a medical meeting at the Norfolk County Hospital, where Dr. Chadwick, former superintendent of the Westfield State Sanatorium, gave a very interesting talk on our sanatorium cases and other children's cases. We visited the Prendergast Preventorium during the year, and also visited the smallpox cases at Middleboro.

We wish to thank the personnel of the Health Department who have aided us in any way during the past year, and would especially like to mention the Quincy Vincent Club which has so willingly aided two of our unfortunate tuberculosis cases, the North Quincy Catholic Club, the Quincy Catholic Club and St. Vincent De Paul Society for their willing aid in some of our less fortunate cases. Among others a Mrs. Russell of Marshall street, Norfolk Downs, who personally sheltered an unfortunate tuberculosis case until we could make arrangements for further care, and Mrs. N. S. Hunting, who was directly responsible for our great increase in the milk fund during the past two years.

Respectfully submitted,

GERTRUDE T. RUSSELL, R. N.,

MARY E. KEELEY, R. N.,

Dispensary Nurses.

REPORT OF CHILD WELFARE PHYSICIAN

JANUARY 1, 1930.

EDMUND B. FITZGERALD, M.D., *Commissioner of Health, City of Quincy, Mass.:*

DEAR DR. FITZGERALD:—It is my privilege to submit to you the report of the Child Welfare Clinics of Quincy for the year ending December 31, 1929.

Statistics

Total Clinic registration	3,259
Well Baby Clinics (ages 3 weeks to 3 years).....	2,783
Pre-school Clinics (ages 3 years to 6 years).....	222
Orthopedic Clinics (ages 3 weeks to 6 years).....	254
Nutrition Clinics (all ages)	
Number of Clinics	398
Well Baby Clinics	365
Pre-school Clinics	30
Orthopedic Clinics	12
Total Clinic attendance	7,154
Well Baby Clinics	6,795
Pre-school Clinics	155
Orthopedic Clinics	204
Average Clinic attendance daily	25
Well Baby Clinic	25
Pre-school Clinic	5
Orthopedic Clinic	17
Total Home Visits by Nurses	3,817
Babies	3,578
Pre-school	239

A more detailed analysis of these figures will be found in the report of the Child Welfare Nurses and the Orthopedic Clinic.

Comparative Figures of Well-Baby Clinics

Year	Registration	New Enrollments	Attendance
1926.....	1,561	497	7,800
1927.....	1,752	622	7,047
1928.....	2,130	693	7,293
1929.....	2,783	653	6,795

The increase in the number of children enrolled in the clinics and the number of new babies registered as shown in the comparative figures (above) for the past four years implies the cooperation and interest which the parents share in the service rendered by the clinic activities.

The clinic attendance is variable, fluctuating according to weather, season of the year, relation of clinic day to holidays, and the child or mother's need for clinic service. The clinic attendance varies inversely with that of the nurses' home visits. This past year the nurses have made 1,119 more calls in the homes than during the previous year. This fact, as well as the continued attempt to have the mothers return to clinic according to a schedule, has eliminated needless visits.

The decrease in clinic attendance should, therefore, be inter-

puted as the successful working out of a plan to promote the most intelligent use of the clinics.

Reference of Children

During the year 208 children have been referred from the clinics to their own family physicians or dentists. They were children who, at the time of clinic attendance, presented some evidence of disease. For this reason they did not qualify as well children and therefore were referred for treatment.

Forty (40) children have been referred from the clinics to other clinics or schools for advice or service.

A summary of these references appears in the report of the Child Welfare Nurse.

Nutrition Work

Through the generosity of the Quincy Chapter of the American Red Cross the Nutrition Demonstrations and Conferences started in the clinics last year have been extended into two clinics each week since May, 1929.

In endorsing the program of health instruction through the teaching of nutrition to the mothers of small children, the Quincy Chapter has taken an active part in one of their National Red Cross peace-time interests. The Red Cross Chapter paid the salary of the nutrition worker and provided the small expense of demonstrations.

Mrs. Mildred D. Burnham of Wollaston, a nutrition worker of experience, has been in charge of the nutrition work in the clinics.

With the volunteer assistance of Miss Marjorie Foster, Educational Director of the New England Dairy and Food Council, Mrs. Burnham has directed a well-rounded educational program, which has met with the enthusiastic appreciation of the clinic mothers.

The details of the demonstrations have been illustrated each week by a short printed lesson-sheet which has been distributed to those interested in the subject.

The collection of material has been so arranged that it fits into a loose-leaf folder, enabling many of the mothers to compile in book form excellent nutrition material which they are using as guides in the care of their children.

The nutrition worker's report will give a review of the material which has been demonstrated and the subjects of conferences with the mothers. Over 1,000 mothers have been helped by this program.

Volunteer Help

Volunteer help in the form of service has been given in the Child Welfare Clinics this year by the following organizations:

- The Junior Welfare League of Quincy
- The Wollaston Mothers' Club
- The Wollaston Woman's Club

The Junior Welfare League of Quincy has adopted an interest in the Child Welfare Program and has organized a volunteer service at several clinics. Their members serve as recorders for both doctors and nurses, and entertain the children of run-about age while the mothers are engaged with the Nutrition worker.

This service has been greatly welcomed by the clinic mothers and the clinic staff. It has long been realized that such service was an essential part of a well-conducted clinic but until this year no arrangements had been made to make it possible.

The addition of small tables and chairs, balls and crayons, to the clinic equipment has facilitated the work of caring for the run-about age children according to an approved plan of health education.

Orthopedic Clinic

Quincy bears the distinction of leadership in having a preventive orthopedic program exist as a part of the Child Welfare program. Once each month a clinic has been held for the examination of children whose muscle tone was poor, whose posture of back or feet was faulty. The examinations have revealed conditions, which, with proper advice to the mothers, could be corrected at home.

Several serious deformities have been prevented by early advice or reference to the hospital for treatment.

The medical community in Quincy offers, at present no orthopedic service to its people. This fact may account for the welcome with which the clinic advice is received by parents and the diligence with which they follow the directions given.

The orthopedic clinic report gives a classification of the conditions found at the time of examination.

Recommendations

That the Child Welfare Clinics continue the full program of activities which this past year have contributed to the positive health of Quincy's community of children.

That the citizens' interest in an appropriate building for health-activities headquarters (A Health Center) be encouraged further.

That better housing be secured for the South Quincy Clinic. The present quarters for this clinic cannot be adequately heated for clinic work in winter.

That the clinics held at Woodward Institute on the second Thursday of each month be considered as material for a teaching-center, and welcome to visit the demonstrations be extended to persons interested in progressive public health programs.

Acknowledgments

The success of the Child Welfare Clinics is in a large measure due to the interest and help which you have given to the details of the service.

Your Child Welfare workers have considered it a privilege and a pleasure to work under your leadership.

Mrs. Fowler and Miss Marr have been enthusiastic and untiring in their service. They have been most helpful assistants to the doctors and excellent executives. They have carried into the homes more instruction than in previous years.

For their cooperation, appreciation is expressed to the personnel of the Health Office, other members of the staff, the Quincy Chapter American Red Cross, the Junior Welfare League of Quincy, the Wollaston Mothers' Club, the Wollaston Woman's Club, the Girl Scouts, the Fore River Club, the Presbyterian Church of South Quincy, the Council of the Knights of Columbus, and the Trustees of Woodward Institute.

Respectfully submitted,

RACHEL L. HARDWICK, M.D.,
Child Welfare Physician.

REPORT OF CHILD WELFARE NURSES

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Health Commissioner*.

DEAR DOCTOR:—I herewith submit my tenth annual report of Child Welfare work during the year 1929.

There were 356 baby clinics held, with a total of 2,783 registrations, and 6,795 visits to clinics, and an average attendance of 19. At these clinics there were 653 new enrolments. There were 4,704 complete or partial examinations made by Dr. Rachel Hardwick and assisting physicians, who gave advice to mothers, and referred 208 to local physicians. During the year there were 464 babies who moved from the city, making a registration of 2,319 babies enrolled on December 31, 1929.

A Pre-School Clinic was held once a month, from January 1 to July 17, inclusive. From then on a weekly clinic was held. Children between the ages of 3 and 6 years were admitted to this clinic. The total attendance at these clinics for the year was 155 children.

There were 147 complete or partial examinations made by Dr. Rachel Hardwick. There were 92 new enrolments, making a registration for the year of 194 children. Of these there were 40 referred to the School Department, 42 moved from the city and one death, making a registration of 112 on December 31, 1929.

On the second Thursday of each month an Orthopedic Clinic was held by Dr. Miriam Katzeff. There were 12 children referred to local physicians or to hospitals for follow-up or corrective treatment. Eight of this number were over the age limit at the clinic. There was one child with tuberculosis of the knee sent to the Children's Hospital from this clinic, and from there to Massachusetts State School at Canton, Mass.

There were 3,578 visits made to babies and children between the ages of 3 and 6 years who were enrolled in these various clinics. Toxin-antitoxin was recommended at all clinics.

During the year there were 184 inspections made of 15 boarding houses for infants.

There were 9 children referred to the Children's Hospital for further corrective treatment or advice as follows:

Medical	3
Nerve	2
Orthopedic	4

There were 4 children referred to schools for speech training. One final examination made to admit a child to the Perkins Institute for the Blind.

Thirteen babies were referred to the Quincy City Hospital:

Tonsilectomy	4
X-ray of chest	2
X-ray of thymus	3
X-ray of hip	2
X-ray of shoulder	1
X-ray of finger and chest	1

One child referred to the Massachusetts Eye and Ear Infirmary; 12 children were referred to the Habit Clinic in Quincy.

Seven Intra-dermal tuberculin tests were made at the Pre-School Clinics.

Six appointments were made for dentistry at the Pre-School Dental Clinic which starts operations on January 2, 1930.

Baby Clinic Attendance

Ward 1	Woodward Institute.....	1,063	Decrease since 1928
Ward 1	Houghs Neck.....	572	Increase over 1928
Ward 2	Quincy Point.....	951	Increase over 1928
Ward 3	South Quincy.....	1,162	Increase over 1928
Ward 4	West Quincy.....	561	Decrease since 1928
Ward 5	Wollaston	1,334	Decrease since 1928
Ward 6	Atlantic	1,152	Same registration
		<hr/>	
		6,795	Decrease since 1928

Twice each week Mrs. Mildred Burnham, Nutrition Advisor, gave very helpful information and instruction on nutrition and the selection and preparation of foods. Mrs. Burnham's salary was paid by the Local Chapter of the American Red Cross.

From February to June, inclusive, Miss Frederickson, a physiotherapist, made follow-up home visits to orthopedic cases. She gave advice and instruction to mothers and children in corrective exercises.

During the year Child Welfare Nurses assisted at toxin-anti-toxin clinics when needed. Miss Mary Marr made six visits to Boston hospitals with babies; 3 visits to local physicians with children for nose and throat treatment and assisted at the Audiometer tests made at St. Joseph's Parochial School.

Deaths during the year of 1929 were:

Pneumonia	3
Cerebro-Spinal Meningitis	1
Acute Gastro Enteritis	2
Splenic Luekemia	1
Acrodynia	1

Of these deaths only the two gastro enteritis might possibly be considered as preventable.

Respectfully submitted,

NETTIE DENTON FOWLER, R.N.,

MARY E. MARR, R.N.,

Child Welfare Nurses.

REPORT OF ORTHOPEDIC PHYSICIAN

JANUARY 1, 1930.

DR. E. B. FITZGERALD, *Commissioner of Health, Quincy, Mass.*

DEAR DR. FITZGERALD:—The following is the report of the Orthopedic Clinic for the year 1929:

Number of clinics (one each month).....	12
Number of visits to the clinics.....	208
Number of new cases examined.....	94
Follow up on examinations made in 1928.....	114
Classifications of conditions found in the new cases:	
Abnormal feet	50
Rickets with mild deformities.....	9
Faulty posture with abnormal knees and feet.....	9
Bow legs	7
Muscular atonia	4
Spastic paralysis	1
Infantile paralysis	1
Normal children (shoe advice given).....	13

Interest in the orthopedic clinic is growing, as shown by the increase in registration of 44 cases over last year's figures.

A large measure of the success in this clinic is due to the co-operation of the Child Welfare Physician and the nurses of the Health Department.

It has been our good fortune to receive the service of a physiotherapist, Miss Dorothy Frederickson, of the Boston School of Physical Education. Miss Frederickson made 58 home visits in order to teach mothers how to carry out the directions given in the clinic. Unfortunately her volunteer services were limited to only three months. We are hoping to have a similar worker from the same school during February, March and April of this year.

We have had another volunteer, Mrs. Barbara Sears Rice, who has greatly added to the efficiency of the clinic by acting as recorder. It is hoped that she may be able to continue this contribution during the coming year.

Respectfully submitted,

M. G. KATZEFF, M.D.,
Orthopedic Physician.

REPORT OF QUINCY HABIT CLINIC

JANUARY 1, 1930.

EDMUND B. FITZGERALD, M.D., *Health Commissioner, Quincy, Massachusetts:*

MY DEAR DOCTOR FITZGERALD:—I beg to submit the following report of the activities of the Quincy Habit Clinic from January 1, 1929, to December 31, 1929:

Number of weekly clinics held	44
Number of new cases referred	98
Number of children attending	211
Number of visits made by children	397
Number of visits made by social worker	737

The activities of the Habit Clinic in Quincy during the year nineteen hundred and twenty-nine more than doubled those of previous years. In fact, both the clinic attendance and the demand for field work were greatly in excess of what were anticipated. It is of interest to note here that this one Habit Clinic outnumbered the attendance of any of the other State Habit Clinics.

The course followed by the clinic varied but slightly from that of other years in that its interests were chiefly confined to a two-fold purpose, namely, examination, diagnosis and treatment of pre-school cases referred and educational work in the community. This latter phase of the clinical program has been most gratifying in its results, and it is our impression that this year it has been more expansive and far-reaching in its effects than ever before.

The operating of the clinic at the Woodward Institute has markedly increased and facilitated the work since it identified the Habit Clinic as an integral part of the preventive work being done by the Health Department of Quincy and also because the Institute seemed to be the logical and most accessible site for a clinic of this kind, as it is one that coordinates well with a medical clinic and consequently the conjunction has meant an interchanging of clinical material between the Well Baby, Pre-School and the Habit Clinics.

The Social Service of the Habit Clinic has been particularly active in its field work, as is illustrated by the great number of home visits made, in its cooperation with the local social agencies and participation in the weekly conferences which has necessitated our serving as a specialized consultant in many of their cases.

The educational program has consisted in meeting such groups as mothers' clubs, women's clubs, groups of teachers and other allied organizations all of which contacts precipitated a vast number of interviews with individuals who sought consultation for problems falling within the realm of the Habit Clinic work. The school system has availed itself of the clinic services, and this has worked out advantageously to the welfare of the schools and the clinic. The most productive feature of the educational program were the lectures given to all of the elementary grade teachers in the city. This was a means of acquainting them with neurotic traits arising in young children and gave the teachers an opportunity of providing the children with treatment that would avert later difficulty in the lives of the individuals and, what is more important, these talks have tended to have the children seen as indi-

viduals, with due attention being given to the human side of their development.

The inauguration of the Mental Hygiene Clinic, which deals only with the older group of children, has made it possible for the Habit Clinic to concentrate on the pre-school problems and to do a more specialized and intensive piece of work on them since its arrival obviates the necessity of taking on older cases and giving to them time which rightfully belongs to the younger group in order to permit more complete interpretation and treatment of the problems arising there. Previously it was the Habit Clinic's intention to accept for diagnosis and recommendation only such older cases as could not be dealt with elsewhere in the community for want of a specially equipped clinic. In these cases it meant a consumption of the clinic's time and an inability to contribute an adequate service such as the Mental Hygiene Clinic would be in a position to offer. All time is now devoted to pre-school problems with greater satisfaction to all concerned.

The response from the community, the Health Department and the school has been most encouraging and stimulating, and the Division of Mental Hygiene wishes at this time to thank all those who have helped to make the clinic a success during the past year.

Respectfully yours,

OLIVE A. COOPER, M.D.,
Assistant to Director, Division of Mental Hygiene.

CHILD GUIDANCE CLINIC

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Commissioner of Health, Quincy, Massachusetts:*

DEAR SIR:—I beg to inform you that the Quincy Child Guidance Clinic started operating early in December, 1929. Prior to its opening the director of the clinic and his assistants had made contacts with physicians, public schools, Federated Women's Clubs and various social agencies of Quincy.

The aims and purposes of the clinic were delineated, and almost immediately the community responded by sending patients in for consultation.

The purpose of the clinic is to handle problems which come with the school age, i. e., children over nine years.

The clinic will be held every Thursday afternoon at two o'clock at the Woodward Institute.

We hope to be of help and benefit to the community, and the director and his assistants are always ready and willing to advise in those cases in which mental hygiene or guidance is needed.

Yours very truly,

SAMUEL H. COTTRELL, M.D.,
Medical Director, Quincy Child Guidance Clinic.

REPORT OF DENTAL CLINIC

JANUARY 1, 1930.

Department of Health, City of Quincy:

DEAR SIRs:—The following dental service was performed on the children of the first grade at St. John's Parochial School in the month of December, 1929:

The children were examined on December 3, and classified as to their dental condition and the most urgent cases were taken care of first.

The clinic opened at the dispensary on December 5; 84 appointments were made during the month.

39 male patients.

210 operations.

162 fillings of following materials:

Zinc oxide cement	93
Silver amalgan	14
Copper amalgan	28
Copper cement	27

37 extractions.

11 Prophylaxis.

83 paid patients at .25 \$20.75.

Yours very truly,

ALFRED E. O'MALLEY, D.D.S.

REPORT OF MILK INSPECTOR

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Health Commissioner*:

DEAR SIR:—I herewith submit the report for the year ending December 31, 1929.

The following statistics refer to milk, cream, ice cream, oleo-margarine and buttermilk, consumed and produced in Quincy:

Dairies in City of Quincy

1 cow	7
2 to 5 cows	4
5 to 10 cows	2
11 to 25 cows	5
26 to 48 cows	1
Total number of cows in Quincy	201
Total number of cows in nearby dairies who serve the City of Quincy with milk and cream.....	102
Milk produced in Quincy and nearby dairies (quarts—raw)	1,541
Milk contractors' processing and storage plants in the City of Quincy	7
Out-of-town plants supplying Quincy.....	9
Teams, auto cars and trucks employed in the distribution of milk, cream, buttermilk and ice cream in Quincy.....	139
Milk consumed in Quincy per day (quarts).....	30,941
Pasteurized milk consumed in Quincy per day (quarts).....	29,400
Raw milk consumed in Quincy per day (quarts).....	1,541
Certified milk consumed in Quincy per day (quarts).....	108
Grade A milk consumed in Quincy per day (quarts).....	3,300
Per cent pasteurized.....	95
Per cent raw.....	5
Cream consumed in Quincy (quarts).....	1,668
Ice cream consumed in Quincy (gallons).....	2,763
Ice cream manufactured in Quincy (gallons).....	810
Buttermilk consumed in Quincy.....	317
Milk processing plants in Quincy.....	3
Milk processed in Quincy (quarts).....	18,950

Table Classification of Dairies Inspected and Scored

Scoring 41 to 50	1
Scoring 51 to 60	21
Scoring 61 to 70	9
Scoring 71 and over	1
Retail licenses issued, milk, ice cream and oleomargarine.....	872
Revenue from same	\$458.50
Milk samples collected and tested for chemical analysis and bacteria	1,312
Taken from teams	600
Taken from stores and restaurants	354
Taken from dairies	358
Total	1,312

Ice cream and cream collected and tested for chemical analysis and bacterial	86
Ice cream manufacturing plants in Quincy.....	12
Ice cream manufacturing plants outside Quincy which serve Quincy	15
Number of stores visited and inspected.....	695
Number of dairies visited and inspected.....	424
Number of milk rooms visited and inspected.....	191
Number of milk processing plants visited.....	189
Number of ice cream manufacturing plants visited.....	78
Number of restaurants visited.....	63
Number of bakeries visited	11
Number of complaints investigated.....	3

The price of milk and cream in the City of Quincy has remained the same as in 1928. A large number of local producers of milk have sold out to the large dealers. Our milk supply has been kept up to the same good quality for 1929.

Respectfully submitted,

JAMES O'DOWD,
Acting Milk Inspector.

REPORT OF THE BACTERIOLOGIST

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Health Commissioner:*

DEAR SIR:—During the year 1929 there were 87 collections of milk, cream and ice cream, brought to the laboratory for examination, as follows:

Examinations chemical (milk)	672
Examinations bacteriological (milk)	640
Examinations bacteriological (cream and ice cream).....	42
Examinations chemical (cream and ice cream).....	42

Total examinations made 1,396

Yours truly,

EDWIN E. SMITH, M.D.

REPORT OF INSPECTOR OF MEATS AND PROVISIONS

DECEMBER 31, 1929.

To the Commissioner of Health, Quincy, Massachusetts:

DEAR SIR:—I submit the report of the work in this office for the year ending December 31, 1929.

Inspections made 1,447

Meats and Foodstuffs Condemned as Unfit for Food

Balance	\$1 00

Food Establishments in Quincy

Markets	156
Stores	212
Restaurants and lunch rooms	84
Creameries	9
Fish markets	10
Delicatessens	10
Fruit stores	51

Great developments have been made the past few years among the provision dealers of this city. Old methods and styles of doing business are almost a thing of the past. The cash and carry stores are the ones that attract the attention of the public at large.

The housewife is only too glad to do her marketing each day and choose her own food for the table, taking advantage of all special sales for the day or week. One of the greatest pleasures is that there are no bills coming in each week to be paid.

Pay as you go; it is a business proposition to every person and a money saver.

This class of stores is doing the largest share of our business today, and have the latest improvements of all kinds, and most sanitary equipment. The amount of capital these companies represent is something enormous.

Wollaston, Norfolk Downs and Atlantic are business sections of our city that are growing very fast, with a fine type of stores and markets.

Squantum is a section that should grow much faster the next four years, which will bring a larger and better class of stores with more modern equipment.

Restaurants and cafeterias have more than doubled in number the last four years, and require more time and attention of the inspector.

Respectfully submitted,

HOWARD ROGERS,
Inspector of Meats and Provisions.

REPORT OF SANITARY INSPECTOR

JANUARY 1, 1930.

DR. EDMUND B. FITZGERALD, *Health Commissioner:*

DEAR SIR:—Herewith is submitted my report as Sanitary Inspector for the year ending December 31, 1929.

Clean-up Campaigns

Early in March, 1929, and again late in November, 1929, complete surveys were made of the city and all dumps, back yards, rears of stores, etc., where rubbish, filth and debris had accumulated, were listed. Where possible, notices were sent to the owners requiring them to remove the cause of the nuisance and a later check-up was made to see that the notices were complied with.

In some cases, due to absentee owners, estates in litigation and the inability of the owners to obey the notice it was necessary for the city to clean up the premises.

Sanitary Inspections

	Inspections	Complaints	Notices
Cesspools	104	36	48

REPORT OF SANITARY INSPECTOR

JANUARY 1, 1930.

DR. E. B. FITZGERALD, *Health Commissioner*:

DEAR SIR:—Herewith is submitted my report for the year ending December 31, 1929:

Diphtheria Prevention

During the past year a diphtheria prevention clinic was held each week. These clinics were conducted in conjunction with the well baby clinics. In addition to these regular weekly clinics an intensive campaign was put on during the month of May with clinics in all the grade schools of the city and clinics for pre-school children conducted in nine sections of the city.

During the year 1624 pre-school children and 1854 grammar school children were given the three protective treatments of toxin-antitoxin at Health Department clinics. It is interesting to note that 93.3 per cent of the pre-school children and 98.5 per cent of the school children who started the treatment completed the full course of three injections.

In addition to the 3,478 children receiving the treatments at Health Department clinics information was received that 29 pre-school children and 130 grammar school children had been treated by their family physicians. The number treated by the family physicians is unquestionably much greater, but definite information is not available.

On January 1, 1930, the department had records of 1823 pre-school children who are Schick negative, or who have received the three immunizing treatments of toxin-antitoxin. This represents 28.5 per cent of the estimated pre-school population. Records are available of 5,484 of the pupils in the grammar school who on January 1, 1930, were Schick negative or who had received the full course of immunizing treatments. This number represents 48.3 per cent of the total grammar school population.

The diphtheria morbidity rate for 1929 was 2.6 per 10,000 population, the lowest rate in the history of the city. Eighteen cases were reported during the year and none of these had ever been immunized.

Sera and Vaccines

The culture station formerly maintained at the police station has been discontinued and a stock of sera and vaccines are now kept in an electric refrigerator in the office of the department. Through an arrangement with the superintendent of the City Hospital a supply of these products is being kept at the hospital laboratory, where they are available to physicians at all hours of the day and night.

Mortality and Morbidity Reports

Mortality and morbidity reports were prepared every month. The reports for the year are shown elsewhere in the department reports.

Publicity

The newspapers have been very generous in devoting space to the activities of the department. A report of communicable diseases and deaths was published weekly throughout the year. Special articles were prepared and published from time to time.

Health Education

The Health Department booth at the Chamber of Commerce "Trading Post" acquainted a large number of people with the activities of the department.

The "Monthly Bulletin" now has a mailing list of over 700.

Sanitary Inspections

Previous to the employment of Mr. Driscoll as sanitary inspector I attended to the routine sanitary inspections. The number of inspections made is included in Mr. Driscoll's report.

Respectfully submitted,

A. A. ROBERTSON,
Sanitary Inspector.

MORTALITY STATISTICS

Number of Deaths and Death Rates

During the year 1929 there were 613 deaths which occurred in Quincy. This number was an increase of 40 over 1928, when there were 573 deaths. There was also a slight increase in the death rate. Based on the estimated population of 69,915 on July 1, 1929 (mid-year), the death rate for 1929 was 8.8 per 1,000 population, as compared with 8.5 in 1928. Of the persons who died in Quincy, 45 were non-residents, but there were 153 residents of Quincy who died outside the city. There were, therefore, 721 Quincy residents who died during the year. The "resident death rate" was 10.3 per 1,000 population, as compared with a rate of 9.8 in 1928.

SEX. Of the 613 deaths in 1929, 278, or 45.4 per cent, were males, as compared with 52 per cent in 1928. The proportion of males in the population as shown by the United States Census of 1920 was 50.6 per cent. The estimates of 1929 were 35,377 males and 34,538 females. Based on these estimates the death rate per 1,000 males was 7.9, as compared with 8.5 in 1928. The rate for females was 9.2, as compared with 8.5 in 1928.

AGE. Of the 613 deaths in 1929, 54, or 8.8 per cent, were of infants under one year of age, as compared with 11.5 per cent in 1928. Among the deaths registered during 1929 there were 12 over 90 years of age. The oldest age at death was 95 years, 5 months, 8 days. The average age at death fell in the 60-64 years group.

NATIVITY. Three hundred and sixty-nine, or 60.2 per cent, of the decedents whose nativity was reported on the death certificate were native.

SEASONAL DISTRIBUTION OF DEATHS. The largest number of deaths in any one month occurred in January, when there were 94, and the next largest in March. The lowest number occurred in July, when there were 31 registered.

INFANT MORTALITY. The infant deaths in 1929 were 52 per 1,000 live births. The infant mortality rates since 1910 are shown below:

1910	103	1920	62.4
1911	102	1921	54.3
1912	82	1922	73.1
1913	108	1923	62.8
1914	75	1924	48.6
1915	76	1925	48.6
1916	72	1926	53.4
1917	71	1927	57.0
1918	90	1928	59.8
1919	72.6	1929	52.0

(Rates since 1919 are corrected for residents and non-residents.)

The highest proportion of deaths under one year of age occurs during the early period of infancy and especially is this true of the first week. In 1929 there occurred 32 deaths in the first week of life, constituting 59.3 per cent of all deaths under one year of age compared with 50 per cent in 1928. On the first day the per-

centage of deaths (35.2) was higher than any other day as compared with 27.3 per cent in 1928. In the first month there were 37 deaths, or 68.5 per cent, of all infant deaths, as compared with 57.6 per cent in 1928.

Causes of Deaths

PNEUMONIA caused 38 deaths in 1929, or 54.4 per 100,000 population. It was responsible for 50 deaths in 1928, a rate of 74 per 100,000.

HEART DISEASE. The deaths from heart diseases in 1929 numbered 178, or 29 per cent, of all deaths, or 253 per 100,000 population, as compared with 131 deaths, or 22.9 per cent of all deaths, or 194 per 100,000 population in 1928.

TUBERCULOSIS in its various forms claimed 22 victims in 1929, of whom 20 died of tuberculosis of the respiratory system. Deaths from tuberculosis constituted 3.3 per cent of all deaths in 1929. The rate per 100,000 population was 31.4, as compared with a rate of 35.2 in 1928. In addition, 23 Quincy residents died of tuberculosis in sanatoria, making the total number of deaths from this disease 45. The "resident rate" per 100,000 was 64.4, as compared with 78.4 in 1928.

CEREBRAL HEMORRHAGE and APOPLEXY caused 36 deaths, or 5.9 per cent of all deaths, or a rate of 51.5 per 100,000 population. In 1928 there were 43 deaths from this cause, corresponding to 7.5 per cent of deaths from all causes, or a death rate of 64 per 100,000 population.

CANCER caused 63 deaths in 1929, or 10.3 per cent of all deaths, corresponding to a death rate of 90.1 per 100,000 population, as compared with 63 deaths, 11.0 per cent of all deaths and a death rate of 93 per 100,000 in 1928.

BRIGHT'S DISEASE and NEPHRITIS were the cause of 54 deaths in 1929, corresponding to a death rate of 77.2 per 100,000 population, as compared with 57 deaths and a death rate of 84 per 100,000 in 1928.

DISEASES OF EARLY INFANCY and MALFORMATIONS caused 39 deaths in 1929, a rate of 55.8 per 100,000 population, compared with 35 deaths and a rate of 52 in 1928.

EXTERNAL CAUSES. The number of deaths from external causes was 40, with a rate of 57.2 per 100,000 population, as compared with 45 deaths and a rate of 67 in 1928. Automobile accidents in 1929 caused 12 of these deaths, as compared with 9 deaths in 1928. Two of the deaths in 1929 and two of the deaths in 1928, however, were caused by accidents which occurred outside the city.

AMITY PERKINS, B.S.	Dietitian

REPORT OF BOARD OF MANAGERS

*To His Honor the Mayor and the
President and Members of the City Council:*

GENTLEMEN:—On June 17, 1890, the City Hospital came into existence through the benevolence of the late William B. Rice and was sustained and carried on for nineteen years through the benefactions and generosity of our citizens.

In 1919 private management ceased and the hospital became a municipal institution. The original building had accommodations for twenty-four beds and a medical staff of twelve physicians, and it is with pleasure that we record that one member of the original group, Dr. Nathaniel S. Hunting, is still on the staff. During the first year one hundred and two patients were treated, of whom twenty-four were brought into the hospital because of that never-to-be-forgotten train wreck that occurred just north of the Dimmock street bridge.

At the present time we have one hundred and fifty beds and a visiting staff of twenty-six doctors and a consulting staff of nine doctors and during the past year four thousand two hundred and seventy-eight patients received treatment. By June 17th, next, we will have completed forty years of hospital work and will have a hospital of two hundred and thirty beds, more or less, one comparable in size to the Carney, St. Elizabeth or the Faulkner Hospitals.

Of course we have grown in years and size from a city in 1890 two years old of about 15,000 souls to one of forty-two years and a population about 75,000.

With the completion of the new wing of three stories, the first floor to be a men's ward containing thirty-eight beds, the second, a women's ward of thirty-eight beds, and the third floor having twenty-seven private rooms, a total of one hundred and three beds, additional facilities and equipment will be immediately required

and the two outstanding and major requirements are increased operating facilities and a morgue.

We are now terribly overcrowded in the operating room, and with the increase of fifty per cent or more in beds, proper medical treatment under existing conditions will become impossible.

We appreciate the needs of other departments of the city, that the schools and the streets require much—very much—money for construction and upkeep, but the City Fathers, and our citizens, too, for that matter, should keep in mind the needs of the sick and the injured and the attention they require. Being a small percentage of the whole population, they do not have so many advocates for appropriations, but no appropriation can be made for better purpose or service than one to relieve and aid human ailments and suffering.

This is no reflection or criticism of the City Government. It has always responded, so far as it could, to our requirements and we believe the finest piece of legislation it passed last year was the order making possible the new wing now under construction and we hope, yea, confidently expect, that this year a sum large enough to meet our immediate requirements will be available at an early date.

There is on file, and has been for some time, a plan by Messrs. McLaughlin & Burr for additions and alterations to the operating room. Briefly, the plan contemplates a two-story building with basement, the basement to be used to accommodate the pathological and clinical laboratories, autopsy room and morgue, general pharmacy and physio-therapy department. The first floor to be used for operating rooms, emergency case room, dressing rooms, etc., also an X-ray department. The arrangement of the second floor contemplates having to do with maternity cases. This additional building should be started at once; the basement and first floor equipped; the second floor can wait for a period.

Your honor, in your inaugural, we were pleased to note, devoted no small part of it to hospital requirements and development of the grounds, but the Board cannot put it too strongly to you and the Council that our first and absolutely essential needs are additional operating facilities and a morgue. Next in order for consideration and requirement will be the housing of twenty-five or more additional nurses, needed within a few months. We are now caring for twelve nurses in a house apart from the hospital grounds and also the same number of maids in another house not on the grounds but near by. For a while, at least, it seems as if we shall have to hire another house. The Board feels that an addition to the present nurses' home should be begun, if possible, this year.

In your inaugural, Your Honor also made mention of recreation facilities for the nurses and this suggestion the Board heartily approves. There is, in addition to recreation, another consideration; that is, that at present there is no place where the student nurses may sit during the warm days in the summer excepting on the front steps of the home. We are advised by the architects that a three-story porch may be added to the Nurses' Home at the south end towards the east at an expense of approximately twenty-five hundred dollars and that this porch could be made to harmonize with the building. We believe this porch would add much to the comfort and enjoyment of the nurses when they are off duty. We recommend the building of such porch.

In summing up, we present for your consideration and that of the citizens of Quincy the reports of the Superintendent, Medical

Staff, School of Nurses, X-Ray Department, Physical-Therapeutic Department, Pathological Department, that of the Hospital Librarian and the reports of the Hospital Aid Associations, all showing what has been accomplished and each report is worthy of careful reading.

We have a new and extremely interesting report for the first time this year—the Hospital Library Service, made possible through our Public Library, with the aid and assistance of Mr. Temple and in the immediate charge of Mrs. Connolly—a splendid service and one to be especially commended.

During the year Mr. Charles A. Price, who served as Chairman of the Board for nearly five years most faithfully and diligently, resigned to the regret of his associates.

We also report with regret the resignations of Dr. Charles S. Adams, past president of the Staff, who served on the Staff for many years and has been made Honorary Consulting Physician to the Staff; and that of Dr. Eugene D. Whitehouse, whose services were greatly appreciated and which we were most anxious to retain.

In conclusion, we gratefully acknowledge the active and helpful co-operation and sympathetic interest of the Hospital Aid Associations, and to all other organizations—groups and individuals—for their contributions and kindly interest. We likewise express our sincere appreciation.

MAURICE P. SPILLANE, *Chairman*

GEORGE TAYLOR, *Secretary*

ERNEST B. NEAL

JOSEPH H. DASHA

FORREST I. NEAL.

REPORT OF SUPERINTENDENT

To the Board of Managers, Quincy City Hospital:

GENTLEMEN:—I herewith submit to you a report of the work done at the Quincy City Hospital during the year ending December 31, 1929.

Statistical Information

Patients in hospital January 1, 1929.....	115	
Patients admitted during the year.....	4,278

The close of 1929 finds us busier than ever after a busy and interesting year.

In the early part of the year the laboratory equipment was purchased. Dr. Francis McCarthy was chosen pathologist. He and his able assistant, Mrs. Doris Goodman, are doing splendid work. The statistics in the separate report will give some idea of the importance of such a department.

In July ground was broken for a new building. This building will be equipped to care for 103 patients. The wards will be segregated for medical and surgical work—one floor for men, another for women, and the top floor is made up of private rooms which will care for male and female patients, both medical and surgical. This new building will greatly relieve the congestion in the present wards, but will bring more work to the already overtaxed surgical service department. To insure cooperation and efficient work from the working staffs, more room must be provided immediately.

One new shadowless and heatless operating room light has been installed in one of the operating rooms—a new adjustable surgical table, three electric clocks, and many new instruments have been

added to the equipment in the surgical department. This all tends to better efficiency.

For another year the Quincy and Wollaston Hospital aids have given most generously of their time, and their support has been fully appreciated. We wish to thank the many private clubs and associations who have helped us with sewing throughout the year.

Christmas was made much happier for the patients by the gifts donated by individuals and clubs, also by the candy bags from the Wollaston Aid and the handkerchiefs, ties and toys by the Quincy Aid.

I wish to thank most sincerely the Board of Managers and those who have cooperated with me in the past year.

Respectfully submitted,

RUTH J. ADIE, R.N.,
Superintendent.

INFORMATION RELATIVE TO ADMISSION OF PATIENTS, RATES, ETC.

Application for the admission of patients to the hospital should be made to the superintendent. Patients desiring admission should be referred by a physician.

Accidents are admitted at any time.

The hospital maintains an ambulance for transportation of patients within the city limits. The ambulance may be obtained for special service by application to the superintendent.

Single rooms, \$4.50, \$5. \$6.00 and \$8.00 per day.

Semi-private rooms, \$5.00 per day.

Ward bed (private), \$3.00 and \$4.00 per day.

Ward bed (service), \$3.00 and \$4.00 per day.

Additional charges:

Operating room, \$5.00 to \$10.00.

Delivery room, \$5.00.

Etherizing fee, \$5.00.

Laboratory fee, \$5.00.

Plaster casts or special dressings, \$3.00 to \$5.00.

Ambulance, \$3.00.

Board of special nurse, \$1.00 per day.

Proprietary drugs or unusual or expensive preparations, mineral waters, liquors, etc., will also be charged extra.

Radiographs will be taken every day by appointment, with the exception of Sunday.

Appointment for radiograph of the gastro-intestinal tract should be made either Monday, Tuesday, Thursday or Friday.

REPORT OF THE SCHOOL OF NURSING OF THE QUINCY CITY HOSPITAL

To His Honor the Mayor, the Board of Managers, the Staff and Miss Adie:

Another year has passed and I wish to submit the report of the School of Nursing for your attention.

Like the other parts of the institution, the nursing force of the hospital has felt the effect of the increased amount of work being done, and so it has been necessary to employ additional general duty nurses.

During the year a number of changes in the personnel have taken place. Miss Margaret Main, who had been instructor of nursing for several years, resigned to accept an executive position in a hospital near New York. Miss Ellen Young, a recent graduate of the school, has taken over her work. Miss Ethel Clow, the instructor of theory, resigned in order to go to New York for further study. Miss Vieno Johnson has succeeded her. Miss Agnes Johnson, night supervisor, resigned because of ill health. Miss Constance Larkin, her assistant, replaced her. Miss Ida Giovannangeli, of the class of 1927, is now assistant night supervisor. Miss Verna Tibbetts, operating room supervisor, resigned to be married. Miss Grace Hyslop is now filling the position. There have been a few changes among the head nurses and among the general duty nurses.

I am pleased to report that there has been comparatively little illness among the students, only five per cent having lost time due to it, and that, an average of six and one-half days each. The most illnesses have been appendicitis and tonsillitis.

Graduation was held as usual in June. It was an important event, as we graduated twenty-four students, the largest number in our history. The total number of students entering in 1929 was twenty-three, of whom nineteen were accepted. We are endeavoring to encourage those best fitted to remain. To the equipment for teaching we added another Chase doll, a black board, a microscope, and more reference books to our library, which is slowly increasing.

The usual student activities have taken place, including several dances, the seasonal parties at Hallowe'en and Christmas, also a bridge and whist party, all of which have been organized and managed chiefly by the pupils. A ukelele class, conducted by Mr. Dan Nolan, was held weekly for six weeks before Christmas. Twenty-five of the nurses, including some of the graduates, attended. They all seemed to enjoy it.

I wish to thank the Quincy and Wollaston Aid Associations for the delicious teas which they have given. I sincerely hope that they enjoyed coming to the Nurses' Home as much as we enjoyed having them. I appreciate very much also the willingness of our doctors to assist us by giving lectures and in taking care of the nurses who are ill, all of which takes time from their already crowded schedules. To all who have sent gifts to the nurses at Christmas and through the year sincere thanks is given. In clos-

ing, may I express my thanks to our Superintendent for her support and to all the nurses who have worked faithfully and loyally through a difficult year.

Respectfully submitted,

EILEEN M. YOUNG, R.N.,
Superintendent of Nurses.

REPORT OF THE MEDICAL STAFF OF THE QUINCY CITY HOSPITAL FOR THE YEAR 1929

The past year has seen a marked progress in the developments of the hospital from the staff's view point. In the 1928 report, attention was called to the fact that the increase in the number of hospital cases had resulted in an excessive amount of work being placed upon the staff as it was then organized. During the past year a reorganization took place that resulted in three surgeons serving at a time instead of two, as had previously been done. This plan resulted in the patients receiving more efficient treatment, in that more time was available for individual study of the cases. With minor changes, this plan will be followed during the year 1930.

The new building, now in a process of construction, will be a tremendous asset to the hospital, and will not only mean that we will be able to care for more patients, but that it will be to the advantage of the hospital in general, in that the facilities at our disposal will result in the more efficient handling of cases.

During the past year the Pathological and Bacteriological Laboratory was established under the direction of Dr. Francis P. McCarthy. This is one of the most important forward steps that the hospital has made in many years, and places the hospital on a basis that will enable it to carry out work second to no hospital in the Commonwealth.

Continuing a custom started several years ago, the joint meeting of the Norfolk South District Medical Society of the staff was held at the hospital in February. Many interesting cases were presented, and Dr. F. B. Lund of Boston presented a paper on "Stomach Surgery."

It is essential that the future growth of the hospital keep pace with that of the city, and this will necessitate the erection from time to time of new buildings and the purchasing of additional equipment. The most pressing needs at the present time include the enlargement of the operating room space and equipment, increased laboratory, X-ray, and physiotherapy accommodations, and house officers' quarters. The time has come when the establishment of an obstetric service is absolutely necessary, and this, together with the marked increase in the number of hospital patients in the next few months, will require the services of several house officers. The present quarters are inadequate for our present needs, and different arrangements will have to be made if we are to obtain the desirable type of house officer.

WILLIAM R. HURLEY, M.D.,
President.

REPORT OF X-RAY DEPARTMENT, QUINCY CITY HOSPITAL

To the Superintendent and Board of Managers, Quincy City Hospital, Quincy, Massachusetts:

The year 1929 showed a healthy growth in the work done by the X-ray department, the actual gain over the year 1928 being three hundred and fifty-six patients.

The efficiency of the department was disturbed for some time by the resignation of Miss Agnes M. Fraser, who was chief technician in the laboratory, and later, by the resignation of Miss Ceceline Nash, who was Miss Fraser's assistant. However, after a short course of instruction, Miss Doris S. Thompson and Miss Helene A. Reid took charge of the laboratory, and both have shown a wonderful aptitude for this type of work, and have carried on the routine of the laboratory with commendable enthusiasm and accuracy.

We have been laboring under the handicap of inadequate space, and we are looking forward to the completion of the new building, which will contain the new X-ray Laboratory, the plans of which have been inspected and approved. With the new equipment which we expect will be provided in this addition to the hospital plant, we hope to be able to show a much greater increase in the number of patients X-rayed than has been shown in any previous year.

A healthy increase has been noted in the number of doctors who have sent patients to the laboratory, and every effort has been made to give them courteous and efficient service.

I wish to express my sincere appreciation to the administration and staff for their hearty cooperation during the past year.

Respectfully submitted,

CHARLES WHELAN, M.D.,
Roentgenologist.

X-Ray Statistics

House patients	913
Out-patients	1,986
Total	2,899
Gastro-intestinal tract	408
Genito-urinary tract	49
Gall bladder region	205

Total X-ray patients and treatments.....	2,967

REPORT OF THE PHYSICAL THERAPEUTIC DEPARTMENT OF THE QUINCY CITY HOSPITAL

To the Superintendent and Board of Managers, Quincy City Hospital, Quincy, Massachusetts:

Following is the year's report of Physical Therapy:

For the year 1929, 5,263 treatments have been given to medical and surgical house and out-patients.

The statistical report of treatments shows:

General ultra-violet (air cooled)	755
Local ultra-violet (water cooled).....	681
Radiant heat	1,861
High frequency	741
Massage	1,042
Wave generator	228
Total	5,263

With our present apparatus we cannot effectively care for this volume of work; much loss of time occurs to patients awaiting identical treatment.

With completion of equipment, this department will render a far superior service to the hospital and city.

I wish to thank the administration and staff for their cooperation.

EDMUND B. BURKE, M.D.

REPORT OF THE PATHOLOGICAL DEPARTMENT

To the Superintendent and Board of Managers, Quincy City Hospital, Quincy, Massachusetts:

The following is the report of the Pathological laboratory for the year 1929:

The laboratory was opened on June 1, and therefore the number of examinations made covers the seven-month period, from June 1, 1929, to December 31, 1929.

Total	2,426

The laboratory employs a full-time technician, and when the new building opens it will be necessary to add to our technical force to take care of the increased number of specimens.

FRANCIS P. McCARTHY, M.D.

REPORT OF THE HOSPITAL LIBRARIAN

More than four years ago Mr. Truman R. Temple, librarian for the Thomas Crane Public Library of Quincy, Massachusetts, collaborated with Miss Ruth Adie, superintendent of the Quincy City Hospital, to extend book lending to the patients and those connected with the hospital. The service was continued under Galen W. Hill, present librarian.

In the hospital a small closet was set aside for the use of the hospital librarian. A book wagon was provided by the library and fifty books installed as the nucleus of the experiment. The hospital then had eighty-five beds.

The librarian assigned to the work gave over two afternoons a week to the service, and so sucessfully has the plan worked out that five months ago the service was increased to three afternoons weekly: Monday, Wednesday and Friday.

Today the hospital's library comprises some three hundred and fifty books, and is being constantly added to from the new publications. Books for the hospital are carefully chosen for their therapeutic value, and when a patient expresses a desire for a particular type book not at hand, the librarian is free to draw on the thousands of books at the Thomas Crane Library. Current magazines of the better, popular type are provided by the Hospital Aid. Also the post office allows the librarian to cull any desired magazine from those uncalled for there.

The library is popular, indeed, with the children. They cheer at the appearance of the book wagon and choose their stories and picture books with an enthusiasm that is good to see.

Altogether, the experiment has been a great success and we pioneers in the work are happy with the results.

During the year 1929 we circulated in the hospital:

Juvenile non-fiction	388	books
Juvenile fiction	694	"
Adult non-fiction	251	"
Adult fiction	5,166	"
Total	6,499	"

A. ZAYMA CONNOLLY,
Hospital Librarian.

REPORT OF THE QUINCY HOSPITAL AID ASSOCIATION

"Brevity being the soul of wit," the President's report will at least be brief.

The meetings have been held through the courtesy of the Quincy Women's Club at the club house with a fine attendance each meeting.

The high lights of the year are the raising of funds from the "White Elephant" sale given by Mrs. Mary Cheever. For the first time we received one hundred dollars from the "King Fund," for which we are deeply grateful, also many gifts from individuals.

A bit of "Social Service" work has been the sending of one of the student nurses of the Quincy Hospital to Simmons College to finish her course in Public Health Nursing.

Respectfully submitted,
MARTHA N. WOODRUFF, *President.*

REPORT OF THE WOLLASTON BRANCH HOSPITAL AID ASSOCIATION

The "Aid" has met the first Thursday of each month, excepting July and August, for sewing from ten to four o'clock. Our work is about the same from year to year. This year we made one thousand and four pieces of sewing and five hundred and fifty-six dozen pads.

We have given two "Teas" to the nurses in the nurses' new home in January and March.

ANNIE W. LOWE, *President.*

Waiver of four day law refused	25

CONCLUSION

Two patrolmen were retired on pension the past year and three others resigned.

The pensioned men were both long in the service of the Department, had worked hard and faithfully with never a black mark against them, and they richly deserve the opportunity to rest from the trying and difficult duties that confront every police officer who seeks to give his best efforts in his service to his city.

The signal system has been extended and improved by the addition of four new call boxes and flash lights and the relocation of others.

The traffic signals continue to do their work with efficiency and economy. A great deal of work has been done on this system during the past year to make the signals meet the requirements of the State Board of Public Works, which has established a code to which all automatic signals in the Commonwealth must conform.

This work was done within the Department at a great saving to the city, the only expense being for the purchase of materials, which were assembled and installed by Patrolman John P. Duffy, Jr. The latest automatics purchased by the city were also installed by Patrolman Duffy and the men of the Fire and Police signal service at a substantial saving to the city.

Two of the latest type of electric flashing beacons have been installed during the year, as well as a suspended flashing caution signal. One beacon has been placed on Farrington street at its intersection with Beale street, and the other on Quincy street at the intersection of Water street. Both of these locations are potentially dangerous and unless due care is used in approaching them, serious accidents are liable to occur. With these beacons warning of this danger, there is not reason for accidents at these points.

The suspended flashing warning signal was installed at the dangerous crossing at Dimmock street and Upland road. It was necessary to use a suspended signal at this point due to the narrowness of these streets.

Six new type of head light illuminating one-way street signs have been erected the past year. These have proven to be so effective that I intend to install several others during the coming year.

On Dec. 13th, three light autos were put into service. These were intended primarily for the use of the sergeants on the night shift, but are also being used by the patrolmen on three of the longer day routes. While these cars have only been in service a short time, it is already evident that they will add materially to the efficiency of the Department.

The Cadillac patrol-wagon is in poor condition after ten years of service and should be replaced by a new up-to-date one, as the cost of upkeep is becoming very large.

I wish to thank His Honor Mayor McGrath and the members of the City Council for the splendid spirit of cooperation that they have shown in meeting the needs of the Department.

I am extremely grateful to the District Attorney and the members of his staff, Judge Avery and his associates, and the other officials of the court for the kindness that they have shown and the assistance they have rendered to the Department.

I think it would not be out of place in closing this report to express to the officers and men of this Department my appreciation of the interest that they have shown in their work and the welfare of the Department.

To these men who have given the best that was in them to the service of the citizens of Quincy, I wish to extend my thanks and to assure them of my appreciation of their efforts.

Respectfully submitted,

ERNEST H. BISHOP,
Chief of Police.

REPORT OF FIRE DEPARTMENT

QUINCY, MASS., JANUARY 1, 1930.

HON. THOMAS J. McGRATH, *Mayor, City of Quincy, Quincy, Mass.*

DEAR SIR:—I respectfully submit the annual report of the Fire Department for the year ending December 31, 1929.

Personnel of Department

Chief of Department, Alfred L. Mead

Deputy Chiefs

Fire Alarm Department Personnel

Gavin, William A., Supt. of Fire Alarm
 Smith, Thomas, Lineman
 Leonard, George, Lineman
 Lonergan, Francis, Lineman

APPARATUS

Central Station

One Nash Chief's car.
 One Buick Deputy Chief's car.
 One Seagrave pumping engine.
 One Seagrave ladder truck.
 One LaFrance combination (reserve).
 One White combination (reserve).

Atlantic Station

One Seagrave pumping engine.
 One Seagrave ladder truck.

Quincy Point Station

One White pumping engine.

Wollaston Station

One Seagrave pumping engine.

One Seagrave ladder truck.

West Quincy Station

One White pumping engine.

One White ladder truck.

Houghs Neck Station

One White pumping engine.

One White ladder truck.

Fire Alarm Department

One G. M. C. truck.

Fire Alarms

During the year there were 923 alarms.

Bell alarms, 214.

Telephone, 709.

False, 35.

The Central Fire Station responded to 414 alarms,
139 bell, 267 telephone and 8 still.

The Wollaston Station responded to 270 alarms,
91 bell, 153 telephone and 14 still.

The Atlantic Station responded to 257 alarms,
58 bell, 109 telephone or still.

The Quincy Point Station responded to 161 alarms,
64 bell, 78 telephone and 19 still.

The West Quincy Station responded to 199 alarms,
63 bell, 136 telephone or still.

The Houghs Neck station responded to 99 alarms,
27 bell, 72 telephone or still.

The total number of feet of hose laid was.....	105,650
Central Station laid	31,150
Wollaston Station laid	18,950
Atlantic Station laid	19,600
Quincy Point laid	13,350
West Quincy Station laid	17,250
Houghs Neck Station laid	5,350
Number of feet of ladders raised.....	4,725
Number of gallons of chemicals used.....	3,052
Number of hours absent from quarters	926½
Number of hours engines worked	216¼
Number of inspections made	21,018
Number of drills	259 hours
Number of hours hydrants in use	203¾

Valuations, Insurance and Losses

Value of property involved	\$8,942,093 00
Insurance on same	2,988,925 00
Loss insured and uninsured	134,863 00

Fire Losses for the Year of 1929

Month	Buildings	Contents	Losses
January	\$4,373 00	\$1,115 00	\$5,488 00
February	9,528 00	3,190 00	12,718 00
March
April	7,962 00	1,025 00	8,987 00
May	10,648 00	6,356 00	17,005 00
June	13,000 00	8,324 00	21,324 00
July	4,236 00	1,240 00	5,476 00
August	2,928 00	2,928 00

October	5,256 00	2,949 00	8,205 00
November	8,344 00	8,765 00	17,109 00
December	7,388 00	25,438 00	32,826 00
	\$75,154 00	\$59,709 00	\$134,863 00

During the year of 1929 there were 923 alarms, making an increase of 149 alarms over last year. While the alarms were more in number this past year the risks were greater and the losses less than in 1928.

We have added a new Nash chief's car and a new truck for the Fire Alarm equipment.

The two Deputy Chiefs took their positions February 2, 1929. According to promotions made from the rank of privates to lieutenants last year, five new men should be appointed this year to fill in those vacancies in the private ranks.

There were 7,800 feet of underground cable installed with all necessary junction boxes and laterals. Eighteen new fire alarm boxes were installed, twelve of these replacing old type boxes, and thirteen miles of overhead wire were strung. The number of fire alarm box tests were 2,600, circuit tests were 1,200, circuit ground tests were 400, and 340 new cross arms were used.

Relative to fire alarms, the sounding of fire alarms at Headquarters and the receiving of same has got to be done in a different manner; changes will have to be made in the fire alarm building so that all alarms will be sent out manually. That will require a man at the desk twenty-four hours per day on eight hour shifts in the fire alarm building.

We will surely have to purchase this coming year one or two small trucks to fight grass and brush fires, as it is costing too much to send out our larger pieces of apparatus to the increasing number of these fires. It makes our repair bills enormous.

If the School Committee ever stops coming to the City Council for new buildings and additions, I intend to ask for a new Central Fire Station and repairs to such other buildings to meet the requirements of necessary apparatus, which from time to time may have to be added to our department. In my opinion, there are a lot of repairs which should be made and a lot of money to be expended in the Fire Department before there is any money spent for an aerial ladder or any other ladder.

In conclusion, I wish to express my sincere thanks to His Honor the Mayor, for the interest he has taken in the department, the City Council, and to the officers and men of the department for their cooperation and their splendid work.

Very respectfully,

ALFRED L. MEAD,
Chief of Fire Department.

REPORT OF INSPECTOR OF BUILDINGS

JANUARY 1, 1930.

HONORABLE THOMAS J. McGRATH *Mayor of Quincy, Quincy, Mass.*

DEAR SIR:—I herewith submit the twenty-third annual report of the Building Department for the year ending December 31, 1929.

During the year 1929 there have been erected

266	One family dwellings	266
20	Two family dwellings	40
41	Four family dwellings	164
3	Eight family dwellings	24
1	Fourteen family dwelling	14
1	Twenty-one family dwelling	21
2	Twenty-four family dwellings	48
1	Thirty-five family dwelling	35
<hr/>		<hr/>
335		612

making a total of 612 new housekeeping units. Thirty-eight mercantile buildings were constructed and seven small manufacturing buildings. The Bethlehem Shipbuilding Corporation has erected a fine new office building on the northerly side of East Howard street nearly opposite the main office building.

Early in the year an effort was made to correct a serious condition which exists in the city in the location of business blocks, the intent being to locate these buildings thirty feet from the center line of the street to insure light and ventilation and to provide means of adding to the facilities of traffic without the expense of demolishing buildings, which the authorities have given permits to erect. This project has been under consideration for over thirty years, but has been defeated in the City Council many times. In the interest of good government it would seem to be advisable to adopt this or some suitable measure to provide for the future location of these buildings.

TABULATION OF BUILDING OPERATIONS FOR 1929

Permits		Estimated Cost
Ward 1		
60	One family dwellings	\$349,700 00
3	Two family dwellings	20,000 00

ANNUAL REPORT OF THE SEWER DIVISION OF THE PUBLIC WORKS DEPARTMENT

For financial statement see Auditor's Report.

Six miles of common sewers running from 8" to 15" in size were built during the year 1929. Included in this is about one mile of sewer built in Squantum which will not be available for use until the State of Massachusetts builds and is ready to operate its pumping station. New deep line sewers were built in a portion of Hancock street, Chestnut street and Cottage avenue to take care of new business blocks and to provide for others in the future. For location of sewer extensions see appended table.

The number of house connections made to buildings for the year was 426 in wards as follows:

Ward 1.....	85	Ward 4.....	84
Ward 2.....	32	Ward 5.....	98
Ward 3.....	39	Ward 6.....	88

The total number of feet laid in these connections was 19,410.7 at a cost of \$20,289.59, thus making the average cost per foot \$1.05.

Average length per connection	45.57 feet
Average cost per connection	\$47.85

Buildings as follows:

Business Blocks	23	Single houses	297
Garages	9	2-family houses	51
Hospitals	1	3-family houses	2
Veterans' home	1	4 apartments and over.....	36
Mercantile	4	Schools	2

Surface and Storm Drains

Four and one-half miles of surface and storm drains were built during the year 1929.

The location and description of these drains are included in the report of the City Engineer.

Respectfully submitted,

FREDERICK E. TUPPER.

SUMMARY OF STATISTICS

Population (estimated State Census July 1, 1929)....	69,800
Total consumption of water in gallons for year 1929	2,042,725,200
Average daily consumption in gallons.....	5,596,507
Gallons per capita per day.....	80.2

Main Pipe

Main pipe laid in year 1929 (feet).....	18,446
Total length now in use (miles).....	184.93

Hydrants

Fire hydrants installed in 1929.....	33
Total hydrants now in use.....	1,666
Gate valves installed in 1929.....	82
Total gate valves now in use.....	2,871
Service pipe laid in 1929 (feet).....	18,400
Total length of service pipe now in use (feet).....	751,466
Total number of taps made in 1929.....	400
Total number of taps now in use.....	16,326
Number of meters installed in 1929.....	493
Total number of meters now in use.....	15,874
Per cent of services metered.....	97.19
Number of leaks in mains for year 1929.....	31
Number of hydrants per mile of main.....	9.24
Gallons of water per tap per day.....	345
Water services renewed in 1929.....	107
Water meters out for tests and repairs in 1929.....	1,079

Table showing the yearly, daily and per capita consumption of water in gallons for the past ten years

Year	Yearly Consumption	Average Daily Consumption	Per cap. Daily Cons.
1920.....	1,636,935,000	4,472,500	93.4
1921.....	1,558,367,500	4,269,500	84.9
1922.....	1,552,600,500	4,253,700	80.5
1923.....	1,524,130,500	4,175,700	75.7
1924.....	1,592,978,400	4,352,400	75.5
1925.....	1,634,543,000	4,478,200	74.3
1926.....	1,736,305,000	4,757,000	77.0
1927.....	1,825,365,000	5,001,000	78.8
1928.....	1,901,589,600	5,195,600	76.9
1929.....	2,042,725,200	5,596,507	80.2

Table showing the monthly and average daily consumption of water in gallons for the year 1929

Month	Consumption per month	Consumption Aver. monthly	Consumption daily aver. for the month	Consumption daily aver. for the year
January	165,385,000	5,335,000
February	150,259,200	5,366,400
March	165,168,000	5,328,000
April	162,963,000	5,432,100
May	168,506,700	5,435,700
June	174,441,000	5,814,700
July	190,578,700	6,147,700
August	178,268,600	5,750,600
September	173,640,000	5,788,000
October	172,344,500	5,559,500
November	168,144,000	5,604,800
December	173,026,500	170,227,100	5,581,500	5,596,507
Total	2,042,725,200	170,227,100	5,596,507

The average daily consumption per consumer for the year was 80.2 gallons.

WM. L. FOSTER, *Treasurer.*

Trustees of Weymouth Fore River Bridge.

GENTLEMEN:—I have examined the accounts of William L. Foster, Treasurer of the Trustees of Weymouth Fore River Bridge, for the year 1929, reconciled the bank account, and I hereby certify that the same are correct with proper vouchers.

(Signed) J. IRVING BOTTING,
Town Accountant.

Hingham, January 7, 1930.

REPORT OF CITY PLANNING BOARD

To His Honor the Mayor and Members of the City Council:

There is still ample material in our fourteen previous reports that could be judicially studied by your legislative body that if acted upon would add immeasurably to the well-being of our metropolis.

Outstanding, as in every developing community is the overburdening question of traffic and parking upon our main arteries. This is shown to an extreme degree upon Upland Road in the busy hours. Originally a secondary street of 40 feet in width there is now an actual necessity of at least adding a 10 foot building line on either side through its entire length. With a possible relocation of the N. Y., N. H. & H. roadbed for its four track system a little to the west access to the new Franklin Street extension can be obtained, also entrance to the station yard from Granite Street without encroachment upon the cemetery.

Our view herewith of the widened Chestnut Street taken at a time when it was free of traffic emphasizes possibilities of a steady and ample flow of vehicles were it not for the continuous parking in our streets. This problem will naturally need to be considered upon broad lines and if continued a 60 foot street is imperative.

A study of the Metropolitan Planning Division redirects traffic from Adams Street at Brook Road in Milton to the Furnace Brook Parkway in Quincy, but will require the utmost caution in travel where the Parkway crosses in the valley at Adams Street.

The Metropolitan plan for an extension of the Southern Artery along Town River to a new Fore River bridge is in line with our original plan for the Pilgrim Highway and will be beneficial and attractive without encroaching upon industrial development upon the river or working any hardships upon the merchants at Quincy Point.

Study of a new connection from the Old Colony Boulevard to the Quincy Shore Drive will eventuate in increased facilities for entering and leaving the city. In connection with this we wish again to emphasize the possibilities of continuing the Pilgrim Boulevard at Merrymount direct through the City Home grounds to Field Street and entering the Southern Artery direct, obviating the crowding Sea Street and joining the Artery at an already congested point.

Our consideration of a through highway continuing Reedsdale Road in Milton direct to Willard Street, West Quincy, along the line of the former Quarry Railway, while more properly a state or county proposition may well call for your cooperation.

Quincy should be prepared to widen Willard Street from the Milton line to Copeland Street when Milton undertakes widening Granite Avenue, which is a continuation of the same thoroughfare. Traffic from Boston over Granite bridge to the concrete highway on Willard Street is increasing and becoming a pronounced factor in movement to and from the southerly portion of the county and state.

Traffic Lights

Our system of traffic lights in the city has been highly beneficial, although it is our recommendation that those at Chubbuck Street in Ward 2, and Wibird Street, Ward 1, should be dispensed with. Also as the ground is covered by the police where children are passing to and from school the lights at Myrtle Street, Ward 6, and at Fifth Avenue on the Southern Artery, Ward 2, could be eliminated. It would seem that further study would result in discontinuing one light at West Squantum and Hancock Streets, permitting the light at the Atlantic engine house to cover the point. The same applies to the discontinuance of one light at Elm and Washington Streets, where the Canal Street light would perform the service.

Green arrows in every instance have been the success that was anticipated. It would be an improvement if the design of these arrows could be more prominent. In some instances owing to their size and indefinite shape they have been mistaken for the green signal light.

Public Buses

The operation of public buses in our streets can be better regulated if the city provides stopping points at curb lines definitely marked. Today a bus stopping in the middle of street to receive and discharge passengers constitutes a blockade and menace. With rerouting of the South Quincy and Adams Street-West Quincy bus lines there is opportunity for discontinuing car tracks in Water, Copeland and Willard Streets.

Fore River Bridge

The need of an adequate Fore River bridge was demonstrated as far back as 1927 when actual traffic count showed a total of 15,912 cars passing in 16 hours, an average of 497 per hour. During that period the draw opened for five minutes, held up 117 autos, and later during 10 minutes there was a hold up of 318 cars. With four lines of state highway traffic pouring its flood on to this three way bridge hampered by a street car line, it would seem in all justice to conditions that the State should adopt a policy of sharing construction and maintenance.

With ten feet more of clearance a saving of more than 90 per cent of draw openings can be obtained. By actual count for four months a total of 655 openings could have been reduced to 54.

Regarding a new location just to the east below the present bridge it is not a difficult engineering problem although there is a 7 foot Edison conduit crossing at that point.

Our two landscape views in this report are taken within the city limits at an altitude of 570 feet and while not on a large scale will show what may be viewed and accessible to the public in a 10 minute drive from the heart of the city and a 10 minutes' walk to the Metropolitan fire tower.

William Chapman

Early in the year our board met with the loss of a member of high standing in his profession and one devoted to the city's welfare. In the passing of William Chapman we shared with Metropolitan Boston, sincere grief and the deprivation of fellowship of a good companion.

Respectfully submitted,

CITY PLANNING BOARD,

WILSON MARSH, *Chairman*

JAMES E. W. GEARY, *Vice Chairman*

THEO J. CRAIG

JAMES J. McPHILLIPS

JOSEPH ANGELO

WALLACE S. CARSON, *Clerk.*

BOARD OF SURVEY

JANUARY 1, 1930.

To His Honor the Mayor and Members of the City Council.

GENTLEMEN:—The members of the Board of Survey respectfully submit herewith its fifteenth annual report for the year ending December 31, 1929.

The Board organized early in the year and elected Mr. William G. Shaw Chairman of the Board.

The largest new development during the year was by the Willard Welsh Land Company on the Forbes estate on Adams street. This company cooperated very satisfactorily with the Board on any suggestions for changes that were made from the original design. They constructed the streets to their proper grade, placing six inches of gravel on the surface; constructed sidewalks; installed drains and catch basins and installed stone monuments where required. This is the type of development that the Board are insisting on from petitioners for new layouts.

During the year the Board has made a practice of viewing the site of each request before the public hearing, thereby familiarizing themselves with the natural topography of each project. In so doing they have been able to insist on changes that would ordinarily be correct on the plans.

The rules and regulations of the Board were revised and new copies printed for the use of the public.

A petition was received for an extension of Harris street to within 120 feet of Quarry street. The Board approved this extension and also recommended that the City Council make a taking of two lots 20 feet wide to insure the extension of this street to Quarry street in the future. The City Council adopted this and made the proper takings so that Harris street will extend from Reardon street to Quarry street, thereby eliminating a dead-end street.

Public hearings were held on petitions for new layouts as follows:

May 24, 1929, on petition of Willard Welsh Land Co., for layout of streets on the Forbes Estate.

July 2, 1929, on petition of Charles V. Douse, for the extension of Morgan road.

October 31, 1929, on petition of T. E. Kyllonen, for the extension of Harris street.

November 21, 1929, on petition of Sigrid Nylund, for layout of new streets off Adams street on Goucher property.

The Board gave tentative approval on each petition subject to the petitioners complying with all the rules set down by the Board.

Final approval was given on the following streets:

Morgan Road extension, petitioner Charles V. Douse, Ward 5, 340 feet long, approved July 2, 1929.

Forbes Hill Road, petitioner Willard Welsh Land Co., Ward 5, 1500 feet long, approved Oct. 31, 1929.

Stoney Brae Road, petitioner Willard Welsh Land Co., Ward 5, 610 feet long, approved Oct. 31, 1929.

Myopia Road, petitioner Willard Welsh Land Co., Ward 5, 600 feet long, approved Oct. 31, 1929.

Hatherly Road, petitioner Willard Welsh Land Co., Ward 5, 635 feet long, approved Oct. 31, 1929.

Harris Street extension, petitioner T. E. Kyllonen, Ward 4, 155 feet long, approved Nov. 21, 1929.

Total 3840 feet long. =0.73 miles.

The Board at this time wish to express their appreciation for the cooperation that they received from the various city officials during the year, as the work of the Board would be of no avail if they did not receive this cooperation.

Respectfully submitted,

WILLIAM G. SHAW, *Chairman*

GEORGE H. NEWCOMB

WILLIAM A. CRESSWELL

Board of Survey.

WALLACE S. CARSON, *Clerk.*

REPORT OF CITY SOLICITOR

JANUARY 1, 1930.

HON. THOMAS J. MCGRATH, *Mayor, Quincy, Massachusetts:*

DEAR SIR:—The outstanding cases in the Legal Department acted on during the year 1929 were the Edison Electric Illuminating Company of Boston and Henry M. Faxon tax adjustments, and the case entitled "Merrymount Company vs. the Metropolitan District Commission," an action wherein the petitioner seeks to contest the validity of all proceedings taken by the city of Quincy and the Metropolitan District Commission in carrying out the purposes of an act of the Legislature entitled, "An Act Authorizing the City of Quincy to Acquire Land for Purposes of the Extension of the Quincy Shore Reservation in said City." The proceedings under this last case have been heard before a single justice of the Supreme Court, and on September 27, 1929, a final decree was entered sustaining the position of the Metropolitan District Commission and the city of Quincy. From this decision the petitioner has appealed, and the matter is now pending before the full bench of the Supreme Court. The above referred to tax adjustment cases have been settled satisfactorily to the parties thereto.

There have been many claims made on account of highway injuries and several tort actions are now pending in Court.

Many conferences have been held on the grade crossing matter, and all physical and legal aspects of the case have been agreed upon. There only remains the resubmission and formal approval by the Court to authorize the construction to begin at once.

Respectfully submitted,

J. J. McANARNEY,
City Solicitor.

REPORT OF ENGINEERING DEPARTMENT

JANUARY 1, 1930.

To His Honor the Mayor and Members of the City Council:

DEAR SIRs:—I herewith respectfully submit the thirtieth annual report of the Engineering Department for the year ending December 31, 1929.

This department is called on by most every other department in municipal work, and in my report I shall endeavor to explain the work for these various deparments.

Financial Statement

Appropriations and transfers:

Assistants' salaries	\$22,215 64	
Clerk	300 00	
Office supplies	600 00	
Miscellaneous items	5,100 00	
		\$28,215 64

Expenditures:

Assistants' salaries	\$21,705 67	
Clerk	300 00	
Office supplies	556 21	
Miscellaneous items	4,645 51	
		27,207 39
Balance		\$1,008 25

Receipts paid to Treasurer

Services rendered on building permits.....	\$1,560 00
--	------------

City Solicitor

This department is notified by the City Clerk when an accident on the highways occurs where it is claimed that the city is at fault. These are investigated and surveys and plans made for court action if it is necessary.

Information is prepared for the City Solicitor or the Police Department for any court cases where the city is involved.

Plans and descriptions are also prepared for the City Solicitor on land takings and damage cases.

City Council

All orders for the City Council pertaining to streets, land takings and granolithic sidewalks, including betterment assessment orders, were prepared by the Engineering Department during the year.

Plans were prepared for public hearings on 111 streets for acceptance or widening and estimates given as to their costs for construction.

The City Engineer was required to attend every meeting of the City Council and meetings of the Council Finance Committee to answer any requests for information as to the costs of construction and feasibility of projects that were being considered.

Tax Collector

The Tax Collector receives requests from individuals as to any liens on properties for betterments at all times.

This department was requested to give him the information on streets and sidewalks, something that had previously been done by another department up to 1929. Four hundred and thirty-six of these requests were received and the information required complied with.

In preparation of the tax sale of 1928 delinquent taxes, the descriptions of over 3,000 parcels of land were prepared for the Tax Collector for advertising purposes. These descriptions could be reduced if the date of the sale was decided on in advance as a large number of these taxes are paid before they are ready for advertising.

Assessors' Plans

The plans for the Assessors, numbering about 800, show each parcel of land in the city with buildings thereon, also the lot number, plot number, area and owner. During the year 4,700 parcels changed ownership, requiring these plans to be changed.

A copy of each building permit issued in 1929 was obtained and 1,708 new buildings during the year were measured and placed on these plans. Early in the year the buildings of 1928 were measured and plotted, these not having been up to date.

When the Assessors were out on their field work in April they made a note of every building that was not on the plans, due to oversight or laxness in former years. They found about 500 buildings that were not on these plans. These were measured and located and placed on the plans during the year. The plans now are as complete as possible owing to the ever changing and new construction.

All new subdivisions of properties have been made and placed on these plans during the year.

The life of these plans is very short on account of the continual changes in ownership, causing considerable erasures and new plans are required from time to time which have been made when necessary.

The apportionment of assistants salaries for this work during the year amounted to \$3,773.29.

Park Department

The Park Department regraded several playgrounds during the year which were planned and laid out by this department, such as Ward 3 Playground, Ward 2 Playground and Squantum Playground.

All playgrounds in the city had baseball diamonds laid out on them and later in the season football playing fields were laid out

where they were used for such. Several small parks were laid out and planned for beauty spots in various sections of the city which were very successful in their accomplishment.

Suggestions by the City Engineer were appreciably received on these beauty spots.

Schools

The new Merrymount and Adams Shore Schools were completed for the fall opening. The plans for grading were made by this department and grades given during construction.

The grading of the Merrymount School was rather difficult on account of the rough topography of the original surface. This required a fill of ten feet and a cut of twelve feet in various parts and in conjunction with this grading part of the playground was sub-graded.

The Adams Shore School was on a more even lot of land but required special study in grading on account of the size of the lot, which is rather small for the building.

The addition of the Montclair School was practically complete at the end of the year, and this lot was graded after the brook had been covered in the rear by a concrete culvert.

The addition to the Atherton Hough School was also practically complete at the end of the year.

Drains were placed on the grounds of the John Hancock School.

Lines and Grades

On request of property owners, lines and grades were given on accepted streets where the property owners were contemplating improving their properties, such as grading lawns, drives, walks or constructing retaining walls at the line of the street.

There were 65 requests of this nature which was charged off in Engineering Miscellaneous, amounting to \$536.59.

These requests are only considered on streets that are accepted by the city. If this department delved in requests from owners on private ways it would utilize the time of a survey party practically all of the year.

Grades for Buildings

The City Council adjusted the ordinances of the Building Inspector compelling him to get a written statement from the City Engineer as to what the grade of any contemplated building should be before he could issue a permit for building the same.

This ordinance was passed on April 8, 1929, from which date 780 permits were investigated and statements issued as to the proper grade for construction. These statements included the grades of the street, drain and sewer or any proposed grades of same.

This was an additional labor thrust upon the City Engineer as no appropriation accompanied the order.

Each applicant was charged \$2.00 for the services rendered, which accounts for the receipts of this department of \$1,560.00, which was not available for this work.

This has been carried on very satisfactorily and the builders have always been favorable in cooperating.

The object of this ordinance is to prohibit speculative builders or others from placing houses so low, in the sections that are not drained freely, that they get water in the cellars in the rainy seasons.

It also helps the builder to locate his plumbing fixtures to insure access to the sewers or drains.

Sewers

During the year sewers were laid on 63 streets amounting to 6.06 miles.

Lines and grades were given on this 6.06 miles of sewer after surveys had been made locating the existing houses, the grades of the cellar floors and plumbing fixtures.

This work was done between March 15th and December 15th. For itemized statement see schedule under Commissioner of Public Works Report (Sewer Division).

Assessment plans were made for these sewers showing the location of properties, buildings, owners, assessment numbers, areas, frontages and profiles showing the grade of the sewer.

This work required the complete time of one survey party and office assistant. The apportionment of the assistants' salaries for this work amounts to \$4,672.64.

Surface Drains

The total length of drains placed in various streets was 4.503 miles.

Lines and grades were given by this department for the construction of these drains.

A survey was made in December on catch basins with the result that 3,010 catch basins were located.

One of the important features of surface drainage during the year was the construction of the so-called Dysart Street Drain. This drain serves a water shed from the Town Brook at Miller Stile Road to the Braintree Town Line at Franklin Street. This drain has been entirely too inadequate at its outlet, thereby flooding cellars in the Dysart Street section. This outlet was reconstructed with a culvert from Town Brook to Dysart Street, a distance of 593 feet.

The culvert was built by the Sewer Department, being reenforced concrete and 4'-6" high by 6 feet wide. This has been working very satisfactorily since its construction.

A culvert was also built on a portion of the Montclair Drain from West Squantum Street to Holbrook Road in the rear of the Montclair School.

This replaced an open brook in the rear of the school but did not improve the drainage of this brook, as the culvert on West Squantum Street was not removed and lowered to the depth of the new culvert. The new section was located properly for the future construction of this drain. This culvert was built by the Sewer Department, being reenforced concrete and 4'-0" high by 6'-8" wide.

The drainage area of the Montclair Brook was enlarged by cutting the Sachem Brook off at Harvard Street and turning it into

the Montclair Brook by an open brook across the swamp land of the Wollaston Land Company. This results in getting the head waters from Milton to tide water over the shortest distance and relieves the Sachem Brook where it is narrow in the Wollaston Station section.

Accepted Streets

There were 24 streets accepted during the year in various parts of the city, covering a distance of 3.098 miles.

These were all constructed excepting Franklin Street Extension and Ridgeway Drive. Ridgeway Drive is now sub-graded and will be completed in the early spring.

There were also 10 street widenings in various sections. See schedule attached.

New Street Construction

There were 5.356 miles of new streets constructed, consisting of 22 streets accepted in 1929, 21 streets in 1928, and one street accepted in 1927.

These were all built by the Highway Department excepting on Chestnut Street from Hancock Street to Cottage Avenue, where the Highway Department prepared the base and Warren Brothers placed their special preparation on the surface by contract.

At the end of the year practically all streets that had been accepted in previous years and not constructed were built.

In 1928 considerably more streets were accepted than in 1929, but the city was unable to construct them all on account of the large program. These were constructed during 1929 as per schedule attached.

Rebuilt Streets

The street rebuilding program was quite large this year, there being 6.74 miles of streets rebuilt in various parts of the city.

The rebuilding of streets will be one of our main features in the future, due to the fact that there are so many accepted streets now in the city. We have 124.50 miles of accepted streets at the end of this year.

Elm Street, Willard Street, Centre Street and Sea Street were rebuilt with an amiesite surface. These are main thoroughfares and this construction will last much longer. The remaining streets were built with a macadam surface.

West Squantum Street was the longest being rebuilt, from Hancock Street to the Milton Town Line.

For itemized location and lengths of rebuilt streets, see schedule attached.

Granolithic Sidewalks

There were 4.70 miles of granolithic sidewalk constructed during the year on 48 streets. This work was done by contract entirely. The contract was given to William Shea and Company of Quincy.

The orders for these walks were all prepared and betterments computed by this department.

This year the walks were laid out four feet in width and six inches from the property lines on residential streets. This proved to be very satisfactory as it relieved considerable damage from grading lawns and replacing hedges, also reducing the cost 20 per cent, of which the abutters received their proportionate benefit.

The attached schedule gives the locations and quantities of walks laid during 1929.

Amiesite and Asphalt Sidewalks

There were 2.40 miles of amiesite and asphalt sidewalks constructed in 17 streets in various sections of the city during the year.

These walks were all constructed by the Highway Department.

This type of sidewalk is increasing in demand each year, as it is more reasonable than granolithic. It has a hard rough surface and will wear a considerably long time.

It has become very useful in the undeveloped sections of our highways.

For itemized list see schedule of amiesite and asphalt sidewalks.

Bridges

The bridge at West Squantum Street was rebuilt over the N. Y., N. H. & H. R. R., and the approaches completed early in the year.

This bridge is 40 feet wide and is quite an improvement over the old structure.

Beale Street Bridge was reconstructed, replacing the old timbers and replanking the surface. This will temporarily make this bridge safer until the new concrete bridge is constructed, which we hope will be in the near future.

I wish at this time to express my appreciation for the cooperation that I have received during the year from other officials and the assistants in this department.

Yours respectfully,

WALLACE S. CARSON,
City Engineer.

The past year showed a big increase in relief to the needy of the city, more so than in previous years. This was due to unemployment and sickness.

I wish again to call attention to the fact that our present City Infirmary is now filled to its utmost capacity. No other institution being available, we are forced to send our chronic cases to the City Hospital besides boarding thirteen outside.

We have during the past year installed a second new gas range, also piped the recreation house in the rear of the infirmary with running water, sink, etc., and a few other necessary improvements.

At Thanksgiving time this department distributed over one hundred baskets. At Christmas time, with the cooperation of the school children of the city, the Family Welfare Society, aided by this department, was able to distribute over one hundred baskets of necessary articles, including meat for their Christmas dinners, also toys of all descriptions for the children.

I wish at this time to thank all those affiliated with me in the work of the Welfare Department and also all organizations for their cooperation, also His Honor the Mayor for his hearty co-operation.

Respectfully submitted,

CHANNING T. FURNALD,
Commissioner of Public Welfare.

ANNUAL REPORT OF THE PARK DEPARTMENT

To the Honorable Mayor, THOMAS J. McGRATH.

DEAR SIR:—We have the honor of submitting to you our annual report of the Park Department for the year ending December 31, 1929.

The year was the most successful in the history of this Board. The various activities under the supervision of the Board all have shown a substantial growth, and have had our constant interest. The Park Department is becoming better known and our Playgrounds and Parks are proving more useful to all classes of our citizens.

The permits issued by this department show a noticeable increase in the number of people taking advantage of our recreation grounds.

This Board has received numerous delegations from all sections of the city requesting various improvements in our playgrounds and to provide better facilities for recreational purposes, the people being aware of the benefits and value of these playfields.

The Board recommends some of these improvements for your consideration with the hope that appropriation will be made permitting such undertakings.

Daily Program for Playgrounds

NINE O'CLOCK

Flag raising. Arrange swings and see-saws.

NINE-FIFTEEN TO TWELVE O'CLOCK

Playground games for smaller children.

NINE-THIRTY

Baseball for large boys (league). Indoor baseball for small boys. Folk dancing and playground games for girls.

ONE O'CLOCK

Modeling in sand, bean bag, ring toss for small children. Quoits, croquet for larger boys. Croquet, weaving for girls.

ONE-THIRTY

Baseball, indoor baseball, volley ball, slug ball (league for girls), weaving for girls. Calisthenics daily when a large number of children are on the playground, tennis.

THREE-THIRTY

Playground games for boys and girls. Safety Campaign instructions.

Pledge of Allegiance

Take down flag at sunset.

Tennis Courts

The two tennis courts at Merrymount Park and the one at the Adams Playground at South Quincy were in constant use throughout the season.

There is a great demand for tennis courts all over the city. We recommend that the Ward Councillors study their wards for possible sites for tennis courts. The Park Department are deeply indebted to Henry M. Faxon for the gift to the city of five courts and the upkeep of the same for one year. The attendance of players on the courts the past season more than proved his foresight.

Hollis Avenue Playground

The land taken for a playground has had the underbrush removed and is rapidly being filled by the Public Works Department with ashes. A pipe drain should be put through as soon as possible and the proper grade made to put the field in shape.

Montclair Playground

Work on this playground is at a standstill as fill and grading is completed to the creek. This should be piped and filling completed to make this field of real service to the community.

Aquatics

During the summer thousands of people enjoyed bathing and boating on our seashores. The Park Department placed four rafts and a chute at Avalon Beach, two rafts at Quincy Point bathhouse, one at River street, one at Germantown, two at Black's Creek.

As the Metropolitan Park Commission have discontinued the practice of furnishing rafts at swimming places it is the intention of the Board to keep the rafts now the property of the city in repair, but recommend that no more rafts be purchased as a safety measure.

Band Concerts

During the summer band concerts were furnished in four sections of the city and permits issued for thirty-six concerts on the various playgrounds. A portable bandstand would be a good investment and facilitate the work of the department.

Horticulture

Flower beds and shrubs were laid out on all plots owned by the city under the supervision of the Superintendent of Parks. Trees were trimmed in all parks and a successful fight waged against the Gypsy Moth and Japanese Beetle.

N. E. A. A. U. Meet

On Sunday, September 8, at Pfaffman's Oval, the New England championships were conducted under the auspices of the City of Quincy. Seventeen events were run off and appropriate medals awarded for first, second and third places. The meet was a success and witnessed by 10,000 people. The Board were greatly helped by Mr. Frank Bruce in conducting the event.

Saint Moritz

The reservation in the Blue Hills has become the mecca for winter sports in Quincy with the developments sponsored by the State. The Board have promised their cooperation to further the project.

Skating Areas

Skating areas were provided on all natural ponds at Manet Lake, Sailors' Home, Blue Hills Reservoir and Hales Pond. As Quincy playgrounds seem unfitted for flooding this was not attempted this year.

Athletic Equipment

The playground equipment is stored at the City Stables. This year the athletic equipment was put in storage after an inventory had been taken. It will be checked again at the opening of the season. Considerable saving should be realized by the Board on this procedure.

John Wendell Moses Playground (Squantum)

Bleachers moved from third base to first base side. Tennis courts adjoining playground purchased by city. Clubhouse can be used for locker rooms, which will remedy a long-felt want at this field.

Ward 6 Playgrounds (Atlantic)

This playground was in constant use from spring to winter, but the many complaints received by the Mayor and the Park Board from property owners abutting the grounds for damage by baseballs make it urgent to have the Hollis Avenue Playground completed as soon as possible. These grounds can be beautified, when abandoned as a ball field, and a bandstand erected in the center with flower beds and shrubs which will improve the appearance of this section.

Ward 3 Playground

The Board, after many years of complaints from abutters to this playground, this year, through the Council and Engineers' Departments, had the field relaid out for baseball, moving the diamond and bleachers to center field, which proved to be a popular move, and was highly commended by the citizens in the district.

Merrymount Park (Upper Field)

Baseball was the popular sport at this field, and it was in constant use by amateur, semi-professional and the Quincy Twilight League team. A pitcher's mound was built here under the direction of an expert. This infield should be ploughed and graded then treated with calcium chloride to lay dust. This same treatment would bring relief on the driveways into the field and around the bandstand.

Pfaffman's Oval

The oval was in use in the summer months for drills, pageants and track meets. Football was encouraged by the Board by awarding a cup for the championship of Quincy. The playoff game was played at the oval on Thanksgiving Day between the Atlantic A. C.

and the West Quincy Pirates, with the latter winning the cup in a close game.

Ward 2 Playground

The demand for this field the past season has been greater than for several years. The field should be ploughed, rolled and graded to make it fit for baseball. A fence is necessary for safety in the outfield.

West Quincy Ward 4 Playground

The field was used mostly for baseball. Some work was done on the infield, the backstop being raised to prevent baseballs doing damage to property in the rear.

Band concerts were held here for the first time. The outfield, where loads of gravel and rubbish were dumped, should be leveled off and graded to conform with the rest of the field.

Houghs Neck

This is one of the best grass fields in the city and was in constant use in the evening by the citizens in the district. Band concerts were held here for the first time in many years. A fence is necessary to protect property owners from trespassers. The entrance to the field should be marked by a suitable gateway.

Boy Scouts

The Park Department takes this opportunity to publicly thank the Boy Scouts of America for the patriotic service of raising the flags on holidays.

Permits

During the year the following number of permits were issued for the various activities, viz.:

Hockey		Picnics	24
Baseball	521	Boy Scout outings	8
Soccer	24	Girl Scout outings	3
Football	40	Exhibition drills	7
Band concerts	40		

Recommendations

Purchase power lawn mower.
 Construct more tennis courts.
 Provide playground apparatus at Faxon Field.
 Provide comfort stations at playgrounds where necessary.
 Field house and locker rooms at Merrymount Park.
 Complete Hollis avenue and Montclair playgrounds.
 Chain link fences at Ward 2 and Montclair playgrounds.
 Purchase portable bandstand.
 Fill oval.
 Provide bowling greens.
 Encourage all-year-round activities on all playgrounds.
 Provide facilities for mass recreation for women and young women along lines laid out by the Playground and Recreation Association of America.

Conclusion

The Park Board are deeply grateful to the Engineering Department, Superintendent of Parks, Supervisor of Playgrounds and the Playground and Recreation Association of America for services rendered during the past year.

Expenditures

The expenditures of this department may be found in the Auditor's Report.

Respectfully submitted,

LORETTO D. TOCCI, *Chairman*
WILLIAM M. TRUSSELLE, *Secretary*
THOMAS J. LARKIN

REPORT OF SUPERVISOR OF PLAYGROUNDS TO THE BOARD OF PARK COMMISSIONERS

GENTLEMEN:—Quincy's twelve playgrounds opened Monday, June 24, and continued through the summer for nine weeks to Saturday, August 24. There were few interruptions, only two half days were lost by inclement weather.

Practically every day of the first week as many as twenty-two hundred children, between the ages of five to sixteen, took advantage of the opportunities offered by the city. This attendance was not maintained throughout the season, due to tides, excessive heat, parents taking their children away for vacations, etc. But the attendance was larger than during the three previous summers. The following list is the average low and high attendance for each day at the various playgrounds:

Low	High	Low	High
75.....Government	150	50.....Ward 6	125
75.....Elm	150	20.....Squantum	80
50.....Adams	100	15.....Montclair	70
100.....Ward 3	300	20.....Mass. Fields	100
75.....Ward 4	150	20.....Parker	120
30.....Wollaston	100	25.....H. N.	125

On some days the numbers would be much greater than this list would indicate. Considering the weather, the actual amount of money expended and the absence of serious accidents, etc., this is probably the most successful season we have enjoyed. The program was carried along generally on the lines of previous seasons, but there were several new innovations, the results of which were very gratifying.

Avalon Beach was always crowded during the tides. A water carnival was held there at the close of the season and was a huge success. The Park Board furnished an experienced swimming instructor who was always present during the regular swimming periods. At Houghs Neck, Ward 2, Ward 6, Wollaston, and Ward 4 instructions were given for life saving. A monogram of our own design, similar to that of the Red Cross, was presented to each can-

didate who passed the required number of subjects. Fifty-seven children passed these tests.

This work was supervised by skilled swimmers. We collaborated with the Massachusetts Safety Council, and a campaign was carried on throughout the season for safety. The supervisor met with Park Board every Monday night, and this board called several meetings of all the instructors. Other meetings were held with representatives of the National Playground Association of America.

A new type of hand craft was introduced and nearly five hundred fine examples of weaving were furnished and carried home by the children. One hundred fifty pounds of reed were furnished to make baskets, trays and other articles.

The usual leagues for boys and girls were scheduled. One hundred twenty baseball games were played by boys fourteen years and under; thirty-six baseball games from fourteen to sixteen years, and ninety games of slug ball were played by girls. Some of the other games played were volley ball, indoor baseball, quoits, horse shoes, tennis, ring tags, bean-bag, and many different playground massed games. Hikes and picnics were featured on several playgrounds. Professor Hussey took charge of the folk dancing and had a regular schedule for the different playgrounds. Over one thousand girls participated.

On August 22 we held our annual Field Day of massed dancing and sports. Transportation was furnished and the children enjoyed it immensely. This event was open to the public and many parents attended. There were one thousand children present. Every effort was advanced to make the playgrounds as inviting as possible. Parents should feel satisfied that their children were under the best possible attention while using them. Following is a list of the instructors:

Messrs. S. White	Misses E. McConnarty
" M. Lubarsky	" E. Bruton
" J. Reardon	" R. Savage
" W. Roche	" M. Mularky
" W. O'Byrne	" E. Likander
" J. Carey	" E. Hourula
" I. Burke	" E. Drohan
" K. McCoy	" D. Shea
" L. Eko	" A. Wegelius
" L. Hendry	" T. Nattie

REPORT OF THE TRUSTEES

To His Honor, the Mayor of the City of Quincy:

The fifty-ninth annual report of the Trustees of the Thomas Crane Public Library is submitted herewith.

The use of the facilities offered by the library to our citizens continued with a steady increase during the year 1929. The total circulation reached 610,288, this being a gain of 37,744 over the preceding year. The per capita circulation increased to 8.7. From all available data and information, this is the highest percentage in the history of the library.

The maintenance expenditure per capita, including all funds, was \$.885. The maintenance expenditure per volume circulation was \$.101. These figures are much below the average public libraries throughout the country.

During last year two new branches were added to the library system. On February 12 the Lakin Square Branch was opened and on December 4 the Merrymount Branch was instituted. The former occupies rented quarters on Adams street, near the Milton line, and the latter is located in the Merrymount School building, the use of which was granted by the mayor and school committee. Both branches were the result of petitions by residents of those two localities and both have made excellent showings since they began to function. The library system now consists of the main library, twelve branches and the hospital service, making a total of fourteen agencies providing library service to our citizens. The trustees feel that with this expansion the needs of the various sections of the city have been adequately taken care of. In the early part of the year the Temple Branch at Quincy Point was changed to a more central location, as a result of which a marked gain in its use was reported.

In March the library received the legacy of \$1,000 bequeathed to it under the will of Mrs. Mary A. Butler. This legacy was given to establish the Ellery Channing Butler Fund, the income thereof to be used for the general purposes of the library. Through the interest of Mr. John Pratt Whitman, one of the members of our board, the Business Men's Art Club of Boston loaned to the library for several months about fifty excellent paintings which were displayed in the different branches. These paintings attracted considerable attention and brought much favorable comment.

The board takes this opportunity again to emphasize strongly the need of a adequate appropriation to take care of the fast-growing needs of the library with its large number of branches. More books are needed and more assistants are necessary if the required service is to be rendered and the standard of the library hitherto is to be maintained.

The librarian and the staff have all rendered most efficient and valuable service, a fact which is being constantly attested to by those using the library facilities.

Respectfully submitted,

GEORGE E. ADAMS, *Chairman,*

GEORGIANA CUSHING LANE, *Secretary.*

Auditing Committee.

LIBRARIAN'S REPORT

To the Trustees of the Thomas Crane Public Library:

The report of the librarian for the year ending December 31, 1929, is herewith submitted:

Statistical evidence of an increased use of the facilities of the library will be found in the circulation records appended to this report and is commented upon elsewhere. The establishment of two new branches in the Lakin square and Merrymount districts have made the past year notable in the way of extension of library facilities. As a direct result of a generous increase in the book appropriation made by the city, the library's book stock was increased by 5,535 volumes, despite the fact that the withdrawals due to wear and tear were larger than usual. Progress was also made toward better library service by increasing the hours of opening at three branches and in strengthening the reference service at the main library, characterized in last year's report as one of the weakest spots. In other less conspicuous ways the library has endeavored to perfect the service rendered so that altogether we hope the library's record for the year 1929 may be justly regarded as showing a definite and satisfactory advance.

Circulation

A consideration and an analysis of the figures for the home use of books discloses some interesting facts. The total circulation of 610,288 books and magazines is not only an increase over last year but represents a gain of over 98,000, nearly 100,000 books, in two years. The circulation per capita, 8.7, based on the latest estimate of Quincy's population, is higher than in previous years and much above the average for public libraries, as is also the circulation per registered borrower, 31.1. Analyzed, the circulation shows that, roughly, 25 per cent of the books were issued at the main library, 62 per cent from the branches, and 13 per cent from the classroom libraries sent to the elementary and junior high schools. Justification for branch expansion may be found in the large percentage for branch circulation. Of the total books issued for the whole system, 74 per cent was fiction, 26 per cent non-fiction; 54 per cent represented adult books, 46 per cent children's books. Both the fiction percentage and the juvenile percentage are greater than the average for public libraries in cities the size of Quincy or larger, but they are characteristic of cities which, like Quincy, are chiefly residential in type.

Branches

It is gratifying to report the excellent showing made by the new Lakin Square Branch in the ten and one-half months since it was opened, also that indications point to an equally good response from the people of Merrymount to their new branch the coming year. The establishment of these two branches brings the total number of branch libraries in the Quincy system to twelve. There are few, if any, residents of Quincy living over a mile from library service at the present time, so it seems hardly probable that requests for additional branches will be made for several years. This should permit the library to concentrate on the improvement of the service given by the existing branches, by which I mean increase in

hours of opening, larger book collections, more adequate catalogues, more reference material and a greater opportunity for personal service to readers. In other words, our branches should gradually be developed to give a service approximating that given by the main library. Moderate increases in appropriations for books and staff assistance each year are the means for the accomplishment of this desired end.

The hours of opening at the Norfolk Downs Branch and the Temple Branch at Quincy Point were increased during the past year so that now five branches are open every week-day afternoon. A marked increase in circulation at each branch followed this move and we have received many favorable comments from residents of both districts.

Hospital Service

With the whole-hearted approval of the administrative authorities of the Quincy City Hospital our hospital library service was last fall extended to a schedule of three afternoons each week instead of two, as formerly. A minor result has been that the more frequent visits enable the hospital librarian to keep a better check on the books loaned, but the greatest gain has been found in the expressed gratitude of patients who find days of convalescence relieved of much of their tedium through this book service. Mrs. Connolly, our hospital librarian, has not only been the recipient of much praise from patients and nurses but was paid the compliment of being asked to speak on her work at the meeting of hospital librarians at Provincetown in June. Through the courtesy of Station WNAC and Miss Jean Sargent, Program Director, Mrs. Connolly gave a radio talk on her experiences as hospital librarian, which was well received.

Children's Department

In spite of a slight numerical loss in number of books loaned at the main library, the work of the Children's Department has been heavy. For five years Miss Kingman has been doing double duty as children's librarian and school librarian. Most libraries the size of the Thomas Crane Public Library divide this work between two or more persons. The increase in school buildings has meant more requests for classroom libraries and a decided increase in their use is also reported. While Miss Kingman has had part-time assistance in her work, the time has come for the employment of a full-time assistant in this department and the requested budget for 1930 carries provision therefor.

Reference

The employment of two additional assistants at the main library in September made possible the establishment of a schedule whereby a reference assistant is regularly stationed in the reading room to answer questions and aid readers from 1 P. M. to 9 P. M. every day. This move has been not only a great relief to the desk attendants but has speeded up the reference service and made it more satisfactory to seekers for information.

Overdue Books

The problem of overdue books increases in the same proportion as the increase of circulation. Would that public libraries could

dispense with the necessity for fines, but that millenium is not yet in sight. The Thomas Crane Public Library turned over to the city treasurer during the year a sum slightly in excess of \$3,000, representing fines collected. For books overdue three notices are sent to borrowers at intervals of one week, two weeks and one month. If, as a result of these three notices the books are not returned, cards bearing names of borrowers, titles of books overdue and account of fines are placed in the hands of the Quincy Police Department. Through their agency the majority of the books are returned to the library and it is a pleasure to acknowledge the splendid cooperation of Chief Bishop and his officers in this work.

Trading Post

For the third successive year this library held an exhibit illustrative of its service at the annual "Trading Post" of the Quincy Chamber of Commerce. The fact that the exhibition was held in Wollaston influenced our decision to enter this year, it being felt that many people in this section might be unaware of the work of our library. It is always hard to measure the advertising value of such an exhibit, but our feeling is that these exhibits have furnished good publicity for the library. A four-page folder giving some rather striking facts about the library, together with a directory giving location and hours of main library and branches, was distributed.

Staff

It is with regret that we report the resignation on account of ill health in June of Miss Ingrid Blom, who in two years as assistant at the loan desk of the main library and in the children's room had made many friends. The following became members of our staff this year: Miss Violet Johnson, Miss Carol A. Wilmore, Miss Margaret Hebert, Miss Laura Duncanson and Mrs. Jessie D. Wilford. The first three, recent graduates from the Quincy High School, had all served previously as part time workers and summer substitutes. Mrs. Wilford brought with her a background of familiarity with books and an experience as teacher and writer. We have capitalized these assets by assigning her much of the reference work and by giving her the responsibility for the weekly column of book notes which regularly appears in the local newspaper and the editing of the Quarterly Bulletin. Two members of the staff were obliged to take the full amount of sick leave on account of appendicitis operations during the year, which with other cases of illness has made our problem of providing substitutes harder than usual. I cannot speak too highly of the loyalty and efficient work of the whole staff during the year. Miss Callahan, Miss Kingman and the librarian attended the annual meeting of the American Library Association in Washington, May 13-18, and other members of the staff had the opportunity of enjoying the meeting of the Massachusetts Library Club held at Provincetown in June. At this meeting your librarian completed his year as president of that organization.

Problems

Although some gain was made last year our greatest problem, the need for more books and more assistants, is still pressing and has been rendered even more acute by the addition of two new

branches. In spite of many devices and short cuts, the service is still in many respects inadequate and often unsatisfactory to users of the library. This problem was so fully considered in last year's report that it seems out of place to enlarge upon it here. It can be simply stated, however, that the number of branches and the size of our circulation justify a twenty-five per cent larger stock of books and a staff of at least twenty-five assistants. We had the equivalent of eighteen full time assistants in 1929. A moderate increase each year for both items, books and assistants, for the next five years will materially aid in the solution of this problem. Mention was also made last year of the fact that the main library is fast outgrowing the present building. Temporary relief of the overcrowded condition of the book stacks may be obtained by the judicious weeding out of some material past its usefulness and rearrangements and makeshift expedients may mitigate somewhat our lack of adequate space for administrative routine. But sooner or later some solution of the problem of room for growth must be earnestly considered.

Gifts

The number of books received by gift, 334 in 1929, was larger than usual. It is impossible here to name all the individuals who thus showed their interest in the Thomas Crane Public Library, but mention may be made of a large and valuable collection of recent books donated by the Wollaston Women's Club. The Education Committee of the Quincy Women's Club presented the library with an institutional membership in the National Education Association, through which we regularly receive the valuable monthly Journal and annual Proceedings of that association. Grateful acknowledgment is made to all who have aided the library by gifts.

In conclusion, I may once more express my appreciation of the interest so often manifested and the cordial support which have been accorded the library administration by your Board during the past year.

Respectfully submitted,

GALEN W. HILL,
Librarian.

January 27, 1930.

Statistical Summary

Population served, 70,000 (estimated).

Free for lending and reference.

REPORT OF CITY CLERK

I have the honor to submit the forty-first annual report of this department, being for the year ending December 31, 1929.

RECEIPTS

Junk licenses	\$280 00
Amusement licenses	2,320 00
Common victuallers' licenses	610 00
Express and carriage licenses	36 00
Pool and billiard licenses	655 00
Auctioneers' licenses	32 00
Druggist licenses	15 00
All other licenses	3,068 00
Marriage permits	723 00
Recording and special	1,425 45
	<hr/>
	\$9,164 45

The above sum has been paid to the City Treasurer.

Number of marriage intentions issued in 1929.....	728
Number of marriages recorded in 1929.....	760
Number of births recorded in 1929.....	1,474
Number of deaths recorded in 1929.....	789

The number of dogs licensed in 1929 was 2,052 males; 392 females; 411 spayed, and one breeder's license, for which the sum of \$6,936 was collected. The sum of \$6,364.80 was paid to the County Treasurer, and \$571.20 to the City Treasurer. The sum of \$3,062.25 was collected for hunting licenses. The fees amounting to \$325.05 were paid to the City Treasurer and the balance to the Commonwealth.

Annexed are the births, marriages and deaths recorded in Quincy in 1929 and the election returns.

EMERY L. CRANE,
City Clerk.

Saturday, 8 to 9.30 A. M. and 11.30 A. M. to 12 M.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Quincy:

The School Committee submits, herewith, its annual report for the year 1929.

Your Committee is very glad to be able to report that the shortage of school accommodations, with which Quincy has been faced for several years, is now very largely relieved. The completion of two 10-room grade buildings—one in the Merrymount section and the other in the Adams Shore section—has taken care of the needs of the school children in those localities not only for the present but, we hope, for several years to come.

The additions now being made to the Montclair School and the Atherton Hough School, which we are glad to state are nearly completed, will relieve the congestion in the parts of our city served by those two schools and when these are completed and some re-arrangement of pupils is put in force, there will be very few pupils in portable buildings.

Your Committee has recently requested the City Council to build an addition to the North Junior High School to relieve the overcrowded condition of that school and also to care for some of the students of Senior High School grade in the northerly section of the city, thus relieving the crowded condition in our present Senior High School.

We have also asked the City Council to appropriate money for an addition to the Gridley Bryant School, which is at present overcrowded. When that addition, which we expect the Council will grant, is completed, we hope that every one of the pupils will be housed in permanent buildings.

Looking forward to the future needs of other sections of the city, we feel that land should be taken for school purposes in the Germantown section; also on or near Furnace Brook Parkway between Adams street and Newport avenue, as these sections will undoubtedly be calling for school buildings before many years and suitable lots are now available at reasonable prices. The City Council has been requested to purchase these lots. We have also requested our Mayor to hold the so-called playground on Birch street in the North Quincy section for future school use.

Quite an extensive repair program was carried on during the last summer vacation. We feel that the buildings, as a whole, are in excellent condition.

The Committee is now considering future extension of the school system. One of the first steps should be an addition to the Trade School, which is at present housed in the rear of the Senior High School building.

During the present year we have placed considerable stress on physical education and endeavored to intensify the physical education program by co-ordinating it with mass athletics for the entire Junior and Senior High schools.

On August 30 the Committee employed a graduate student of Harvard University, Mr. Ernest A. Zelliot, as co-ordinate worker in the Commercial Department a half year. As his work is nearing completion, the Committee feels justified in the selection of Mr. Zelliot. A great deal of specific and definite information has been

given to the Superintendent for the future benefit of the school. His work began in September and will be completed January 31, at which time a complete report will be given to the School Committee.

The Committee is gratified that there have been comparatively few changes in the personnel of the teaching staff during the year, and we are glad to be able to say that we have a very good percentage of Quincy people now in our teaching force.

The Committee regrets to record the death of one of our teachers, Miss Ethel McKeown, who passed away January 21, 1929, after service of about one year.

We note with much appreciation that, through the generosity of one of our citizens, Mr. Henry M. Faxon, tennis courts have been added to the Faxon Field, directly opposite the High School. This has been a very great advantage and benefit to the students of the schools, as well as to many of our citizens. The football grounds on Faxon Field have also been enlarged and are being used to a great extent by our soccer and football teams.

The foregoing report was prepared by a special committee of Col. Warren E. Sweetser and Sturgis H. Hunt and was adopted as the annual report of the Committee for the year 1929.

IN MEMORIAM

ETHEL McKEOWN

Died January 21, 1929

Teacher in the
South Junior High School

1927-1929

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Quincy:

In accordance with the established custom, I submit herewith the annual report of the Quincy Public Schools for the year 1929.

There is a wealth of information in the different reports and the statistical tabulations submitted. A careful review of these reports and an examination of their contents, together with the statistical tabulations here submitted, should serve to increase our interest in the school system.

In order to relieve the Principals in the Junior and Senior High Schools from many of the details of routine office work and permit them to be of larger service to the school system, five clerks were elected by the School Committee—one assigned to each of the Junior High Schools and one to the Senior High School.

There was a change in the hours of the Superintendent's office. It is now open from 8.00 A. M. to 5.00 P. M. continuously. The change has supplied a long-felt need because there are five schools, with an enrolment of five thousand children, open during the noon hour—four Junior High Schools and one Senior High School. With the change of hours, the teachers and principals are able to get in touch with the central office during the noon hour whenever it is necessary. Heretofore it has been impossible. The new plan has been very satisfactory.

On April 30, 1929, the Superintendent brought to the attention of the School Committee and of all the schools in the district the new ruling by the State Department to increase in years the length of the courses in the various Massachusetts Normal Schools. It reads as follows:

“Beginning in September, 1929, admission to the two-year course in the State Normal Schools at Bridgewater, Salem and Worcester will be discontinued. Hereafter the minimum course in the above schools will be three years in length, except for students who have already begun the shorter courses. The two-year course will be continued for the present in the State Normal Schools at Fitchburg, Framingham, Hyannis and North Adams.”

New School Buildings

Two modern elementary schools were dedicated during the year—the Merrymount School, on Wednesday evening, October 9, and the Adams Shore School, on Wednesday evening, October 16. These schools are identical in structure—ten classrooms, a beautiful library room, a well-equipped teachers' room, principal's office, storage rooms and spacious rooms on the ground floor. The two large rooms on the second floor have a folding partition that the rooms may be thrown together and used for assembly purposes. This assembly room may be used for various activities in the school itself and for social center purposes outside of the school life, such as Improvement Associations and Parent-Teacher Associations. These buildings are so built that they may, at any future time, be converted into a junior high school.

An unusual interest was shown at the dedication of both these buildings. There were present that evening His Honor, Mayor Thomas J. McGrath, and his staff, the City Council, the School Committee, the Principal of the school, and the parents and teachers. A social hour, prepared and given by the parents of the respective school districts, was enjoyed after the dedicatory program. It showed a splendid community spirit, all interested in the same objectives—the best interest of the child.

The opening of these two schools has made it possible to transfer a great many pupils who were housed in the Coddington School building and those who were housed in the three portable school rooms at Adams Shore. The enrolment of these two schools at the present time is: Merrymount, 194, and Adams Shore, 258. Approximately 300 pupils were transferred from the Coddington School to the Merrymount and Adams Shore Schools. This transfer permitted a change in the High School classroom program procedure. The High School, at the present time, is using the entire auditorium of the Coddington School and four of the regular classrooms.

During the past three years the School Committee has steadily gone forward with a splendid building program. While much has been done, much remains to be done. During the last three years the city has spent, in buildings and equipment, \$2,294,714.39. During this period the North Junior High School, the South Junior High School, the Quincy Point Junior High School, the Merrymount Elementary School and the Adams Shore Elementary School have been dedicated. We anticipate that the new unit at the Atherton Hough School and the Montclair School will be dedicated during the month of February.

The School Committee has recommended an addition of four rooms to the Gridley Bryant School and the remodeling of two rooms on the first floor for an assembly room, and also the completion of the east wing of the North Junior High School as was originally intended by the former School Committee. If it is possible to complete the addition recommended to the Gridley Bryant Elementary School and the addition to the North Junior High school during the year 1930, Quincy shall find itself in an enviable position relative to school accommodations.

Quincy has made tremendous strides in her building program. When the additions are completed and proper adjustments as to transfer of pupils are made, it is hoped that the half-day sessions and portable schools will be eliminated.

The Health Program Pursued During the Year

PHYSICAL EDUCATION: The program of physical education, provided in all the schools, was re-emphasized and intensified. In the continuance of this program we urge that re-emphasis be given to the teaching of the evil habit of narcotics; that a worth-while health program be carried on throughout the entire school system, emphasizing in particular personal hygiene.

Much progress has been noted in the Physical Education Program throughout the entire city. The purpose and the policy that the School Committee set up some three years ago has been carried on. That is, what the Quincy School Department is trying to do through its physical training teachers is to provide some measure of physical education for all the pupils in all the schools. In the after-school activities "Everybody at Play" is our slogan. This

tends to find and promote exceptional players so that they eventually compose teams representative of their schools, while it gives exercise to all pupils.

This has been an unusually successful year in this particular field. We are glad, of course, to have Quincy school teams win games; that is, their due proportion of them. Above any wish for success in such contests is the desire that every boy and every girl in school shall enjoy such a measure of physical training as will balance their mental developments and keep up to the standard of a sound mind and a healthy body.

DENTAL CLINIC WORK: A complete change in the method of procedure of the Dental Clinic work was undertaken during the year. Up to the present year the work of the Dental Clinic has been largely reparative dentistry. A special committee of the School Committee comprised of Dr. Daniel B. Reardon, Dr. Nathaniel S. Hunting, together with the Superintendent of Schools, on the recommendation of Dr. Paul H. Karcher, recommended that the reparative dentistry work be changed to a program based upon preventive dentistry. This program was adopted by the School Committee and is now being carried out in the different schools.

The dental nurse, as formerly, is doing prophylactic work in the first six grades. By this preventive program Dr. Karcher is attempting to prevent the loss of permanent teeth by carefully examining the children of the first two grades. Dr. Karcher visits the different school buildings. He gives an oral examination to the children and, through the children, sends to the parents the information that they should have regarding the children's teeth. He makes appointments to take care of them in the Dental Clinic office.

The doctor feels that in so doing he is preventing a great deal of future trouble, such as crooked teeth and premature loss of permanent teeth, which present most of the dental ills that develop later in life.

In short, Dr. Karcher has applied his efforts in certain sections of the city where there is the greatest need for this type of work and preventive dentistry is now displacing the former reparative dentistry.

ROUTINE HEALTH INSPECTION: This work has been carried on as formerly by the four nurses and Dr. Drew, the School Physician. The Follow-up Work on the School Clinic work which was conducted two years ago is being carried on very effectively. The four school nurses and the School Physician should be encouraged for the effective manner in which the Follow-up Work groups have been organized and handled. More than two hundred pupils have been re-tested, re-X-rayed and re-examined by Dr. Zack of the State Health Department, assisted by the nurses and Dr. Drew, the School Physician. I refer you to Dr. Drew's and Dr. Zack's report for more detailed information on the School Clinic Follow-up Work. It is worthy of our attention.

Junior High School Calendar

A calendar was made a project for the 9th grade pupils in all of the Junior High Schools. The work was begun in October.

The pupils gathered material such as postcards and pictures of historic interest. Each pupil of the 9th grade chose the picture that appealed to him or her and made his own individual drawing.

Several hundred of these drawings were collected and submitted to the Superintendent of Schools and in conjunction with Miss Amy E. Adams, Supervisor of Drawing, 13 of these drawings were chosen to make up the calendar. These were again submitted to the art teachers of the Junior High Schools. Drawings were chosen so that each of the Junior High Schools had equal representation. The extra picture went to the Central Junior High School.

The art teachers and the Supervisor of Art passed upon all the drawings.

When the 13 drawings were selected, linoleum prints were made of them.

One thousand calendars were made. This necessitated 13,000 prints. These 13,000 prints were distributed to the Junior High Schools, where all the pupils participated in coloring the prints.

The practical application of the plan was under the direction of Miss Amy Adams, Supervisor of Drawing. The teachers and pupils are deservedly entitled to encouragement. It was a splendid project well done.

The School Committee, at its meeting on December 10, 1929, took particular cognizance of this fact and expressed their appreciation by sending a letter to those who had charge as well as to those who had anything to do with making the calendar a success.

Several letters of appreciation have been received at the Superintendent's office in commendation of this calendar.

This is the sort of thing which helps teachers and pupils to carry on to greater effort.

Pictures Framed by the Trade School

The School Committee, the City Council, and the citizens in general have done much to give the children the best in school buildings. The building program has gone forward with great rapidity. Pupils and teachers and workers throughout the schools appreciate the great efforts that are being made to keep Quincy in the foreground educationally.

The pupils, stimulated by the teachers, are doing a commendable piece of work in purchasing beautiful pictures. These pictures decorate the libraries and classrooms of the buildings and enrich the lives of the pupils. The following pictures have been purchased by the pupils in their respective schools and framed by the pupils in the woodworking department of the Trade School:

Central Junior High

Moving Pictures in the Schools

During the year Mr. Abraham Krasker was asked to assume the duties of a co-ordinate worker in the field of visual education. His work has been largely experimental and research up to the present time. Two lanterns and twelve films were purchased for instructional purposes. We have now gone through the experimental stage and are in a position to give instruction to Quincy teachers. A first-rate Film Library has been worked out for Quincy and is now at the disposal of teachers and principals in the city schools.

Commercial Department

In the summer of 1929 an opportunity came to the School Committee to secure the services of a graduate student of Harvard University, Mr. Ernest A. Zelliott, head of the Commercial Department of the Roosevelt High School, Des Moines, Iowa.

Mr. Zelliott has spent most of his life in the commercial educational field and is taking his Master's degree under the new plan at Harvard. He has also been retained as an instructor in the commercial field at Harvard University for the summer session of 1930.

A new course of study in the Commercial Department was put into effect in the Quincy schools in the fall of 1928. The Committee felt that it might give the school authorities an opportunity to check up on the new course and, at the same time, Mr. Zelliott could make a survey of the entire department.

Mr. Zelliott's work is now nearing completion. He has already given us a survey of the business office workers of Quincy with many very valuable suggestions and recommendations for the future betterment of commercial education in Quincy. Mr. Zelliott has done a good piece of work. The Committee and the Superintendent feel that they have been justified in bringing such a worker into the field. A complete detailed report of the survey is not fully completed at this writing. It will be made in full to the School Committee in the near future.

The Assistant Superintendent has reported for the state-aided, Academic Evening, Academic Summer Schools, and special classes. Because of the importance attached to these reports, they are given in full. Under separate headings will be found a short report of the Senior High School Principal, Supervisors and School Physician.

The Day Trade School

In the fall of 1929, by action of the School Committee, the name of the Quincy Industrial School was changed to Quincy Trade School. It was felt by all concerned that the new name would be

less confusing and would indicate more clearly the nature and purpose of the school.

State Aided Day Vocational Education in Massachusetts began at Northampton in the fall of 1908, and became of age this past fall. The State Department of Education has called attention to the remarkable growth of such education in a special report on "State Aided and Part Time Education in Massachusetts." This report, which should be read by all interested in education, makes it possible to compare the Quincy school with other similar schools in the State for the school year ending August, 1928.

There are twenty State Aided Industrial Schools in the State, the median size, based on average membership, being 108.6, with Quincy 190.6. There are six schools larger and thirteen schools smaller than the Quincy Trade School. The average per cent of attendance in 1928 was for the State 91.6 per cent, Quincy 94.3 per cent, with seven having a better per cent of attendance than Quincy and twelve having a lower per cent than Quincy. Excluding charges for new buildings or new equipment, the median per capita net maintenance cost was in the State \$110.32 and for Quincy \$101.67. In eleven communities it cost more to educate each boy and in eight communities it cost less than in Quincy. The median productivity for each boy was in the state \$101.10. In Quincy it was \$137.70, with six communities having a higher productivity and thirteen with a lower productivity.

In other words, it is costing Quincy less to educate each boy than in the median community, while each boy is producing more than in the median, which is incidentally more than it costs the city to educate him. It is only fair to state, however, that most of what is produced is used within the school department, and if the department were obliged to pay cash for some of the things made by the boys, the schools would probably do without the product. The following will illustrate the point. At the present writing the Trade School is making one hundred forty tables for use in the primary rooms of the city. The net cost to the city for material used is less than \$300, which is charged to supplies for instruction, for the boys must have productive jobs upon which to work for practical educative purposes. The tables are easily worth ten dollars each. It is doubtful if the school department would have purchased the tables had it been necessary to pay \$1,400 for them, and yet the city has the use of products worth \$1,400 at a cost of less than \$300.

Elsewhere in the annual report it is shown that the per capita maintenance charge is very low compared with the State as a whole. Some credit for this should go to the Trade School as the boys do many of the electrical and plumbing repair jobs with no or little cost to the city.

The State supervisor of trade training has announced that vocational schools of the State graduate only about ten per cent of the boys who enroll, with the exception of Quincy, which graduates about twenty-five per cent.

All the foregoing facts seem to indicate that the Quincy Trade School is performing its functions in a very satisfactory manner, for which much credit is due to the Director, Mr. Barrows, and his corps of teachers.

The historical review of vocational education in the State report makes it interesting to recall that the Quincy Trade School had its beginnings in 1912 as a Co-operative School, with two departments in the old high school building. In 1914 the full-time

day school was established in the old Adams School building on Phipps street and in 1924 the school was moved to its present home.

The following table shows the courses offered, the boys enrolled at various dates, and the growth of the school since its birth—an increase of over 600 per cent.

	1912- '13	1914- '15	1923- '24	1924- '25	1927- '28	1928- '29
Auto Mechanics	17	41	43
Electrical	18	39	40	38	35
Machine	33	42	40	40
Plumbing	18	42	36	36
Sheet Metal	20	16	21	20
Woodworking	18	75	70	80	76
Co-operative	41	48
Part time	10
Special	1
Total	41	94	185	227	257	250

The above table shows that the enrolment has reached its peak, not because more boys would not like a trade education but because we have no room to accommodate them. In the annual report of 1928 a statement was made in regard to the possibilities and needs of increased facilities for trade teaching. These needs are even greater this year and will become more so as the school enrolment of the city increases.

For the year ending August, 1929, the expenses of the Trade School increased by \$1,352.62 to \$52,135.32, due largely to automatic salary increases. This cost was reduced by the following amounts paid to the City Treasurer because of the school:

Tuition for pupils living outside of Quincy	\$5,460.00
Cash for products made in the school	1,581.66
Aid from the State of Massachusetts	20,192.73
Aid from the Federal Government (Smith-Hughes)	3,277.68
Miscellaneous receipts	67.92

Total receipts \$30,579.99

Net cost to the City of Quincy \$21,555.33

The actual per capita cost of educating each boy increased \$3.85 to \$269.87, but the net per capita cost to the city was lowered very slightly from \$112.21 to \$111.58. The city further benefited by securing goods made by the boys or repair work done by them to the value of \$16,482.12.

The Home Making School

Last fall, for the first time in its history, all applicants could not be accommodated in this school, which made it possible to choose

girls who had the better educational background and showed the most interest in the work of the school.

For several months in the fall of 1928 the school had all the children the building could comfortably accommodate. The average membership for the school year 1928-29 was 51.06, an increase of 6.6 per cent over the membership of last year, and more than 100 per cent increase since the establishment of the school in 1916.

The total cost of running the school advanced to \$14,070.95, an increase of \$207.28. The city received the following amounts because such a school was maintained:

Tuition for pupils living outside of Quincy.....	\$205.00
Cash received for work done	1,212.70
Aid from the State of Massachusetts	5,718.89
Aid from the Federal Government (Smith-Hughes)	1,184.22
Miscellaneous receipts	21.52
	<hr/>
Total receipts	\$8,342.33
Net cost to the City of Quincy	\$5,728.62

The net per pupil cost was reduced by \$8.31 to \$112.19. The school actually cared for more pupils than the previous year with less cost to the city.

Inspired by the success of "The Tiny Tot Shop" and "The Specialty Shop," a "Millinery Shop" was opened in the fall of 1929 which gives the student practical experience. Its success was immediate. The director of the school, Miss Cowles, reports as follows: "During the first ten weeks of the Millinery Shop, fourteen outside customers were served and twenty hats were moulded especially for the customer. Besides this, seventy-two hats were made for girls in the school. The Tiny Tot Shop continues with the success it has always had. The shop cannot promise dresses in less time than a month, due to the large amount of business. In December alone twenty-two dresses were delivered. The Cake Shop has been busy, having had some especially large orders for pies for church suppers."

The school has had the most successful year since its organization twelve years ago. It has now reached the point where careful consideration must be given to its future if it is to serve the best interests of the community. We are interested in serving those girls who wish to specialize in Home Economics training for their own home or for vocational purposes. The director wisely calls attention to the fact that "Graduates from this school may hold positions as waitresses, junior caterers, caterers' assistants, tea room and cafeteria assistants, dressmakers, alteration girls, tailors' assistants, or milliners' assistants. After graduation many girls go on to complete their high school course and enter a hospital for nurse's training or a normal school to train to be a teacher of Home Economics. Others enter the Boston Trade School for Girls in order to become more efficient in the trade end of Home Economics."

The Continuation School

The following table shows the enrolment in the Continuation School for the last five years:

	1924-'25	1925-'26	1926-'27	1927-'28	1928-'29
Boys	127	67	84	95	82
Girls	50	26	56	62	65
Total	177	93	140	157	147
Hours of Service	8,988	11,860	7,996

The school was a little smaller than the previous year, with almost a third less hours of service. A reduction in hours of service indicates that fewer pupils are leaving school to go to work at fourteen years of age and are nearer sixteen years of age than previously. An outstanding change is the increase in girls who go to work as compared with a decrease in the number of boys between the ages of fourteen and sixteen. The majority of girls are working in homes, either in their own homes or as mother's helper away from home. Apparently the manufacturer is gradually ceasing to hire people under sixteen years of age.

Of the boys enrolled, only 32 were left in the school when it closed in June; 37 became sixteen years of age and were discharged; 6 moved; 3 transferred, and 4 returned to the regular public day school.

Of the 65 girls enrolled, only 21 remained in June; 37 became sixteen and 7 moved.

To educate the Continuation School pupils it cost \$3,451.28—about \$100 more than last year, due to the increase in salary given the director. The total cost was reduced as follows:

Tuition fees	\$58.56
Cash for work done	22.06
Aid from the State of Massachusetts	1,529.92
Aid from the Federal Government (Smith-Hughes)	270.08
Total receipts	\$1,880.62
Net cost to the City of Quincy	\$1,570.66

For this expenditure Quincy has the full-time services of one man who directs the activities of the school and teaches all the boys and the part-time services of five women teachers who teach related academic, cooking, sewing, millinery and commercial subjects.

Evening Industrial School for Men

Class	1924- '25	1925- '26	1926- '27	1927- '28	1928- '29
Shop Mathematics for Electricians	13
Automobile Mechanics	24	26	20	20
Electrical Wiring	33	45	31
Machine Shop Practice	25	21	19	12	26
Machine Drawing and Shop Mathematics....	27	41	27	43
Plumbing	39	52	46	35	33
Roof Framing	26	36	10	22
Sheet Metal Drafting	25	29	33	20	23
Ship Blue Print Reading	63	32	44
Totals	148	234	282	146	211

In certain trades Quincy has reached the point where not enough men enter the trade to warrant maintaining a class every year. A class is formed and maintained for twenty weeks in any trade desired by fifteen or more men engaged during the day in the trade to be taught. If enrolment drops too low and shows no signs of increasing, the class is closed before the end of the twenty weeks. The classes in Automobile Mechanics, Machine Drawing, Roof Framing and Sheet Metal Drafting were closed before twenty weeks' work had been completed. Whenever an evening trade class is not formed or is closed before the usual time, the School Department allows any men so desiring to attend similar schools in Boston and pays their tuition, which is cheaper than maintaining small classes in Quincy.

The total cost of the Evening Industrial School for Men was \$1,935.53, which was reduced as follows:

Tuition fees for men living outside of Quincy	\$195.60
Registration fees	164.00
Aid from the State of Massachusetts	737.39
Aid from the Federal Government (Smith-Hughes)	101.16
Total receipts	\$1,198.15
Net cost to the City of Quincy	\$737.38
Increase in net cost to Quincy over 1927-28	\$197.83

This increase results from maintaining more classes a longer period of time than the previous year.

Evening Home Making School for Women

These classes were formerly known as Evening Practical Arts Classes, but since a few classes are held in the morning and many in the afternoon, the word "evening" no longer applies to this important field of work.

This type of instruction was started twenty years ago with a class in cooking for which 22 women enrolled. The following year a class in dressmaking was added with a total registration in the two classes of 53. In 1928-29 there were 951 women in 48 classes. The table below affords a comparison with the present and the past:

	1908- '09	1909- '10	1918- '19	1923- '24	1924- '25	1925- '26	1926- '27	1927- '28	1928- '29
Millinery	17	220	277	122	112	48
Foods	23	20	34	42	85	105	120	153
Dressmak- ing	33	17	591	619	730	726	751	719
Home Nursing	19	12	17	16	17	37
Home Dec- oration	42
Totals	23	53	53	857	955	937	959	936	951

For the last five years the enrolment has remained about the same, but the distribution has varied. Cooking now takes the place of millinery and the women are beginning to be interested in Home Decoration.

An analysis of the ages of the women enrolled showed that over two-thirds of them were over twenty-five and that 407, or nearly half of the total enrolment, were over thirty-five. Classes that will hold women of this age year after year are of inestimable value.

The total cost of maintaining these classes was \$9,125.16, an increase of \$476.39. The total cost was reduced in the following manner:

Tuition fees for non-resident pupils	\$440.00
Aid from the State of Massachusetts	3,679.49
Aid from the Federal Government (Smith-Hughes)	793.43
Registration fees	461.00
Total Receipts	\$5,373.92
Net cost to the City of Quincy	\$3,751.24

In these classes the women used material to the value of \$11,-100.92, of which the city furnished but \$69.48. Under the direction of skilled teachers this material was converted into finished products worth \$28,188.56.

The increased value of the finished products over the raw material more than justifies the expenditure made by the city, but the value of the work does not stop there. "Many of the women learn to sew, fit a pattern, cut and fit a garment, renovate a garment, learn about texture and durability of fabrics, how to care for the sick, how to cook, etc. . . . What the women learn benefits the entire family for they become more efficient home makers, which results in better homes."

An exhibition of the work of this department was again held in the State Armory, attracting more people than on the previous year.

The continued success of the department is the result of the efficient supervision of Miss Nellie A. Perry.

Americanization Work

During the school year 1928-29 the department spent \$4,890.60 in Americanization work. The state reimbursed the city \$2,326.69, making the net cost to the city \$2,563.91. This money pays for the services of the Supervisor, Miss Nellie A. Perry, and teachers for twenty-five different classes which meet in two-hour sessions twice a week for twenty weeks.

In these classes there were 536 people representing twenty nationalities distributed as follows:

5 American	5 German
2 Argentine	145 Italian
2 Austrian	17 Jewish
14 French-Canadian	1 Latvian
2 Chinese	7 Lithuanian
2 Danish	5 Norwegian
153 English Speaking Countries	1 Polish
2 Esthonian	1 Russian
91 Finnish	50 Swedish
1 Greek	30 Syrian

Only twenty-five of the students enrolled could not read and write in some language.

A new law went into effect on July 1, 1929, which makes naturalization much more expensive and exacting. This has not apparently decreased the number applying for preliminary papers, but has increased the number of men and women who come to the office of the School Committee for the help and information which Miss Perry knows so well how to give. A very important part of her work is advising and helping the foreign born who desire to become citizens.

The usual co-operating agencies have assisted the classes as in the past, and for this help we are very grateful. Miss Perry well says, "As we all co-operate, and I include all citizens of Quincy in this co-operation, in educating the aliens who are in Quincy and in meeting them with friendly and interested spirit, so shall we wipe out illiteracy in English, and the work of assimilation will be a definite reality."

In January, 1929, Mr. L. R. Alderman, Specialist in Adult Education of the National Bureau of Education, visited Massachusetts and was sent to Quincy as one of the places where he would see representative work in adult education.

The Evening Academic School

For the fiscal year ending December 31, 1929, \$3,273.23 was expended for evening school instruction and evening gymnasium classes, which is \$771.59 more than was spent the previous year. Part of the increase was used in the purchase of text-books adapted to the use of evening school students in Business English and Business Arithmetic. From now on it should be possible for the student to gain more from the class work because of more adequate material for study and reference.

Furthermore, 486 adults enrolled in this department in the fall. This is 139 more than in the corresponding period last year and necessitated more classes and teachers. The following table shows the enrolment by subjects with a comparison with other years.

FALL ENROLMENT

Subjects	1925	1926	1927	1928	1929
Advanced Bookkeeping	20	17
Bookkeeping	82	83	79	47	65
Business Arithmetic	100	92	119	69	102
Business English	178	128	191	109	146
Penmanship	96	55	89	44	80
Elementary Stenography	166	165	142	103	174
Intermediate Stenography	18	17
Advanced Stenography	24	32	36	39
Elementary Typewriting	235	215	194	142	226
Intermediate Typewriting	17
Advanced Typewriting	36	37	41
Mechanical Drawing	87	92	69	42	76
Grammar School Subjects	11	23	21	8
Algebra	13	49	35	50
Cultural English	48

A study of the above table will show that the bulk of the students are interested in subjects related to the commercial field and that these subjects are being sub-divided to meet the needs of the student. It is strongly felt by all connected with this work that too many adults enroll for elementary stenography.

A glance at the table shows that few of those who enroll in the elementary stenography classes return to study the subject another year, and if stenography is not studied for more than one evening school term, the student does not learn enough about the subject to make it of any value. The situation has been carefully explained to those beginning stenography for the first time in evening school, with the recommendation that other subjects offered would be of more value for the majority of students. So far we have been unable to find a satisfactory means of discovering in advance those by whom stenography might be studied with profit. It is a matter that needs careful consideration by everyone connected with this department.

For the past few years the Evening Academic session from 7.15 to 9.15 has been divided into three periods with the requirement that two periods must be directed to Advanced Bookkeeping, Advanced Stenography and Mechanical Drawing. Many students carry three subjects, such as Business English, Typewriting and Business Arithmetic. It may be wise to have but two hour periods in the evening, which would limit all students to two subjects with the requirement that students of Advanced Bookkeeping, Advanced Stenography and Mechanical Drawing spend the entire evening on one subject.

The evening gymnasium classes have continued popular with the women with waiting lists for classes in the North and South Junior High Schools. The gymnasium class for men was discon-

tinued at the South Junior High School, but was offset by the organization of a new class for men at the North end.

Many favorable reports of the benefits derived from these classes have been received. More adults should avail themselves of the opportunity for well planned exercise and recreation in the evening.

The Academic Summer School

The table below shows some of the important facts in regard to the school for the last five years.

DATA ON ACADEMIC SUMMER SCHOOL

Grades	Year	Total Enrolment	No. Teachers & Principals	Aver. Membership	Per cent Daily Attendance	Total Cost	Cost per Pupil
VB-VIIIA	1925	375	18	334.40	97.90	\$2,153.99	\$6.44
	1926	465	20	406.59	96.97	\$2,141.55	\$5.27
	1927*	423	20	394.46	98.48	\$2,336.71	\$5.92
IV-VII	1928	552	21	504.89	96.88	\$2,860.26	\$5.67
IV-VI	1929	348	16	311.01	96.53	\$2,256.09	\$7.25

*Summer School maintained for but 5 weeks.

The number enrolled was the lowest for many years, which reduced the number per teacher and raised the per pupil cost. The smaller classes, however, made it possible to do some excellent individual work. Of the pupils enrolled, 127 were to gain lost promotion, of which 109 or 85.8 per cent were successful; 9 or 7.1 per cent left before the close of the school, and the same number failed. One hundred ninety-eight registered to remove conditions of which 154 or 77.7 per cent were successful; 32 or 16.2 per cent left, and 12 or 6.1 per cent failed. Twenty-three registered to receive extra help, acceleration, or to strengthen their work, of which 17 or 73.9 per cent were successful, 5 or 21.7 per cent left, and 1 or 4.4 per cent failed.

As in past years, the pupils were tested during the first week with standardized tests and again at the close of the session. Only those pupils were recommended for promotion where the results of the last test showed the pupils to be up to grade and the teachers thought they were qualified.

Of the 186 pupils who attended summer school and were successful or left before school closed, 173 registered in the fall. Of these, 102 or 58.9 per cent are passing in all subjects; 40 or 23.1 per cent are failing in one subject, and 31 or 17.9 per cent are failing in two or more subjects. Of the pupils who are failing, just half of them are failing in subjects which they did not study in the summer school.

Of the 109 non-promoted pupils who gained promotion in summer school, 105 registered in the fall; 57 or 54.3 per cent are passing in all subjects; 22 or 20.9 per cent are failing in one subject and 26 or 24.8 per cent are failing in two or more subjects.

The standard tests in arithmetic and reading were given to all summer school pupils, regardless of whether they had been promoted in those subjects or not. It was discovered that not infrequently pupils, who, in the judgment of the teacher, had failed in arithmetic obtained scores far higher than those who had been promoted and that several children promoted in arithmetic obtained scores that indicated inability to do the work of the next grade. The same facts were true in reading. In view of those facts, arithmetic and reading were taught to all pupils whose test scores indicated the need of such instruction. The lack of correlation between test scores and report card marks seems to indicate the wisdom of testing in June all pupils throughout the elementary school with uniform standard tests or tests sent out from the central office.

Special Classes

Through the aid of the traveling Clinic from the Wrentham State School and the Habit Clinic, meeting at Woodward Institute every Thursday, it has been possible to have examined by experts almost every school child suspected of being three or more years mentally retarded.

During the last four years, over 336 children have been examined. Of this number 215 are three years mentally retarded or will be by the time they are fourteen years of age; 113 are dull but not feeble-minded.

Of the children three years mentally retarded 90 are in "Opportunity" classes in the elementary schools, 32 are in "Over-age" classes in the Junior High Schools, and 7 have been withdrawn from school because they were too low mentally to be taught in a public school.

One new Opportunity class was established in the Francis W. Parker School, which is able to care for practically all the children requiring such instruction in the northern section of the city.

A double portable school building has been moved from Adams Shore to the yard of the Central Junior High School, and two classes for children thirteen to sixteen years old and three or more years mentally retarded will be established just as soon as teachers qualified to teach such children can be obtained.

Special classes for feeble-minded children in the public schools are relatively new, and it is very difficult to obtain teachers properly qualified for the work. Special class teachers to be successful must not only have all the qualifications necessary for successful elementary school teaching but also special training in psychology of mentally defective children, technique of teaching retarded children, and a wide variety of handwork for children. Most important of all, these teachers must have unlimited patience, coupled with compassion for the unfortunate and a strong desire to serve.

Under-Age Children

Of the sixteen under-age children admitted to the first grade in September, 1928, as a result of intelligence examinations, fifteen are still in Quincy. Thirteen were promoted to Grade II, and of that number three are doing work of a very high quality, four are doing work of good quality, and six are doing work of average quality. Of the two not promoted, one was absent nearly one-half of the year because of sickness. The other failed through lack of

proper effort last year but is now doing very good work and may go on into Grade II before the school year is over.

Profiting by the experience of 1928, only those under-age children were allowed to be tested who became five during April and May preceding the opening of school. One hundred seventeen children were tested individually by teachers trained in such work. Sixty did not show evidence of being able to do first-grade work and admittance to school was refused. Fifty-seven obtained a mental rating which justified a trial in the first grade, of which number fifty-six availed themselves of the opportunity. Two children were withdrawn from school in the fall because of illness.

Reports from the teachers of the under-age children show the following facts—six are doing work of a very high quality, twenty-two are doing work of good quality, twenty-one are doing average work for the grade, four are doing work a little below average, and one is doing unsatisfactory work.

This practice of admitting to school children chronologically one to two months too young, if a mental test indicates they are able to do the work, seems to be justified by the school work of the children so far admitted.

On November 19, 1929, all first-grade children were given a group intelligence test and two facts of great importance stood out: (1) the intelligence of Quincy's first-grade children is above the average; (2) there were 112 children with mental ages below 5 years, 3 months and 22 with mental ages below 4 years, 9 months. Similar tests given in other years have disclosed the same facts. Now it is practically impossible for a child below 5 years mentally to do first-grade work. The twenty-two children with mental ages below 4 years, 9 months are trying to accomplish the impossible. If the School Committee is to continue to allow in the first grade children chronologically too young but mentally old enough to do the work, I believe they should take a similar step and exclude children under seven years of age in the first grade who, in the judgment of the teacher, and through group and individual intelligence tests are known to be mentally too young to do the work.

REPORT OF THE HIGH SCHOOL PRINCIPAL

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

Dear Mr. Muir:

I have the honor to submit to you the annual report for the Senior High School. The past year has been no different from many others in the respect that there is constantly present the problem of finding sufficient room in which to conduct the work of the school. In September we were so fortunate as to secure the use of several rooms in the Coddington School which allowed us to shorten the afternoon session required last year to one period of afternoon classes. A full afternoon session threatens for next year, however, unless more room can be found than is available at present. One statement regarding numbers will show the growth of the school. In October, 1928, there were enrolled 1662 pupils, while in October, 1929, there were enrolled 1799. In January, 1930, because the abolishing of mid-year classes does not yet affect the

Senior High School, there will be a net increase over the above numbers of at least 100 pupils.

The reorganized program of studies adopted last year seems to be working well. The general curriculum, particularly, is affording such freedom of choice in subjects that greater satisfaction and more interest are evident among a large number of pupils who previously felt themselves bound to a limited curriculum which did not wholly please or interest them. I may say in passing, also, that the increased number of points necessary for graduation and the higher passing grade have seemed to arouse greater endeavor on the part of the pupils and to be leading to better scholarship.

Since September we have been making a thorough study of our commercial department with the purpose of discovering how pupils in this department can be trained to an even higher degree of efficiency than at present. In this study we have been assisted by Mr. E. A. Zelliot, a graduate student at Harvard University. Detailed report of this study will have to be left for some later date. The program of commercial work has been considerably reorganized already and the increased room provided in the Coddington School has allowed us to broaden the work in a marked way. Space is afforded for a variety of office appliances such as the Ediphone, calculating machines, bookkeeping machines, and filing equipment. We now have the facilities for training our pupils for all types of office work.

A complete program of physical training is now in force in the school. Every pupil is given a physical examination on entering the school and all are required to take the work in physical training unless excused by the doctors conducting these examinations. More boys and girls are now engaging in some form of athletics than ever before, and a very healthy interest in sport is apparent throughout the school. Our athletic teams were unusually successful the past fall, showing results already from our enlarged physical program.

At the graduation exercises last June the following scholarships were awarded:

Wollaston Woman's Club Scholarships to Barbara B. Baltzer, who entered Simmons College, and Helen E. Malcolm, who entered Oberlin College; Quincy Women's Club Scholarships to Marjorie C. Cameron and Gunhild E. Anderson, who entered commercial schools; Rotary Club Scholarship to Dominic J. Chiminiello, who entered Massachusetts Institute of Technology. The Washington and Franklin medal for excellence in American History was awarded to Mary A. Reardon.

There were 27 pupils who took the College Entrance Examination Board examinations in June. The report from these examinations indicated that our pupils had been at least as successful as the average of the country as shown by the annual report of the Board. Moreover, two of our pupils received the highest mark in one examination each, having returned books which were rated perfect. In September, 45 graduates entered college and 17 entered State Normal Schools.

At the close of the last school year Josephine D. Baker, for three years dean of girls, resigned to accept a similar position in the High School at East Hartford, Connecticut. Mildred B. Harrison, a graduate of this school, who has had several years of successful experience in this line of work in other schools, was chosen to fill the vacancy. The valuable work of this position was most

successfully inaugurated by Miss Baker and is being carried on in the same efficient manner by Miss Harrison.

A year ago a Student Advisory Committee with representatives from each class was organized for the purpose of helping in the administration of the school. The Committee has taken upon itself the duty of assisting in definite lines such as supervising the cafeteria, arranging for auditorium activities during luncheon periods, reorganizing the traffic squad and compiling a handbook of the school which will be given to all pupils entering the school in order that they may more quickly become familiar with the requirements of the school and the opportunities afforded by it. In this connection it is a pleasure to note that the class graduating in June, 1930, has agreed to finance the issue of this handbook.

The school is crowded and we find ourselves hampered and restricted by lack of room, but the unusually fine spirit in the school this year has helped us to make light of difficulties and show progress in spite of handicaps.

We take pleasure in acknowledging a gift to the library by Mr. Carle R. Hayward, Quincy High School 1900, Associate Professor of Metallurgy in Massachusetts Institute of Technology, of his recently published book, "Outline of Metallurgical Practice."

In closing, I desire to express appreciation to you and the School Committee for affording us all possible facilities and equipment to carry on the work of the school and for unfailing help and support.

Respectfully submitted,

ERNEST L. COLLINS.

REPORT OF THE HIGH SCHOOL DEAN OF GIRLS

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

The work of the Dean of Girls in the Senior High School since October 1 has consisted of the following:

- Educational and Vocational guidance.
- Investigation and follow-up of special cases.
- Supervision of the social program of the school.
- Sponsorship of the "Big Sister" Club.
- Work with the Student Advisory Council.
- Various responsibilities in connection with the activities of other groups.
- Chaperone duties.
- Placement of girls in part-time positions.
- Care of Emergency Room cases.
- Cafeteria duty.

In addition to the above, I have been teaching two classes in English.

Respectfully submitted,

MILDRED B. HARRISON,
Dean of Girls.

REPORT OF SUPERVISOR OF MUSIC

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

It gives me pleasure to submit the following report for the music department:

In planning a music course for the public schools our two great objectives should be: First, to give the boys and girls such an understanding and appreciation of music that they may be able through life to enjoy and participate in music more intelligently; and second, to give those who later in life select music as their vocation, a broad and inspirational foundation upon which to build their work.

As in previous years, therefore, the children are being approached through every music channel possible, namely:

1. Vocal music, including classroom singing, music reading and interpretation in the elementary schools, and choral and glee club work in the high schools.
2. Music appreciation, motivated by and related to music memory contests in the elementary schools, and definitely outlined courses in the high schools.
3. Instrumental music, with class instruction offered for piano and all orchestra and band instruments from fourth grade through senior high school; also orchestras organized for all elementary, junior and senior high schools.

Vocal work is organized as in previous years and is required of all children except in senior high school, where choral work is offered as an elective subject with diploma credit. During this year an operetta has been presented by each junior high school and by the senior high school. Also the combined junior high glee clubs, a chorus of two hundred, gave a very creditable performance of the choral version of the opera Tannhauser, assisted by the senior high school glee clubs.

Music appreciation in the elementary schools is maintained as in previous years as a part of the regular work. In the junior high schools a regular text-book is used supplemented by records selected for this particular course. Unfortunately this phase of music work cannot be properly fostered in these schools until more program time is allowed for music. Courses in music appreciation and harmony are offered as electives with diploma credit in senior high school, and in many of the schools advantage is being taken of the Walter Damrosch music appreciation concerts on the radio.

Instrumental work is increasing rapidly, and there is good opportunity for growth since all classes, orchestras and band are developed outside of school time. Approximately two hundred fifty children are enrolled in classes for band or orchestral instruments, and this year, for the first time, piano classes have been organized with an enrolment limited to seventy. The demand for this was very great. Approximately four hundred boys and girls are participating in the band or orchestras of the schools. At the Massachusetts State Contest last May the Senior High School Orchestra won second place, the Senior High School Band won third

place, and the North Junior Orchestra not only won first place but also attained first prize in the New England Final Contest. Diploma credit is granted in senior high school for private violin study, as well as piano, and the music department owns thirty-seven instruments, including the more unusual ones such as tympani, bassoon, double basses, sousaphone and oboe. These are loaned to the children with no charge. The usual instrumental concert exemplifying all this orchestra, band and class work was given in May.

My earnest recommendation for the coming year is the adoption of a vocational music course in the senior high school, since so many of the students are preparing themselves definitely for the music profession, and it is the duty of the music department to meet this need.

In closing may I thank you for your co-operation, and may I express my gratitude to the school officials, the School Committee, the teachers and the community for their encouragement and support in the music work. I should like, also, to highly commend Miss Tuthill and Mr. Taylor for their loyalty and assistance.

Respectfully submitted,

MAUDE M. HOWES,
Supervisor of Music.

REPORT OF THE SUPERVISOR OF GRAMMAR GRADES

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

It gives me pleasure to submit the following report:

With the completion of the course of study for Cycle III, grades 5 and 6, the teachers of that cycle resumed the work of constructing a set of Objectives in English. Each teacher tried out with her own class her set of Objectives and then sent a copy of them to the office. These were placed each month in the hands of special committees, each committee being composed of three members. Their labor was, by the process of selection, elimination, addition and revision, to compile Objectives that might truly become the workable aims of every girl and boy in the system.

As a means of taking a step forward and at the same time recognizing the best purpose of rating, the teachers of grades 5 to 9 inclusive, have been asked to rate themselves once each semester, this rating to be strictly a personal matter and not to be submitted to anyone. While our rating system has never been guilty of one of the "most serious defects" of such systems, that of having been superimposed from above, we do feel that it can be made to have greater possibilities of helpfulness, these possibilities being obtained through "focusing the attention upon the pupil and upon pupil activity" rather than, as in former times, upon the teacher or the teaching process.

With this end in view, sheets for self-evaluation were distributed at the beginning of the year. These provided for self-examination regarding a few definite points under such properties as skill, class

technique, professional growth, corps d'esprit and personality, the teacher's best asset. The office has set apart the months of January and May for conferences—such conferences, however, being optional—and hopes to move toward the chief purpose of rating—the stimulation of “intelligent self-criticism of work.”

In closing, may I again express to you my sincere appreciation of your confident and interested support, and also thank my co-workers—the principals and teachers—for their spirit of gracious and loyal co-operation which enables me to “carry on.”

Respectfully submitted,

HELEN MAUDE DELLICKER,
Supervisor of Grammar Grades.

REPORT OF THE SUPERVISOR OF PRIMARY GRADES

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

Coming to Quincy after the spring recess of 1929 gave me an opportunity to observe the teaching in the primary grades from the standpoint of attainments for the school year. My objective was to gain as comprehensive a knowledge as possible of the schools in general, the syllabus in use, and the teaching personnel. To this end I spent most of my time observing classroom procedure.

I felt that the Bolenius system of reading in use here with its intensive method of instruction gave pupils a solid reading foundation, but needed to be supplemented with a diversified type of reading. To meet this need a class library was established in each room. We began this room library with at least fifteen books, all different, and hope to add something to this nucleus each year. Library tables which are low enough for the children are now being made for each room.

In a city with as large a foreign element as Quincy has and with such large numbers entering the first grade each fall without any kindergarten preparation, my recommendation would be to raise the school age of children or to establish sub-primary rooms to care for those not yet ready for the work of the first grade.

I wish to express my appreciation to you and to my co-workers, the principals and teachers, for the helpful co-operation which has made my coming both pleasant and inspirational.

Respectfully submitted,

HILDA GUNELL,
Primary Supervisor.

REPORT OF THE SUPERVISOR OF DRAWING

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

I herewith submit my annual report for the Drawing Department of the public schools of Quincy for the year 1929.

The drawing work in the first six grades has been continued along the lines followed in the past year, except in grades 4, 5 and 6 to whom have been issued a new course of study which places more emphasis upon design and the correlation of drawing with other school subjects.

At the time I was writing my last year's report, the pupils in the Junior High schools were working upon posters for a "Safety First" campaign. I am glad to report this year that the campaign came to a successful conclusion with an exhibition of a large number of posters in the Coddington School hall. This exhibition was honored with a visit from Commissioner Parker, Registrar of Motor Vehicles, and the Mayor of this city. A committee composed of the following members: Chairman, Mr. William A. Bradford, Mr. Oscar Stevens and Mrs. Clara Van Boemel, was chosen to select the best posters. This committee selected the poster of Ruth Bell, 9 A, of the North Junior High School as first choice; Lena Luciani, 8 A, of the Quincy Point Junior High School, second choice; Clare Simmons, 7 A, Central Junior High School, third choice; and commended Phyllis Williams, 9 A, and John Gill, 9 B, both of the North Junior, for their posters.

After the exhibition of the posters, a group was selected and sent to Commissioner Parker, Quincy Chamber of Commerce, Massachusetts Auto Rating and Accident Prevention Bureau, and to the Massachusetts Safety Council conference at the Hotel Statler. Through the generosity of Mr. Joseph Grossman, a picture was given to each Junior High School for their share in the "Safety" campaign.

Starting in October, 1929, the Junior High schools undertook to draw scenes for a Quincy calendar, following up an excellent suggestion made by Mr. Muir. These sketches were drawn by the 9th grade pupils and submitted to the Superintendent. Thirteen of these sketches were selected and they were then drawn and cut on linoleum blocks, the blocks then being printed in calendar form. All the pupils in the Junior High schools worked on the coloring of these sheets and the completed calendars were then sold in the schools.

A request came to the Art Department of the Junior High schools from the Physical Training Department for a design for an emblem for the Leaders' Club. Each school submitted designs, the winner being John Roberts of the Central Junior High School.

The Art Department suffered a loss in the spring of 1929 in the sudden death of Miss Ethel McKeown of the South Junior High School. Miss McKeown had high ideals, was a faithful and conscientious worker, and was exceptionally talented. Her going was felt by all who had come in contact with her.

Miss Vera Stevens is now filling this position at the South Junior High School.

I am glad to have this opportunity to thank Mr. Muir for his kindly interest and help in this department and the teachers and pupils for their splendid co-operation.

Respectfully submitted,

AMY E. ADAMS,
Supervisor of Drawing.

REPORT OF THE SUPERVISOR OF PHYSICAL EDUCATION

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

I herewith submit the report of the Department of Physical Education for the year 1929.

During the past year the elementary schools have had well-organized gymnastics with a time allowance of ten minutes daily, or fifty minutes weekly. In the first three grades thirty minutes of this time has been given over to games and dances, while in grades four, five and six twenty minutes weekly were allowed for games, the balance of time in each case being used for formal calisthenics. Real values in sportsmanship and fair play were taught through the medium of organized games at recess.

Medical examinations were given to all pupils in the seventh, ninth and tenth grades. These examinations covered heart, lungs and hernia and were conducted in co-operation with the School Physician, Dr. Maria E. Drew.

A definite program of graded work in marching, calisthenics, apparatus and games was started in September in the Junior High schools. This program will be enlarged and revised so as to provide a definite sequence of work in the seventh, eighth and ninth grades. These classes met for one fifty-seven-minute period weekly and were supplemented by a daily ten-minute calisthenic drill under student leadership. There were two hundred student leaders conducting these classes in the four Junior High schools.

The Senior High School classes were of forty-seven minutes' duration, which is too short a time to do effective work, as these classes meet but once a week. The class work was handicapped by crowded conditions and the teachers found that the doubling up of classes in the gymnasium with only a curtain separating them was a handicap to satisfactory results. In addition to calisthenics, marching and apparatus work, the fundamentals of games were taught in the gymnasium period, thus enabling all pupils to acquire the basic skills of the common forms of athletic games. The after-school activities in both the Junior and Senior High schools were given over to inter-class games and participation on school teams. All athletic activities in the Junior High schools were confined to local competition.

Our program of Physical Education as applied to athletics may be compared to a pyramid with class work the broad base of it, the inter-class program the middle section, and the school teams as the peak.

"Physical Education as a way of living will provide exercise as a by-product of interesting and worth-while recreations. Plays, games, sport and dancing will be engaged in because they are in themselves worthwhile, entirely sanctioned by an intelligent appreciation of wholesome living."

In closing I wish to express my appreciation to all who have co-operated in promoting the work in physical education.

Respectfully submitted,

WILLIAM H. WHITING,
Supervisor of Physical Education.

REPORT OF THE SCHOOL PHYSICIAN

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

I herewith submit a report of the health activities of the School Department for the year, 1929.

One of the outstanding events was the first visit of the Follow-Up Clinic to re-examine the group of children selected the previous year by the State Clinic of the Ten Year Program for the Prevention of Tuberculosis among School Children. Arrangements were made for the re-examination of these children at different school centers of the city beginning March 6 and ending March 15.

The extent of the work is shown in the following report:

Number of children recommended for re-examination.....	277
“ “ “ absent, moved away, left school.....	54
“ “ “ refused to be examined.....	10
“ “ “ re-examined	213
“ “ “ found to be improved.....	130
“ “ “ found to be unimproved.....	83
“ “ mothers present at examination.....	143
“ “ children who had tonsil and adenoid operation.....	31
“ “ “ having sanatorium treatment.....	16
“ “ “ who have had sanatorium treatment.....	7
“ “ “ recommended for sanatorium treatment....	1
“ “ “ recommended for X-Ray	8
“ “ “ recommended for summer camp.....	19
“ “ “ who went to summer camp in 1928.....	13
“ “ “ negative cases examined.....	1
“ “ “ found to be unimproved.....	1

The Follow-Up Clinic also visited Quincy for two days in December, the 4th and 5th, to apply the tuberculin test and X-Ray the children of this list in preparation for the physical examinations which will be given in January, 1930. At this visit 206 children were tested and X-Rayed.

Another important even was the immunization treatments given in the schools from April 22 to May 23, inclusive, in conjunction with the Diphtheria Preventive Campaign of the Department of Health. A total of 1,584 children completed immunization and 146 children completed the re-immunization treatments, making in all 1,730 children who were benefited by this Clinic.

We are greatly indebted to the Commissioner of Health, Dr. Edmund B. FitzGerald, and his staff of co-workers for the success of this very important preventive program.

During September the physical examinations of the girls and boys of the entering class of the Senior High School and the 7th and 9th grades of the four Junior High schools were completed by a group of doctors, namely, Drs. Hardwick, Katzeff and Manton, who examined the girls and Drs. Cook, Dalton and Smith, who examined the boys. The pupils of the Home Making School and the Trade School were also included in this program.

We wish to thank the Supervisor of Physical Education, Mr. Whiting, and the teachers of that department for their splendid and helpful co-operation.

In regard to the employment certificates for 1929, the following tabulation shows the extent of the work and also a marked increase in numbers.

Examination for Certificates of Employment Age 14 to 16 years

	Boys	Girls	Total
Form C Regular	61	4	65
Form D Non-resident	26	1	27
Form E Limited temporary	117	8	125
Form F Limited	57	5	62
Special Certificates:			
Farm	2	...	2
Domestic	7	7
Home Permit	10	10
	<hr/> 263	<hr/> 35	<hr/> 298

A total of 298 certificates was issued during the year.

The physical examinations of the children of the entering class of the elementary schools began in September. The abnormal conditions most numerous on the list were enlarged or diseased tonsils, and the varying degrees of malnutrition and incorrect posture. A total of 1,354 pupils was examined and 327 notices of defects were sent to parents or guardians.

The character of routine work remains the same, but as the school population increases, the field of endeavor is more extensive and the problems are more numerous.

Conditions of contagion compare very favorably with those of last year, except the scarlet fever report. The symptoms of that disease have been so very slight that it has been almost impossible to control the situation in the schools and safeguard the children from exposure to scarlet fever.

A glance at the report of the work of the school nurses shows the steadfast and efficient services rendered by them in their endeavors for the welfare of the school children. Their efforts are deserving of the utmost commendation.

In closing, please allow me to improve this opportunity to express my appreciation of the co-operation and helpfulness that has been so cheerfully contributed to this division and which has been of exceeding value to the success of the health program of the past year.

Respectfully submitted,

MARIA E. DREW,
School Physician.

CONCLUSION

The Superintendent has conducted monthly meetings with the Principals of the different buildings and frequent conferences and meetings with the Principals of the Junior and Senior High schools.

The outstanding meeting of the year was the general meeting held in the Central Junior High School March 20, 1929. The Superintendent gave a résumé of a few of the papers presented by

leading educators of America at the Convention of the Department of Superintendents of the N. E. A. held in Cleveland, February 23-28. It was a good meeting.

The School Committee has held its regular monthly meetings and many special meetings during the year. The salient points are given in the Committee's report in this volume.

All have given freely of their time and talent to further the interest of the schools of the city of Quincy.

What I should like to emphasize more than any other thing during the year 1930 is more attention to the individual. What is required is a system of education which shall encourage boys and girls to teach themselves; a system calculated to foster the child's curiosity; to make the desire for knowledge an habitual desire; and above all to familiarize each child with the best methods of acquiring it by his own efforts.

I wish to express my appreciation to all the employees of the school system whose co-operation and combined efforts have made it possible to further the progress of the schools.

Permit me again to express my appreciation to the Mayor and City Council for their consideration of the schools' needs and to the School Committee for their watchful helpfulness along so many lines. The manifest desire of each member of the Committee to promote the highest welfare of the schools makes it a satisfaction to serve the city.

Respectfully submitted,

JAMES N. MUIR,
Superintendent of Schools.

APPENDIX A

STATISTICAL DATA

1. Financial Statement for the Fiscal Year Ending
December 31, 1929

I. REGULAR SCHOOLS

Appropriated by City Council	\$1,064,627.00
Expended	1,044,125.43

Balance unexpended	\$20,501.57
--------------------------	-------------

Itemized Expenditures

Instruction	\$784,725.09
Administration	37,381.37
Travel Outside the City	100.28
Text-books	22,299.84
Stationery and Supplies	30,842.33
Operation	102,825.73
Maintenance	47,627.63
Miscellaneous	12,793.84
Evening Academic School	3,273.23
Summer Schools	2,256.09

Total	\$1,044,125.43
-------------	----------------

II. STATE-AIDED SCHOOLS

Independent Industrial School

Appropriated by City Council	\$51,485.00
Smith-Hughes Fund, Balance from 1928	3,357.45

¹ Continuation and Trade Schools located in Senior High Building.

² One is also included in Junior High.

³ Two teach also in Senior High School; one in Home Making Evening School for Women.

⁴ Two teaching part time.

⁵ Seven teach also in Senior High School; six in Junior High Schools; one in Trade School.

⁶ Three teach also in Trade School.

⁷ One teaches also in Home Making School.

⁸ Two teach also in Elementary Schools; four in Senior High School; three in Junior High Schools.

7. Report of Supervisor of Attendance

MR. JAMES N. MUIR, *Superintendent of Schools, Quincy, Mass.*

My dear Mr. Muir:

I hereby submit my thirty-third annual report for the twelve months ending December 31, 1929.

Number of cases investigated for non-attendance as per blanks	1,024
Number found to be truants	153
Number of transfer cards investigated	940

Details regarding attendance work and employment certificates for year ending December 31, 1929, appear in the following tables:

Attendance Work by Months

1929	Number of Cases Investigated	Actual Truants
January	114	20
February	133	9
March	24	10
April	95	17
May	114	22
June	90	5
September	67	22
October	77	21
November	147	21
December	163	6
Totals	1,024	153

**Employment Certificates Issued for the Year Ending
December 31, 1929**

	Boys	Girls	Total
Educational Certificates, Form I:			
16 to 18 years of age	584	478	1,062
18 to 21 years of age	395	348	743
Employment Certificates (14 to 16 years of age):			
Form C (regular)	61	4	65
Form D (non-resident)	26	1	27
Form E (limited—temporary)	117	8	125
Form F (limited)	57	5	62
Special Certificates:			
Farm	2	2
Domestic	7	7
Home Permit	10	10
	1,242	861	2,103

Total number issued in 1929	2,103
Total number issued in 1928	1,597
Increase for year	506
Total number of newsboys' licenses in force	191

Respectfully submitted,

CHARLES H. JOHNSON,
Supervisor of Attendance.

APPENDIX B

LISTS OF GRADUATES

1. High School

(a) JANUARY, 1929

Irma T. Aho	Violet Irene Johnson
Helen Rita Barnaby	Warren E. Kelcourse
George Stephen Bennett	Marion R. Kimball
Pearl E. Bianchi	Aili Irene Koski
Hilda L. Blake	Sadye Kurtzman
Agnes Thora Bloch	Edna M. Lister
Eleanor C. Boynton	Betty L. Loud
Ann Margaret Brown	William Frederick Lundy
Mae J. Brown	John Sautter McGirr
Priscilla E. Browne	Louise G. McLaughlin
Alvin Vincent Bryant	Ruth F. MacPherson
Stuart Henry Buck	Elba D. Magrini
John G. Burke	Helen E. Malcolm
Marjorie C. Cameron	Francis H. Mallett
Florence Capobianco	Leo Augustine Mallett
Henry Anthony Cashman	Eleanor C. Marden
Dominic J. Chiminiello	Vivian M. Mattson
Virginia Churchill	Kathleen Marie Medros
Dorothy Louise Cobb	Jean Campbell Mitchell
Doris E. Coffman	Victoria E. Montuori
Edith Louise Cole	Frank Packard Morse
Thomas William Cook	Muriel A. Murchison
Theresa Crosta	Bertha E. Nelson
Elizabeth Johanna Curran	George Faulkner Nelson
Howard J. Deacon	Hazel Astrid Nelson
John Francis Denneen	Bernice Irleen Noble
Kathryn Marjorie Driscoll	Marie J. O'Connell
Lillian Rose Drohan	Jennie Ellen Odom
Lloyd B. Douglass	Esther R. Olive
Mildred Mae Edgar	Leslie Robert Olson
Thomas F. Eovacious	Alice W. Parker
Fred J. Faulkner	Carl Brown Peterson
Beatrice Vinton Fitts	Wilfred Lester Peterson
Anna Sophie Franks	Lino Angelo Ponti
Barbara Jean Fraser	Ella Florence Pratt
Ena Fredette	Lora Marion Pratt
Marius J. Gelas	Mary Rosamond Prout
Anna Mae Gillis	Katherine G. Pyyny
Ruth W. Guilmartin	Margaret Helen Quinn
Sam B. Goldstein	Hazel Cogner Ramsay
Sylvester R. Gookin	Frances B. Raymond
Earle Clifford Grenquist	Elmira E. Reed
Richard C. Hammond	Arthur A. Riihimaki
Frederick Hill	Cecilia R. Riley
Wilbur F. Hodgdon	Katherine F. Riley
Gordon Edward Holland	Harold Charles Rizzi
Frederick W. Huovinen	Leighton P. Rogers
George Bowman Hutchinson	Ina Marie Roklund

Lilly A. Rosenquist
Virginia Rountree
Eva P. Ruscitto
M. Blanche Savage
Herbert Walter Sawyer
William W. Seppala
Clara V. Serafinelli
Daniel Michael Shea
Mary H. Shea
J. Walter Sillen
Inez I. Sjostrom

Minnie K. Smith
Elvira M. Stevens
Alice S. Stuart
Vaino A. Tirri
Vera Ruth Wagner
Francis Melvin Walsh
Mary R. Wardley
Dorothy Eleanor Weeden
Carol A. Wilmore
Irja Pauline Wuori

(b) JUNE, 1929

Grace Hutchinson Absalom
Carl August Acker
Lillian Aitken
Charles H. Anderson
Esther Harriet Andersen
Evelyn Juliette Anderson
Godfrey Bertil Anderson
Gunhild Elizabeth Anderson
Mae Christine Anderson
Doris Stella Arrigoni
Hyman Asnes
Lea Norma Aspesi
Laura Catherine Bailey
Rutherford Earl Bailey, Jr.

David James Baxter
Harry Asel Beede
Henry Bennett
George Patterson Bentley
Beatrice Doris Blackmore
Edward Arthur Bohlken, Jr.
Helen Dorothy Bostrom
Harold Ridge Boyd
Ada Louise Buckley
Rosina Josephine Burnell
Horace Brown Call
Mary Clare Caperci
John William Carey
Edla Victoria Carlson
Gordon Demarest Carr
Ernest Edward Caruso
Frances Eleanor Cerro
Barbara Avaline Chandler
Catharine Cochrane
Max Coffman
Marion Josephine Coleman
Hazel Collins
Robert H. Collupy
Caroline Leslie Connor
Catherine Helen Conroy
Robert Henry Cook
Florence Roberta Cope

Mary Margaret Cosgrove
Francis X. Coughlin
Ruth U. Coughlin
Phyllis E. Countway
Louise Crimmins
Thomas V. Cummings
Genevieve Elizabeth Cunningham
Chester H. Dahl
Lillian E. Dahlby
Marion F. Daniels
Amelia DeNicola
Aura DiBona
Anna Josephine Donovan
Margaret Mary Louise Donovan
Lewis Bradford Doten
David L. Douglas
Richard S. Douglas
Arthur Doyle
Mona Alberta Echburg
Alton Manfred Eck
Mary Elizabeth Evans
Eleanor Ruth Feurtado
Esther Doris Foley
Margaret Mary Foley
William H. C. Ford
Donald Livingston Foss
Evelyn L. Foster
Warren S. Freeman
Bernard Fritz
Mary Cecelia Fruth
Eileen Louise Ganley
Grace Elizabeth Garland
Russell Gaudreau
Oscar R. Gelotte
C. Agnes Gentry
Clinton A. Gerlach
Ferrer Joseph Giarrusso
George Glazebrook, Jr.
Geraldine Gertrude Gove
Charles Henry Grocott, Jr.
Franklin Leroy Greene
Fred George Haffner

Doris Evelyn Hallett
Elsie C. Hanlon
Arvilla W. Harden
Joseph Louis Hart
Mildred Rose Haslam
Frank James Haywood
Margaret Mary Hebert
Alice M. Hedein
Mary Gertrude Hennessey
Charles R. Herbert
Irene Marie Hicks
Etta M. Hicken
John E. N. Hipson
Mary A. H. Horn
Francis John Hornbrook
H. Maurice Hughes
Lillian Harriet Hussey

Lillian S. Jutila
Grace Anne Kappler
Helen E. Kelly
Edward L. Kenney
Margaret Evelyn Kerns
Mildred Marie Kerrigan
Kathleen Louise Kiernan
Mary S. Kurlansky
Kingsbury C. LaDue
Urho I. Laitenen
Elsie Mae Lehtonen
Flora Dean Lendman
Edward Leone
Gladys Margaret Lester
Benton Levinson
Bertha Lewis
Orlando Vivian Libby
Winton Cheney Libby
Gustav Utne Liljegren
David Lubarsky
Carl G. Lundgren
Daniel Joseph Lynch
Douglas Joseph MacDonald
Jean MacDougall
Dorothy Grant MacGregor
Myrtle Ruth MacLeod
Duncan Kenneth MacPherson
Evelyn R. Mahoney
Carolyn Irene Mango
Emelie Marie Marchant
Roland Henry Mattson
Agnes Elveria McDonald
William H. McDonald
Ruth A. Irene Mattson
Veronica M. McGillicuddy
Florence G. McNamara
Kenneth R. Melville

Charlotte Winifred Miller
Ruth Doris Miller
Helen Finlayson Morris
Barbara Morrison
Reginald Morrison
Edward Parker Morse
James J. Mullarkey
James Francis Murphy
John M. Murphy
Charlotte Ann Myatt
Harold Alexander Nannis
Eva Nelson
Robert David Newman
Evangeline Henrietta Nicolle
Margaret Carolyn Nielson
Weikko V. Nikander
Miriam E. Nisula
James Edward Norrie
Clifford A. O'Connell
Barbara Benson Oldham
John Joseph O'Leary
Helen Gertrude Ordway
William Brown Paterson
Thomas R. Pendergast, Jr.
Jeanette Anne Pendleton
Marjorie Lucille Phelps
Fred Franco Pimentel
Richard Kenneth Pine
Thomas Archer Pine, Jr.
Arthur Allan Pinkham
Charlotte Pottle
Christine Margaret Purpura
Allan B. Rattray
Charlotte Ray
Mary Agnes Reardon
Carmel Marguerite Reilly
Sidney Jordan Resnick
Myrtle Cora Richards
Ernestine King Richardson
Ida Von Riegers
Dorothy Jean Roberts
Ruth Edith Russell
Lincoln Woodbury Ryder
Marjorie Eleanor Saunders
Ruth Scammell
Doris Louise Schultz
John D. Schultz, Jr.
Samuel David Shapiro
Elizabeth Shaw
Gertrude Beatrice Shea
Valerie Gavin Shea
Bernice Beryl Sher
Joseph F. Sheridan
Jessie Simson
Nels A. L. Sjostrom
Donald Monroe Smith
Dorothy Somers
Cora M. Spooner

George F. Sprague
 Fanny Irene Stenborg
 Ralph A. Stephenson
 Ruth Lillian Stephenson
 Phillip Stoner
 James Ellsworth Sumner
 Martha H. Swanson
 Nels Arthur Swenson
 George P. Taylor
 Mildred Hilja Teirila
 Martha A. Thorley
 Mildred Florence Tinney
 Astro John Tuomi
 Richard Dickinson Turner
 William Urquhart

Evangeline Valley
 Katherine Giles Waddell
 Esther Agnes Wallin
 Alice Margaret Wann
 Charles Arnold Wasburn
 Janice Whitcher
 Alice Mildred White
 Viola Mae White
 Lincoln Ward Whittam
 Austin Wickwire
 Gilbert G. Wiley
 Kenneth MacIntyre Williams
 Alice C. Wilson
 Helen C. Wilson
 Evangeline Victoria Zinck

2. Graduates from the Home Making School, June, 1929—19

Lucretia Jean Allen
 Edna May Beausang
 Adelaide Brown
 Marjory Churchill
 Rose Marie Comparato
 Hilda Charles Drew
 Emma Laura Eldridge
 Alice Yvonne Haydock
 Phyllis Mable Kilpatrick

Mary Antoinette Lomanno
 Aune Helen Niemi
 Martha Helen Niemi
 Anna Barbara Odermatt
 Elsie Mary Pinola
 Eva Salvucci
 Annie Smart
 Helen Katherine Smith
 Annie Watt

Doris Romona Yoerger

3. Graduates from the Industrial School, June, 1929—29

John Berio
 Warren Philip Burke
 Harold P. Collins
 William B. Drayton
 Humbert Earl Drew
 Walter I. Ferguson
 George P. Hanlon
 Raymond A. Hill
 Edwin G. Johnson
 Thomas F. Keefe
 George Francis Landry
 Roderick F. McAlpine
 Joseph Ralph McKenna
 Arthur Charles McLaughlin
 John Leo Malone
 John P. Mullin
 Edward R. Myrbeck
 Stanley Francis Newson
 Francis G. Nigro
 Joseph J. O'Brien
 Lauri Henry Pitkanen
 Alfred O. Saunders
 William M. Schatzel
 Frank Peter Tapella
 Burton B. Thomas
 Norman R. Webster
 William Wuori
 Waino E. Ylonen
 John Joseph Zampine
